OMEGA REGIONAL COORDINATED PUBLIC TRANSIT/ HUMAN SERVICES TRANSPORTATION PLAN

2019-2022

OMEGA
OHIO MID-EASTERN GOVERNMENTS ASSOCIATION

In partnership with:

U.S. Department of Transportation
Federal Transit Administration

OHIO DEPARTMENT OF **TRANSPORTATION**

OMEGA REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN

2019-2022

RESOLUTION NO. 2019-05

A RESOLUTION ACCEPTING AND APPROVING THE REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN FOR BELMONT, CARROLL, COLUMBIANA, COSHOCTON, GUERNSEY, HARRISON, HOLMES, JEFFERSON, MUSKINGUM, AND TUSCARAWAS COUNTIES AND APPROVING SUBMISSION OF THE FINAL PLAN TO THE OHIO DEPARTMENT OF TRANSPORTATION (ODOT).

WHEREAS, the Ohio Mid-Eastern Governments Association in conjunction with the transportation service providers, mobility managers, human service agencies, seniors, individuals with disabilities, and members of the general public developed a regional coordinated plan, the implementation of which will increase ridership and provide for most cost effective transportation services throughout the region; and

WHEREAS, regional coordination of public and private transportation systems and human service agencies will promote Enhanced Mobility for Seniors and Individuals with Disabilities as well as others who are in need of transportation services; and

WHEREAS, the FTA Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program provides operating and capital assistance funding to provide transit and purchase of services to private nonprofit agencies, and to qualifying local public bodies that provide specialized transportation services to elderly persons and to people with disabilities; and

WHEREAS, the Regional Coordinated Council reviewed the Regional Coordinated Public Transit/Human Services Transportation Plan and recommended approval by OMEGA's Executive Board.

NOW, THEREFORE, BE IT RESOLVED THAT THE EXECUTIVE BOARD OF THE OHIO MID-EASTERN GOVERNMENTS ASSOCIATION APPROVES THE REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN AND SUBMISSION OF THE FINAL PLAN TO THE ODOT.

DATE: December 10, 2019

Executive Summary

This regional coordinated plan is the Public Transit-Human Services Transportation Plan for the ten-county region of Ohio Mid-Eastern Governments Association (OMEGA). The ten counties included in this plan are Belmont, Carroll, Columbiana†, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas Counties. The plan was developed between 2018-2019. This plan fulfills the requirements of the Federal Transit Administration (FTA) under the Fixing America's Surface Transportation (FAST) Act, signed into law as a reauthorization of surface transportation programs through Fiscal Year 2020. According to requirements of the FAST Act, locally developed coordinated public transit-human services transportation plans must be updated to reflect the changes established by the FAST Act legislation. The FAST Act applies new programs and rules for all Fiscal Year 2016 funds and authorizes transit programs for five (5) years.

Transportation is a critical component of the communities in the OMEGA Region. Transportation provides access to jobs, education, health care, human services and allows all community members, including older adults and people with disabilities, to live independently and engage in community life. It is the purpose of this plan for local stakeholders to work collaboratively to do the following activities.

1. **AVAILABLE REGIONAL RESOURCES FOR TRANSPORTATION**

There are 71 transportation service providers or human service agencies that provide or contract transportation services within the OMEGA Region. The public served includes seniors, people with disabilities, zero-vehicles families, low income individuals, unemployed, veterans, Medicaid-eligible individuals, people with a low English proficiency, and others. These organizations by county include:

REGIONAL TRANSPORTATION SERVICE PROVIDERS LIST	
BELMONT COUNTY	• Barnesville Taxi Service
	• Belmont County Dept of Job & Family Services (BCDJFS)
	• Eastern Ohio Regional Transit Authority (EORTA)/ Ohio Valley Regional Transit Authority (OVRTA)
	• Martins Ferry EMS
	• National Church Residences
	• Neffs Fire Department
	• Senior Services of Belmont County (SSOBC)
CARROLL COUNTY	• Carroll County Board of Developmental Disabilities - Carroll Hills School (CCBDD)
	• Carroll County Board of Developmental Disabilities – Community Employment (CCBDD)
	• Carroll County Council on Aging
	• Carroll County Jobs & Family Services (Carroll Co JFS)
	• Carroll County Transit
COLUMBIANA COUNTY†	• Alpha Care
	• Calcutta Health Care Center
	• CARTS- Community Action Agency

† = *Columbiana County will have to refer to their county coordinated plan in order to apply for ODOT funding.*

COLUMBIANA COUNTY† (continued)	• Change, Inc
	• Checker Transportation
	• Columbiana County Educational Service Center
	• Columbiana County Veterans Service Commission
	• Covington Skilled Nursing
	• EDI
	• EMT (Emergency Medical Transport)
	• Head Start – Community Action Agency
	• KLG Mobile Intensive
	• Lifeteam EMS
	• North Star Critical Care
	• The Orchards of East Liverpool
	• Parkside Health Care
	• Paul's Cab Company
	• Quaker Cab Company
	• Salem Health Care Centers (North & West)
	• Tri-State Cab Company
	• Vista Center
	• We Are Blessed Transportation
	• Wee The People
COSHOCTON COUNTY	• Coshocton County Coordinated Transportation Agency (CCCTA)
	• Coshocton Senior Center
	• Hopewell Industries, Inc.
	• Residential Home for the Developmentally Disabled (RHDD)
	• Veteran's Service Commission
GUERNSEY COUNTY	• Countryview Assisted Living
	• Guernsey County Department of Job and Family Services
	• Guernsey County Senior Citizens Center
	• Guernsey County Veteran's Services
	• South East Area Transit
	• Society for Equal Access
HARRISON COUNTY	• Harrison County Department of Jobs and Family Services (HCDJFS)
	• Harrison County Public Transit
	• Harrison County Veteran Services Commission
HOLMES COUNTY	• Holmes County Board of Developmental Disabilities (HCBDD)
	• Holmes County Council on Aging, Inc.
	• Holmes County Jobs & Family Services (HCJFS)
	• Holmes County Veterans Services
	• Lynn Hope Industries
	• Precious Angel Transportation

† = *Columbiana County will have to refer to their county coordinated plan in order to apply for ODOT funding.*

JEFFERSON COUNTY	• Checker Transportation/Ambulance Services, Inc.
	• PALS, Chrysalis Health
	• Prime Time Office on Aging
	• Steel Valley Regional Transit Authority
	• TranSmart USA
MUSKINGUM COUNTY	• Allwell Behavioral Health
	• Genesis HealthCare System
	• Muskingum County Board of Developmental Disabilities
	• Muskingum County Center for Seniors
	• Muskingum County Job & Family Services
	• Quality Care Partners
	• South East Area Transit
	• The Carr Center
	• Zanesville-Muskingum County Health Department
TUSCARAWAS COUNTY	• Community Mental Healthcare Inc
	• Horizons of Tuscarawas & Carroll Counties Inc
	• Society for Equal Access (SEA)
	• Tuscarawas County Job & Family Services
	• Tuscarawas County Senior Center

Mobility Managers in the region help connect the public to the transportation providers in a non-biased service and area a valuable resource for information and travel training.

LIST OF MOBILITY MANGERS					
County	**Name**	**Agency**	**Address**	**Phone**	**Email**
Current Coverage (2019)					
Carroll, Guernsey, Harrison, *Muskingum* ** **Tuscarawas**	Shannon Hursey	Senior Center of Tuscarawas County	425 Prospect St, Dover, OH 44622	330-364-6611	slhursey@yahoo.com
Columbiana†	Deb Hill	Community Action Agency of Columbiana County (CAAofCC)	7880 Lincole Pl, Lisbon, OH 44432;	330-870-4345	Deb.Hill@caaofcc.org
Coshocton	Tracy Haines	Coshocton County Coordinated Transportation Agency (CCCTA)	401 Main Street, Coshocton, OH 43812	740-623-2564	tracyhaines@coshoctoncounty.net

† = *Columbiana County will have to refer to their county coordinated plan in order to apply for ODOT funding.*

County	Name	Agency	Address	Phone	Email
Future Addition Determination (2020)					
Belmont*	TBD	National Church Residences Transportation Services, LLC	485 North Street, Barnesville, Ohio 43713	740-619-0239	PHickenbottom@nationalchurchresidences.org
Muskingum County**	TBD	South East Area Transit (SEAT)	375 Fairbanks Street, Zanesville, Ohio 43701	740-454-8574	director@seatbus.org

*Belmont County has been selected by ODOT Office of Transit to begin Mobility Management services in 2020, a representative will be named at that time.

**Muskingum County is currently covered by Shannon Hursey until responsibilities are transferred to a representative from SEAT.

Specific information about each Transportation Service Provider is in **Section III** and **Appendix E** of this plan.

2. **REGIONAL TRANSPORTATION CHALLENGES AND NEEDS**

   Several challenges to the regional coordinated transportation and unmet transportation needs have been identified by the Regional Coordinated Council as well as members of the public. These challenges and unmet transportation needs include:

   CHALLENGES TO REGIONAL COORDINATED TRANSPORTATION

   - Limited Funding
   - Local Match
   - Limited Resources/Technology
   - Limited Broadband Service
   - Insufficient Marketing
   - Outreach to Public
   - Incompatible Technology among Agencies
   - Trip Duplications
   - Transportation Service Provider Barriers/Limitations to Serve Public
   - Trip Denials
   - Eligibility Requirements
   - Maintaining Qualified Drivers
   - Sustainable Staff Size
     - Drivers
     - Schedulers
     - Dispatchers
   - Trip Billing Across the Region
   - No Set Fees for Out-of-Region Trips

.

- Transportation Across County Borders
- Each County Department of Jobs & Family Services Operate Independently
- Local Hospitals Closing
- Lack of consistent policies across all agencies, such as for no-shows or denials

UNMET REGIONAL TRANSPORTATION NEEDS

- More Weekend Service
- More Travel Service & Payment Options
- More Efficient Employment Transportation
- Expand Other Types of Transportation Service
- Improve & Increase Bus Service
- Expand Non-Medicaid Service Hours
- Offer Transfers & Improve City Connections
- Increase Medical Transportation Outside County & State
- Easy Fare/Rate for Low Income Individuals for Regional Mobility
- Simplify Public Information (i.e. brochures)
- Local Area Hospitals Closing Causing Longer Trips for Providers and Patients
- More Frequent Trips
- Evening Transportation Service
- Transportation to and from the Akron/Canton Airport
- Bus Stop Shelters
- Day & Seasonal Passes

3. **REGIONAL COORDINATED PLAN FOR ACHIEVING SHARED GOALS**

Five goals were established to guide the Regional Coordinated Transportation plan and to identify strategies that can be used to achieve the Coordinated Transportation Plan goals. These are the five goals developed by the Regional Coordinated Council followed by their associated strategies:

1. **Increase Ridership for all Transportation Service Providers and Transit Agencies in the Region.**
    1.1. *Extend service hours of transportation service providers and human service agencies to supplement necessary trips, maybe more on demand.*
    1.2. *Increase marketing and advertising of transportation services especially in conjunction with the Mid-Ohio Mobility Solutions.*
    1.3. *Coordinate affordable rates for the public that use transportation service in the region.*
    1.4. *Continue regional and local coordination of transportation service providers, human service agencies, and other participating stakeholders.*
2. **More Efficient Out-of-County and Out-of-Region Transportation Service.**
    2.1. *Cost-allocation, billing, and rates between transportation service providers and human service agencies.*
    2.2. *Utilize and implement a common scheduling technology to be used throughout the region.*

2.3. *Coordinate and continue regular quarterly meetings and conference calls/webinars for the Regional Coordinated Council, Regional Coordinated Planning Committee, and Regional Mobility Managers.*

2.4. *Meet with each county Department of Jobs & Family Services individually and as a group.*

2.5. *Produce and provide a Hot-Spot Analysis of major trips and destinations in and out of the region on an annual basis.*

2.6. *Establish a committee to develop Best Practices & Memorandums of Understanding (MOUs) for the Region.*

3. **Reduce Denials and No-Shows of the Riders that Use Transportation Service in the Region.**

3.1. *Utilize the Mid-Ohio Mobility Solutions as a tool for Transportation Service Providers and Human Service Agencies to coordinate regional trips.*

3.2. *Coordinate regional trips using scheduling technology/software between the transportation providers.*

3.3. *Communicate and coordinate with all Department of Jobs & Family Services in the region on local needs.*

3.4. *Reduce one-person vehicle trips for all transportation providers in the region by coordinating rides.*

3.5. *Share Transportation Service Provider Inventory or Scheduling Software with Medical Providers in order to schedule rides with medical appointments.*

3.6. *Establish a satellite mobility solutions center for the eastern part of the region.*

4. **Cost-Effective Vehicle Replacement for all Regional Transportation Service Providers.**

4.1. *Document and log vehicle age, condition, mileage and any other important data relating to vehicle usage on an annual basis.*

4.2. *Explore and create innovative funding options for all stakeholders involved with the regional plan.*

4.3. *Develop a timeline for vehicle replacement in order for transportation providers to better serve the needs of their service area and the region.*

4.4. *Establish minimum regional requirements for vehicles and drivers that serve the senior population and people with disabilities.*

5. **Increase Employment Transportation Options for Jobseekers and Employees.**

5.1. *Increase public education and awareness on the transportation options available for employees and job candidates.*

5.2. *Partner with local and regional businesses to more efficiently track the need for employment transportation.*

5.3. *Coordinate with job & career training centers in the counties in our region to provide reliable transportation for jobseekers.*

5.4. *Establish car-share rides across age groups in the employment force.*

5.5. *Coordinate vanpools/carpools with local coordination planning teams in each county.*

5.6. *Allow sharing rides between counties.*

5.7. *Establish a Public Transit Coalition for the region.*

Transportation service providers and mobility managers have identified 37 projects to meet these goals and strategies. More information on these projects can be found in **Section V** and **Appendix K**. Funding for operations, capital improvements and mobility management will be needed.

During the planning process, many stakeholders have begun their own implementation of regional coordination and have initiated their own pilot projects within this pilot regional coordinated transportation plan. These include:

- CTS Scheduling Software Collaboration
- Mid-Ohio Mobility Solutions/Regional Call Center
- Columbiana County Deviated Fixed Route Shuttle "Make the Connection"

There have been successful outcomes so far and these anecdotes have been recorded. These include:

- Commissioners Promote Public Transportation in Tuscarawas County
- Public Transit and Community Health – Muskingum County
- Cross County Transportation Service
- Regional Networking to Schedule Out-of-Region Trips
- Multi-Modal Transportation Out-of-Region Trip
- Cross County Mobility Service for Low Income Victim of Domestic Violence
- Transit Redesign to Accommodate Employment Opportunities
- Cross County Public Transit Agency Employment Transportation Coordination
- Out-of-Region & Out-of-State Transit Service
- Mid-Ohio Mobility Solutions: Four Initial Success Stories

Fundamental to the Coordinated Transportation Plan process is the active and meaningful involvement of stakeholders. For projects selected for funding under the Section 5310 program, participation in planning activities must include participation and/or representation of the following, at minimum:

- Seniors
- Individuals with disabilities
- People with low incomes
- Veterans
- Unemployed
- Job seekers
- People that do not own vehicles
- People with limited English proficiency
- Students in vocational schools, college, or universities
- Students with disabilities and transportation challenges
- Medicaid-eligible individuals
- Dialysis patients
- People that live in areas with limited or no transportation service available
- Public, private and non-profit transportation providers
- Human services agencies
- The general public.

In order to ensure participation from the above groups the following stakeholder involvement activities were performed

- Regional Coordinated Council – Inaugural Roundtable Discussion – April 6, 2018
- Regional Coordinated Council – 2017 Origin-Destination Data Deadline – June 30, 2018
- Regional Coordinated Council – 2nd Roundtable Discussion – September 26, 2018
- Regional Coordinated Council – Letters of Intent Due – October 19, 2018
- CTS Coordination Meeting – December 13, 2018
- Regional Coordinated Plan – Public Survey Open – January 2, 2019
- Regional Coordinated Council – 3rd Stakeholders Meeting – January 16, 2019
- Regional Mobility Management – Conference Call – February 1, 2019
- Regional Coordinated Council – February Conference Call – February 20, 2019
- Regional Mobility Management – Conference Call – March 1, 2019
- Regional Coordinated Council – March Conference Call – March 20, 2019
- Regional Mobility Management – Conference Call – April 5, 2019
- Regional Coordinated Council – 4th Stakeholders Meeting – April 17, 2019
- Regional Mobility Management – Conference Call – May 3, 2019
- Regional Coordinated Planning Committee – Initial Conference Call – May 6, 2019
- Regional Coordinated Council – Guernsey County Public Workshop – May 8, 2019
- Regional Coordinated Council – Jefferson County Public Workshop – May 13, 2019
- Regional Coordinated Council – May Conference Call – May 15, 2019
- Regional Coordinated Council – Tuscarawas County Public Workshop – May 16, 2019
- Regional Coordinated Council – Columbiana County Public Workshop – May 20, 2019
- Regional Coordinated Council – June Conference Call – June 6, 2019
- Regional Mobility Management – Conference Call – June 14, 2019
- Regional Coordinated Council – Muskingum County Public Workshop – June 10, 2019
- Regional Coordinated Council – July Conference Call – July 24, 2019
- Regional Coordinated Plan – Public Survey Closes – July 31, 2019
- Regional Mobility Management – Conference Call – August 2, 2019
- Regional Coordinated Planning Committee – Conference Call – August 5, 2019
- Regional Coordinated Council – Transportation Service Provider Information Tables Due – August 21, 2019
- Regional Coordinated Council – 5th Stakeholders Meeting – August 24, 2019
- Regional Coordinated Council – 5310/5311 Project Forms Due – August 30, 2019
- Regional Coordinated Council – 2018 Origin-Destination Data Deadline – August 30, 2019
- Regional Coordinated Council – September Conference Call – September 18, 2019
- Regional Coordinated Plan – Draft Plan Due to ODOT & RCC – September 30, 2019
- Regional Coordinated Plan – Draft Plan Due to Public – October 15, 2019
- Regional Coordinated Council – October Conference Call – October 17, 2019
- Regional Coordinated Council – Draft Plan Comments Due – November 1, 2019
- Regional Coordinated Council – 6th Stakeholders Meeting – November 22, 2019
- Regional Coordinated Plan – Public Comments Due – November 30, 2019
- Regional Coordinated Plan – Executive Board Adoption – December 10, 2019

- Regional Coordinated Plan – Final Plan Due – December 31, 2019
- Regional Coordinated Council – Plan Implementation Begins – January 2020

The regional coordinated transportation plan was developed and motioned for adoption by the Regional Coordinated Council on November 22, 2019. The regional coordinated transportation plan was adopted by the OMEGA Executive Board on December 10, 2019. More information about the Regional Coordinated Council can be found in **Appendix A**.

I. Geographic Area

The Ohio Mid-Eastern Governments Association (OMEGA) is organized as a Council of Governments pursuant to Section 167 of the Ohio Revised Code and is designated by the Appalachian Regional Commission as a Local Development District and by the US Department of Commerce, Economic Development Administration, as an Economic Development District.   As shown in **Map 1-1**, OMEGA's region includes ten counties in eastern Appalachian Ohio: Belmont, Carroll, Columbiana, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas. OMEGA is a collaborative body of member governments that serves as a facilitator between state and federal government agencies and local entities to provide opportunities in economic and community development through networking, education, planning, research, and allocation of resources. OMEGA's mission is to provide a pathway to enhance community and economic growth in the region.

On January 27, 2016, the Governor of Ohio, pursuant to United States Code, Title 23, Section 135 (m), officially designated OMEGA as an Ohio Regional Transportation Planning Organization (RTPO). The OMEGA RTPO includes all counties previously listed except for Belmont and Jefferson Counties which are part of the Belomar and Brooke-Hancock-Jefferson metropolitan planning organizations, respectively. In January 2018, the Ohio Department of Transportation (ODOT) selected OMEGA to participate in a Regional Coordinated Transit/Human Services Transportation Pilot Program. The purpose of this pilot program is to promote cost-effective coordination of transportation services throughout the region and to increase mobility and ridership especially for seniors and disabled persons. All ten counties (see **Map 1-2**) within the OMEGA district are included in the pilot program.

.
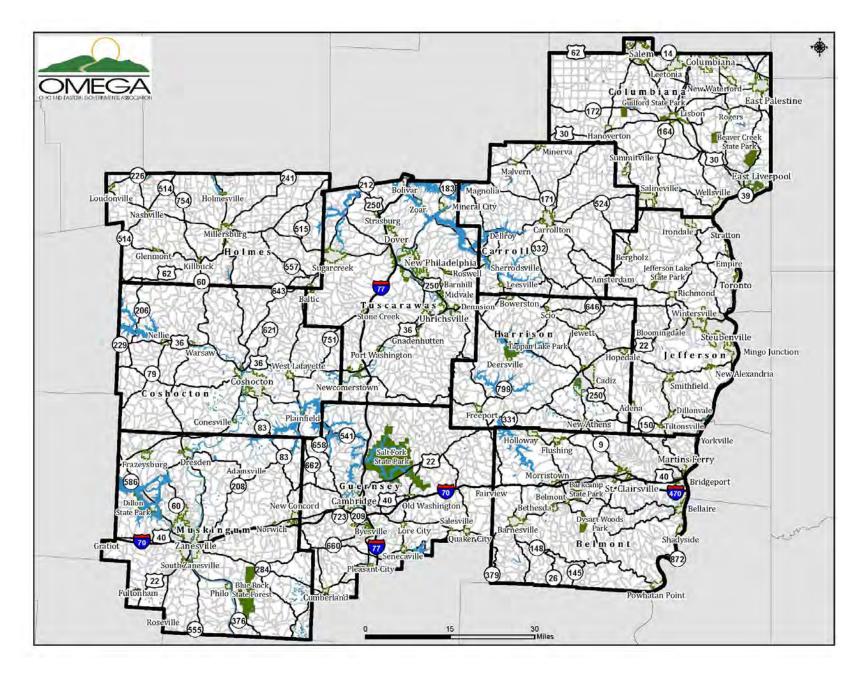

MAP 1-1: BASIC MAP OF THE STATE OF OHIO AND THE GEOGRAPHIC AREA OF THE OMEGA REGION

WHY ODOT CHOSE THE REGIONS

In recent years, ODOT began assessing regional coordination to solve a major problem; that there is currently no statewide coordinated planning coverage. Many of Ohio's 88 counties have some form of public transit and human service transportation, some have few or no services at all, and Specialized Transportation Program 5310 funding has limited funds making the application process more competitive. Transportation doesn't just occur within county lines, nor is it limited to just within a regional boundary. Considering all these reasons, regional coordination may be the best method to increase efficiency. In 2018, ODOT began a pilot project with two regions in opposite sides of the state and two very different characteristics to identify potential solutions.

The regions were selected based on trip patterns and other region boundaries for organizations such as the Department of Medicaid, Department of Health, and Area Agency on Aging (AAA). The two pilot regions include AAA Region 2 Miami Valley Regional Planning Commission (MVRPC) and AAA Region 9 Ohio Mid-Eastern Governments Association (OMEGA). AAA Region 9 was selected for the pilot project since it is primarily rural in landscape with complex transportation needs. In addition, most of the counties in this nine-county region did not have a current coordinated plan or none at all, which is a requirement to apply for 5310 funding. OMEGA was selected to lead AAA Region 9 because of their skilled planning experience, regional planning credentials and because they came highly recommended by the ODOT Statewide Planning Department.

The benefits that ODOT anticipates from regional coordination is to have more local control of Section 5310 funding, as well as the Mobility Management funds, to manage the award funding more efficiently and from a local perspective. By managing the award funding locally in a region, this will help increase efficiency for all the transportation service providers, community residents, and anyone who relies on transportation services. This regional effort can provide opportunities for funding that were not available before and establish local control to allow the most impact on the funds being well spent. More importantly, regional coordination should increase mobility and ridership especially for seniors and people with disabilities and be more cost-effective for transportation service providers.

.

MAP 1-2: BASIC MAP OF THE COUNTIES COVERED BY THE PLAN

Trip Generators for the OMEGA Region
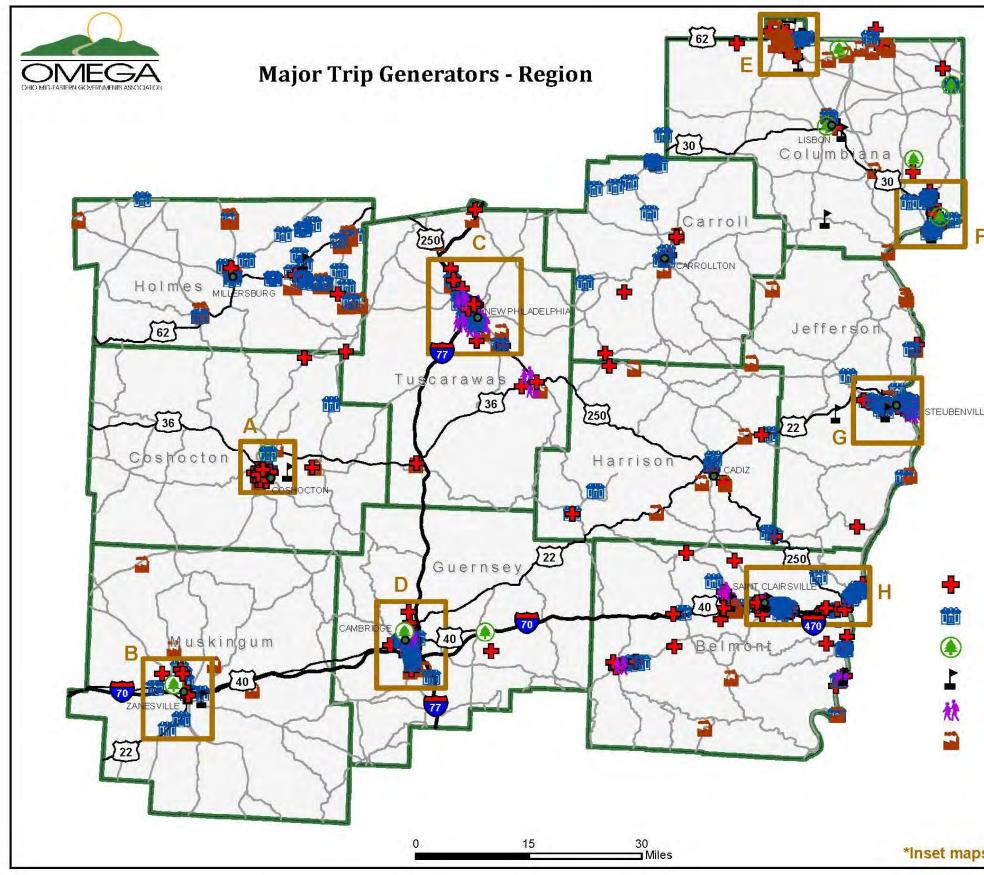

There is a diverse mix of trip generators all throughout the region and most are based geographically and demographically. The most populous counties in the region, Belmont, Columbiana, Jefferson, Muskingum, and Tuscarawas all have each category of major trip generators medical, commercial, recreational, educational, human services, and industrial. Each of these counties has plenty of national, regional, and local types of commercial businesses for restaurants, groceries, hardware, auto-repair, and other commercial centers. Most of the counties in the region also have at least one mall or shopping center located within their county which helps centrally locate a mix of these business offerings. Most counties in the region also have options as where to go for medical services, since there is a hospital, medical facility, doctor office or they are located near a regional hospital. Most counties in the region have a healthy collection of recreational facilities either in parks, gyms, golf courses, country clubs, hiking trails, and wildlife areas. Most counties in the region have plenty of educational options consisting of local career centers and post-secondary options such as vocational schools, community colleges, and universities and state university satellite campuses, such as Ohio University and Kent State. Human services are also available to the residents of all ten counties as each has a council on aging, developmental disability board, job and family service, service for veterans, and other services tailored to the local area. Each of these counties also has plenty of industrial services that provide employment opportunities. In Belmont, Columbiana, Guernsey, Harrison, and Jefferson counties, the oil and gas industry is growing. It is also growing in Tuscarawas County, with the presence of Schlumberger Technologies and US Well Service Group, as well as the chemical industry. Also, in Columbiana County, there are more metal and material manufacturing, auto and machine industries, and other manufacturing facilities throughout.

Some local and regional chains and services are naturally located in counties close to their headquarters or where they primarily serve. For instance, Tuscarawas and Columbiana in the north have plenty of companies that are based in Northeast Ohio, such as Cleveland Clinic, Giant Eagle, Buehler's, Sherwin Williams, and Goodwill Industries of Greater Cleveland. Jefferson and Belmont in the southeast have companies from southwest Pennsylvania or southeast Ohio such as Riesbeck's, United Dairy Inc., and Fraley and Schilling Inc. There are a few hospitals that serve the region's medical trips such as Genesis Hospital, Southeastern Ohio Regional Medical Center, Trinity Medical Center, Cleveland Clinic Union Hospital, but there are very limited primary care facilities. For these trips, many regional residents travel to either Cleveland, Canton, Columbus, Wheeling, or Pittsburgh.

The exception to the region is the least populous counties such as Harrison and Carroll counties. Each county has schools up through high school but there are limited options for higher education. Many students moving onto college or a technical school will have to go to another county if they want to stay in the region. There are a good number of chain businesses and industries, but it is challenging to hire candidates if you have youth leaving for school elsewhere. The human services are less comparatively since there is a lower population in these counties, however, the need is just as great.
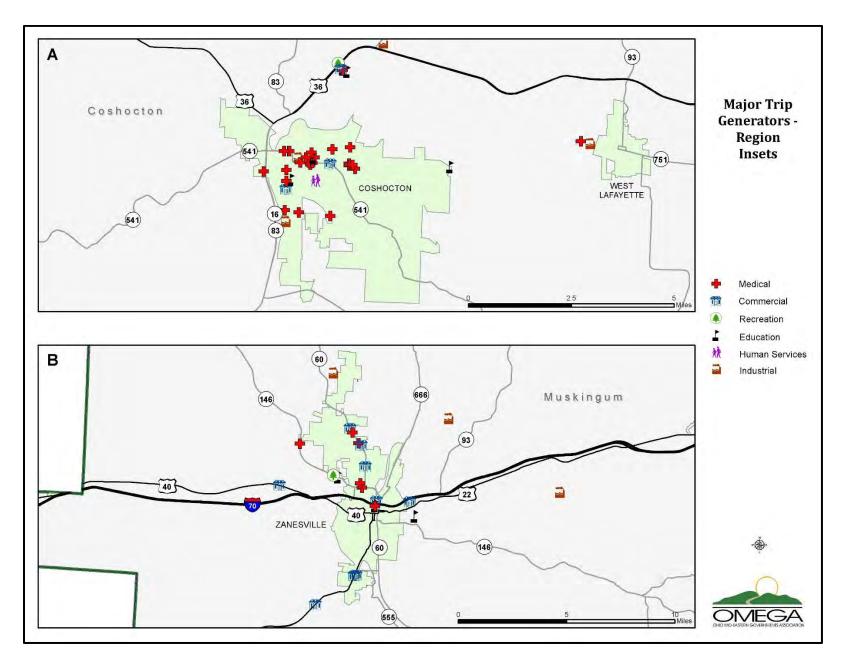

Holmes County has a strong mix of schools available as well as many private businesses which offer job opportunities to its residents. There is a small hospital in Millersburg, Pomerene Hospital, with a small staff to serve the county residents. The county is deficient on medical facilities and many residents go north to Wooster or Canton for specialized medical care. There are many industrial businesses which continue to strengthen their local county's economy. Holmes County leads the region for the lowest

.

unemployment rate (3.5%), lowest poverty rate for individuals (12.9%), households (9.1%), and the lowest disability rate (8.3%). Holmes does have the highest Limited English Proficiency (20.2%) in the region primarily because they have one of the largest Amish populations. More of this will be discussed in the demographic section.

II. Population Demographics

In the OMEGA Region, there are 10 total counties that make up the entire region population of 584,566 (2017 estimated population). In order of largest to the smallest county in population, these include:

- Columbiana County (2017 Population: 106,670);
- Tuscarawas County (2017 Population: 92,531);
- Muskingum County (2017 Population: 85,933);
- Belmont County (2017 Population: 69,228);
- Jefferson County (2017 Population: 67,607);
- Holmes County (2017 Population: 43,702);
- Guernsey County (2017 Population: 38,555);
- Coshocton County (2017 Population: 36,602);
- Carroll County (2017 Population: 28,108);
- Harrison County (2017 Population: 15,630).

The three largest cities in the region are:

- Zanesville (2017 Population: 25,388);
- Steubenville (2017 Population: 18,003);
- New Philadelphia (2017 Population: 17,424)

Population Trend and Projection for Every Five Years Until 2040

As shown in **Exhibit 2-1A**, the population in the OMEGA Region is projected to decline by about 4% between now and 2040. Although the population for the region is forecasted to decline over the next 20 years, it is very gradual at 0.6% every 5 years. These projections may very well change and increase depending on the impacts of the oil and gas industry in the eastern part of the region with the proposed ethane cracker plant in Belmont County in the near future.

OMEGA Region Population Projection, 2010 - 2040

Total Population Projection by Age Group

From the onset, the population projection by age group in the OMEGA Region will have two age groups with significant growth as shown in **Exhibit 2-1B**. These two age groups are 0-14 years old and 65 and over as they make up a significant portion of the population over the next 20 years. The 55-64 years old age group as well as the 45-54 years old age group show a steep decline over the same length of time. All other age groups seem to be level with neither a significant increase nor decrease. The senior population age 65 years old and over is projected to be the largest age group population in the region by year 2020 and continuing through 2040.

OMEGA Region Population Project by Age, 2010 - 2040

	2010	2015	2020	2025	2030	2035	2040

EXHIBIT 2-1B TOTAL POPULATION PROJECTION BY AGE

Source: Ohio Development Services Agency, Office of Research; April 2018

Total Population by Age Group

Currently, the two largest age groups in the OMEGA region are the 0-14 years old and 65 and over age group. They both have an equal share in population at 18% of the population age groups. A little more than half the population in the region, 54%, is younger than the age of 44 years old. Only a third of the overall population is age 55 years old or older and in the next 10 years will influence the growth of the senior age population even larger than it currently is.

OMEGA Region Total Population by Age Group

Total Population by Race
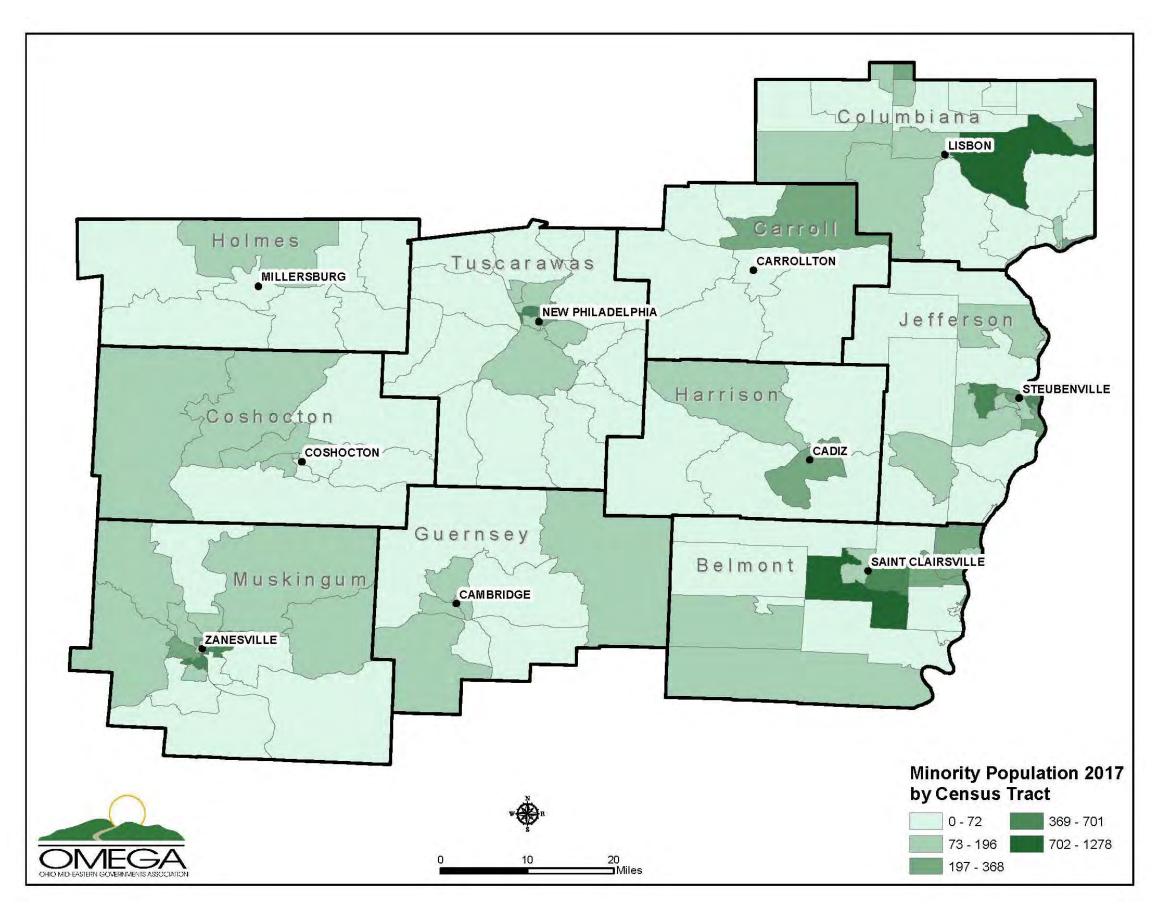

Over 93% of the population in the OMEGA region is white (non-Hispanic), 2.5% of the population is black/African American, 1.35% are Hispanic/Latino, and under 1% are either Asian, Pacific Islander, Native American or other. Another portion of the population at 1.7% is a combination of two or more races.

OMEGA REGION POPULATION BY RACE

EXHIBIT 2-3 - TOTAL POPULATION BY RACE

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

According to **Map 2-1**, the approximate 6% of the minority population in the region is distributed proportionately throughout the 10 counties. The range of the population concentration in the map is from 0 (light green) to at most 1,278 people (dark green) per census tract. Only a few counties have a higher concentration of minority population compared to the rest of the region: Belmont, Columbiana, Jefferson, and Muskingum. In these counties the minority population appears to be in or around the county seats, such as Lisbon, Steubenville, St. Clairsville, and Zanesville.

MAP 2-1 – OMEGA REGION MINORITY POPULATION

Number and Percentage of People with Disabilities

The disability rate is very important relating to transit and human services transportation use. Many people with disabilities lack mobility to transport themselves and rely on other modes of transportation. Often, they rely on their family, friends, neighbors, or other public transit options. The current disability rate in the OMEGA region is 15%, which is slightly greater than the state of Ohio's disability rate at 13.9%. This means that 88,860 people who live in the region are living with a disability either mental, cognitive or physical that may require assistance with their transportation needs for their daily activities. As the population continues to age the disability rate may increase as well.

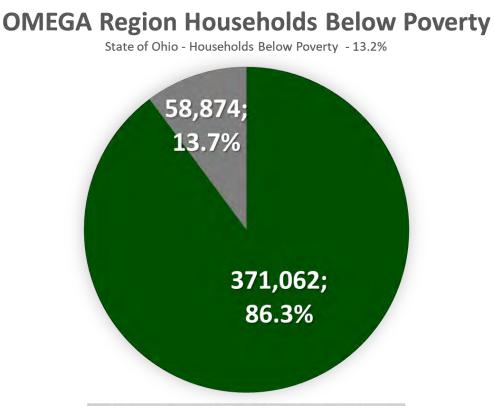

Map 2-2 shows the distribution of persons with any disability throughout the OMEGA region. The number of disabled persons per census tract ranges from 132 people (light green) up to 1,247 people (dark green). The areas in the region that have the highest number of people with disabilities are south and southwest Belmont County, north, central and east Guernsey County, north Zanesville in Muskingum County, south of New Philadelphia in Tuscarawas County, northwest Harrison County, and most of Columbiana County in the south, central and northeastern parts of the county. Every census tract in the western extreme of the region in Coshocton, Muskingum, and Holmes counties have a minimum 565 people with a disability per each census tract. These are the areas that may benefit from more presence of services for people with disabilities.

MAP 2-2: OMEGA REGION POPULATION WITH ANY DISABILITY, BY CENSUS TRACT

Number and Percentage of Households with Incomes Below the Federal Poverty Level

The federal household poverty level is defined as a four-member household with a combined income below $24,600 for the year, or $2,050 for the month. In the OMEGA Region, there are currently 58,874 households (13.7%) below the federal poverty level and this is greater than Ohio's average households below poverty rate of 13.2%. Access to affordable transportation options may be beneficial to households with incomes below the federal poverty level.

Number and Percentage of Individuals with Incomes Below the Federal Poverty Level
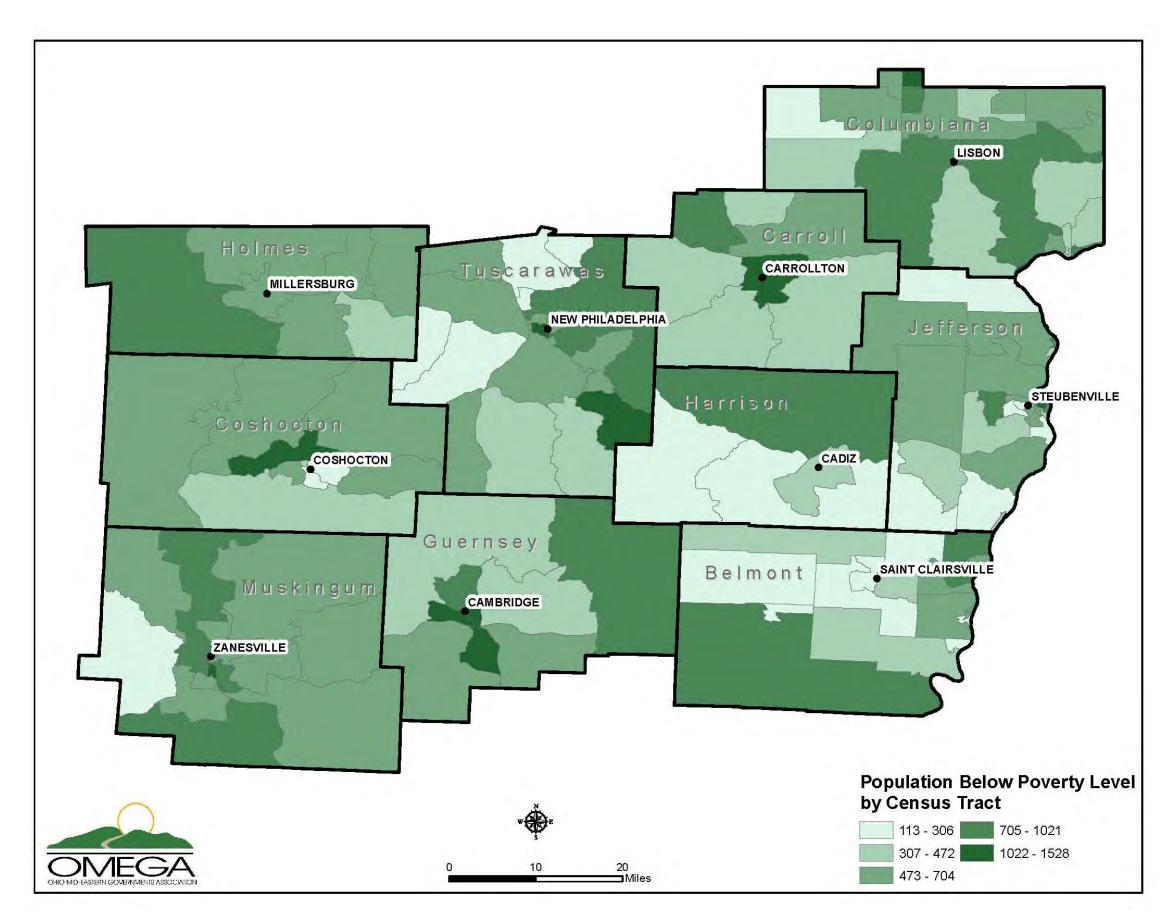

The federal poverty level for an individual is one person with an annual income of $12,490 or less. Individuals who live below the poverty level generally are unable to afford many services. Many of these individuals who live below poverty are unable to afford their own vehicles, and may have to rely on family, friends, or neighbors to help them meet their daily transportation needs. In the OMEGA Region, there are 87,800 individuals who live below the poverty level which equates to 15.5% of the total population. This is similar to the individual poverty level in the state of Ohio of 15.4%. Connecting these individuals to employment opportunities in the region with more transit or transportation options may strengthen the regional economy.

Map 2-3 displays the population of individuals that live below the poverty level in the region by census tract. Each county in the region has different concentrations where poverty exists. Guernsey County has the highest level of poverty at 20.2% or 7,857 individuals. Harrison and Jefferson County have the next two highest poverty levels in the region at 18.1%, 2,756 individuals, and 17.2%, 11,208 individuals, respectively. The county with the lowest poverty rate is Holmes County at 12.9% of the entire county population, or 5,504 individuals. The counties that have higher rates of individual poverty may benefit from more availability of transportation services.

Percent of Population that Speak English "Less than Very Well"

The age for determining English language proficiency is 5 years old. In the OMEGA Region, the total population that is 5 years and over is 548,524. This is the population from which the percentage of the region's limited English proficiency is determined. According to **Exhibit 2-7**, there are 14,271 individuals in the region, 8,158 who live in Holmes County, that are considered to speak English less than very well. This equates to 2.6% of the total population aged 5 years and over and is slightly higher than the 2.4% in the state of Ohio. The presence of a growing Amish population, especially prevalent in Holmes County, is unique for the region.

97.4%; 534,253
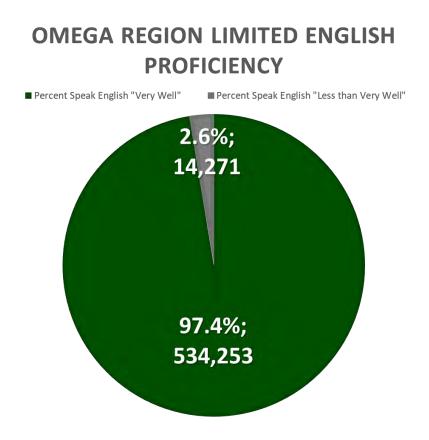

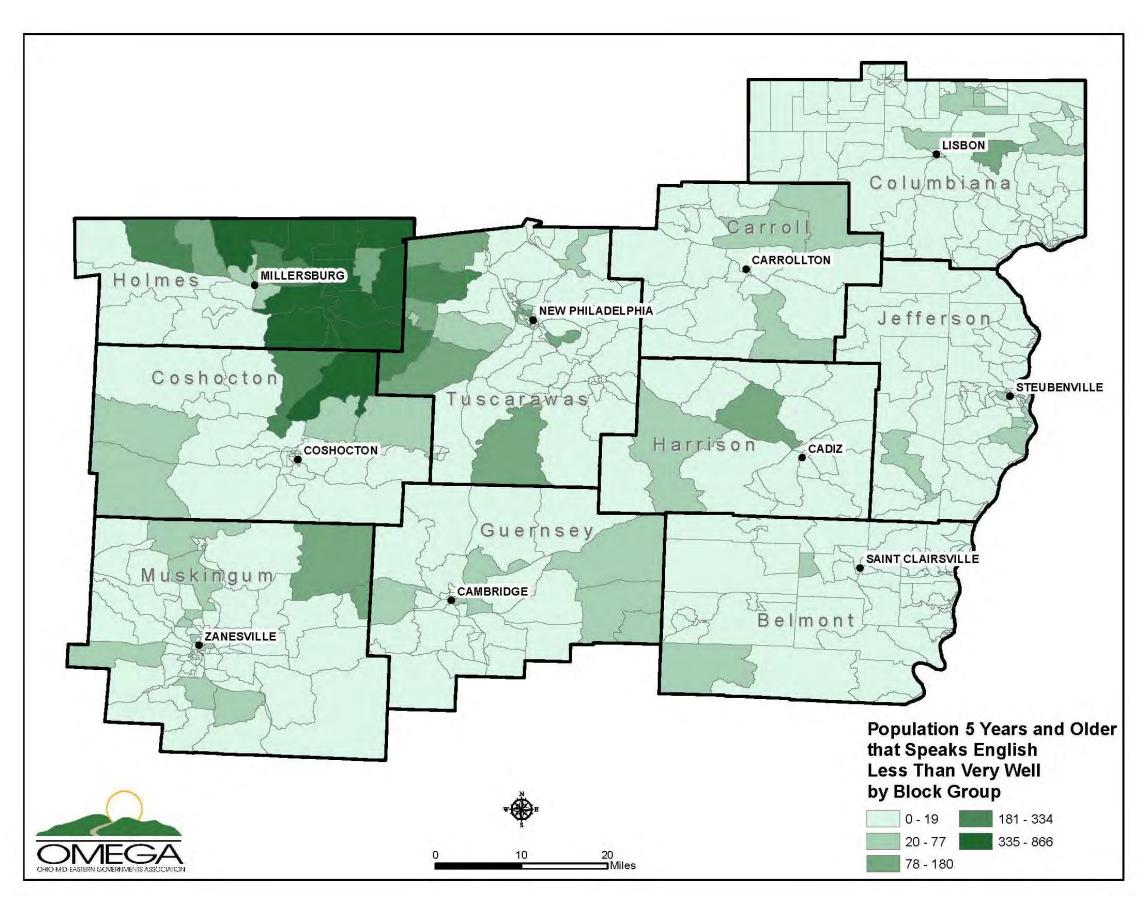

EXHIBIT 2-7 – OMEGA REGION POPULATION WITH LIMITED ENGLISH PROFICIENCY

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Map 2-4 illustrates the OMEGA region population with limited English proficiency. This map clearly illustrates that only 2.6% of the entire region has limited English proficiency. More than half, 57.2%, of the population with limited English proficiency reside in Holmes County. Persons with limited English proficiency are located primarily in the eastern part of the county as well as north and south of the county seat, Millersburg. This population also trickles into northeastern Coshocton County, northwestern Tuscarawas County and most of this population may be primarily Amish. These areas of the region that have limited English proficiency may benefit from bilingual and other language services that can help them be more mobile throughout the region.

MAP 2-4: OMEGA REGION LIMITED ENGLISH PROFICIENCY POPULATION

Employment Status

The population that is eligible to be employed is the population 16 years old and older. In the OMEGA region, the population that is 16 years old and older is estimated at 455,060. The civilian labor force are the individuals eligible to work and who are currently employed or unemployed but are actively seeking employment. There are an estimated 260,300 individuals considered to be in the civilian labor force in the entire region. Of the total civilian labor force, there is an estimate of 14,100 individuals who are unemployed and 246,200 individuals who are employed. This population that is unemployed is roughly 3.1% of the total population 16 years old and older.

According to the 2017 US Census American Community Survey, for the civilian labor force, the unemployment rate is currently 5.5%, which is considered to be the percent of the civilian labor force that is unemployed and actively seeking employment. This is 0.8% more than the state of Ohio's unemployment rate at 4.7%. Transportation for a strong employment force is a key issue that faces the region. Access to reliable transportation is a key component to remaining employed.

Number and Percentage of Zero-Vehicle Households

There are 229,247 occupied housing units, both renter and owner occupied, in the OMEGA region. Approximately 8% of the total households in the OMEGA region, or 18,642, do not own a vehicle or have access to a vehicle for their personal use. Often, people who don't own a vehicle have to rely on family, friends, neighbors and coworkers.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Map 2-5 represents all the occupied households, both owned and rented, in the region that do not own a vehicle. Not owning a vehicle may be due to financial circumstances that inhibits the household from being regularly mobile. The areas in the region that have a high concentration of households with zero-vehicles, primarily located in large Amish populations, which are eastern Holmes County and north and south of Millersburg, north Coshocton County, west Tuscarawas County. Other areas in the region with zero-vehicle households are north Carroll County, several block groups in Columbiana County, south and east Jefferson County along the river, south and east Belmont County along the river, central and north Harrison County, north central and east Guernsey County, and in Muskingum County surrounding the county seat of Zanesville. These areas of the region may benefit from more available transportation services. The most important piece of this puzzle is that persons who are currently employed have reliable transportation to their place of employment.

Map 2-5 – OMEGA Region Households with zero-vehicles

Commuting to Work

The average worker commuting to their place of employment matters as it relates to transit and human service transportation because these trips make up most of the trips in the week. The total workers 16 years old and over employed in the region is 246,200. Those who drive alone to work make up 82.6% (203,361 employees) of the commuters, which is the majority. The second largest group of commuters are those who carpool in the region, which is 9.1% (22,404 employees). The third largest group is the 3.4% (8,370 employees) who work from home. Next largest group of commuters are the employees who walk to work, which is 2.7% (6,647 employees). Only 1.1% (2,708 employees) of the total commuters use a taxicab, motorcycle, or other means to get to work. Roughly 0.8% (1,970 employees) bicycle to work and lastly only 0.3% (739 employees) use public transit to get to work. The average commute time to work in the OMEGA Region is 24.6 minutes which is 1.2 minutes longer compared to Ohio's average of 23.4 minutes.

OMEGA REGION COMMUTING TO WORK
WORKERS 16 YEARS AND OVER - 246,200

- Drove alone
- Carpooled
- Public transportation (excluding taxicab)
- Walked
- Bicycle
- Taxicab, motorcycle, or other means
- Worked at home

Region Place of Work – State

Where people work may be due to job availability, access to transportation, and their location geographically. All counties in the region excluding Harrison County border another county in another region or state. Three counties, Belmont, Columbiana, and Jefferson border West Virginia or Pennsylvania. Many of the residents in these counties cross state lines for employment opportunities. Approximately 10% (25,971 employees) of the employees in the OMEGA region leave the state of Ohio for work in neighboring states.

OMEGA Region Place of Work - State of Ohio
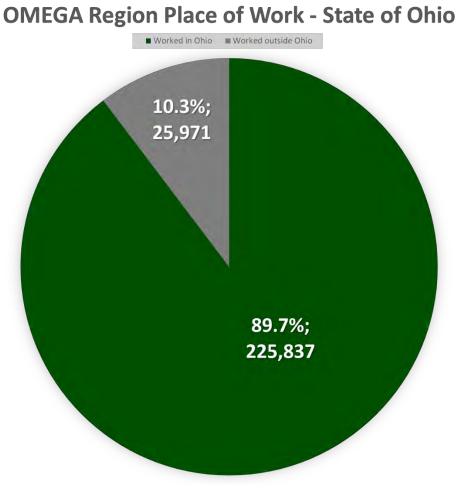

EXHIBIT 2-11A – OMEGA REGION EMPLOYEES' PLACE OF WORK - STATE

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

Region Place of Work – County of Residence

Approximately 28% (63,821) of the workers in the OMEGA region that work in Ohio, work in a different county than which they live. In many cases, there may be many job opportunities for people that live on the fringe of county lines and it is easier and closer for them to travel across to the next county than stay in their home county for work. Since 28.5% travel out of the county they live for work, then there may be an opportunity to provide more human services transportation or regional public transit to help people get to and from their job with reliable transportation.

III. Assessment of Available Services

Conducting an evaluation of service provider capabilities and analyzing the existing gaps and duplications of services for transportation resources in each community, provides transportation planners with the information needed to implement changes. These adjustments will improve the network of transportation resources and services in Belmont, Carroll, Columbiana, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas counties and across county lines.

OMEGA and the Regional Coordinated Council identified stakeholders to participate in the assessment of available transportation services. These stakeholders include representatives from each county's lead agencies, transit agencies, human service transportation organizations, mobility managers, job & family services, senior centers, board of developmental disabilities, metropolitan planning organizations, and members from the public which include seniors and people with disabilities.

Interviews were conducted with or information was collected from each of the identified stakeholders.

The purpose of the interview was to offer the stakeholders an opportunity to discuss the specific transportation services, gaps, needs, and priorities for their respective service areas or communities.

All Transportation Service Provider Information Tables located are in **Appendix E**. For the sake of efficiency, that information was summarized for use by the regional transportation service providers as well as the general public. The information is summarized on the following pages in the *Regional Transportation Service Provider List, Existing Transportation Service, and Inventory of Available Transportation Service Providers.* This is followed by an analysis of the community support of available services, the overall safety of the transportation providers in the region, and a general overview of the vehicle support in the region. This will then lead into an analysis of Origin-Destination Analysis from 2017 submitted by transportation service providers volunteering their trip data for annual comparisons for the future.

ANALYSIS OF REGIONAL TRANSPORTATION SERVICE PROVIDERS

Assessment of Community Support for Transit

In total, there are 71 transportation service providers, human service agencies, and transit agencies that operate in the 10 counties of the OMEGA region. The service providers and agencies consist of: Mobility Managers, Department of Jobs & Family Services, Senior Services, Veteran Services, Board of Developmental Disabilities, Area Agency on Aging Region 9, five transit authorities/agencies, several career centers, community action agencies, Community Improvement Corporations, taxi services, colleges, non-profit and for-profit providers, and planning agencies such as BELOMAR and BHJMPC.

Regarding technology, of the 71 providers, 14 agencies do not currently utilize or have a website to share their information online. There are several human service agencies, which contract for transportation services but do not have information concerning the transportation service providers on their website. This can be very useful to coordinate transportation service by using technology efficiently.

More technology features that aid in service to transportation are located in Table 9 of **Appendix E**. A total of 24 agencies use a scheduling software to schedule trips; however, one schedules trips by hand, one uses outlook, and one uses other Microsoft Office programs to schedule trips. Holmes County is the only county in the region that reports no scheduling software. Nineteen agencies use dispatching software to manage their trips while one agency uses Microsoft Office to dispatch and another uses a mobile phone or on-view. Thirteen agencies use automated vehicle location (AVL) or geographic position systems (GPS) for use in their fleet vehicles. Currently, applications for riders to schedule trips are not available in the region.

Most of the transportation providers and human service agencies operate Monday through Friday during normal business hours. Some operate on the weekends for a few hours or by appointments only. There are several providers that operate on Saturday, Sunday, or both. Transportation service providers which offer Saturday and/or Sunday service are listed in **Exhibit 3-1.**

Aside from weekend service, there are many transportation providers that work around the clock, see **Exhibit 3-1**. Eleven transportation providers operate 24/7 and include four taxicab companies, five EMT Ambulance services, one on-demand nonprofit transportation provider and one healthcare system that coordinates with other transportation providers. Nine of the 24/7 transportation providers are located in Columbiana County, and the others are located in Belmont, Jefferson and Muskingum County.

County	Weekend by Appointments	Saturday and/or Sunday Service	24/7 Transportation Service
BELMONT	➢ Neffs Fire Department	➢ EORTA/OVRTA	➢ National Church Residences
CARROLL	*N/A*	➢ CCBDD – Community Employment	*N/A*

JEFFERSON	➢ TranSmart USA	➢ Steel Valley RTA	➢ Checker/ASI
MUSKINGUM	*N/A*	*N/A*	➢ Genesis HealthCare System
TUSCARAWAS	➢ SEA Inc.	➢ Horizons Rural Public Transit ➢ Tuscarawas Senior Center	*N/A*

EXHIBIT 3-1: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS THAT OPERATE ON WEEKENDS OR 24/7

Thirty-eight transportation service providers are open to the public; 15 operate on a fixed route, 14 operate on an on-demand type of service, and the rest of the providers have other modes of service. Of these other modes of service, 22 transportation service providers operate a demand response service, nine provide only medical or NEMT trips, and eight offer vouchers or passes to their clients or have contracts with transportation providers.

There are many transportation service providers that have specific eligibility standards. Eleven providers do not have any eligibility requirements and are completely open to the public. There are currently six providers that require the customer to pay with cash as the only acceptable form of payment. Twenty-eight organizations are limited to only their residents in the county, or clients, patients, or veterans that use their services. Five agencies require the person to have a disability in order to use their transportation service. Eight agencies provide transportation services only to persons who are 60 and older.

The fare structure varies per agency and especially per type of ride. No consistent fare rate is used throughout the region; however, this is a goal strategy that the Regional Coordinated Council as well as ODOT is looking to possibly solve with a cost-allocation model. Depending on the structure, the organizations can have different types of primary funding sources, either by Medicaid, levies, FTA, ODOT 5310/5311 grants, Title IIIB, Area Agency on Aging, Passport, VA, or general revenue. The transportation

service providers also have different primary sources of match funding either by levies, contracts, donations, boards of developmental disabilities, local grants, or their own program income. The guidelines and regulations imposed by these varied funding agencies may impede cost-effective coordination to the transportation service providers.

Safety

Of the 71 transportation service providers in the region, 46 offer handicap access to the public. Thirty-three agencies offer services only to their human service clients only. Tables 3, 10-12 of **Appendix E** relate directly to overall safety of service that is offered to the public through transportation. Of the 71 providers, 41 did not offer a response to the information being asked. According to Table 3, a total of 25 transportation service providers have defensive driving and perform a pre and post-trip vehicle inspection, 23 offer passenger assistance, bloodborne pathogens training, first aid and CPR training, 21 train for emergency procedure and evacuation, 20 have consumer rights and HIPAA training, and 19 offer drug and alcohol awareness training. For all the providers that responded, 23 require all new employees to complete safety training, only 13 providers require a refresher training, and only 15 providers have refresher training required for some of the training that they provide.

According to Table 10, a total of 25 transportation service providers have a vehicle preventive maintenance plan. Twenty-two providers have a vehicle ADA equipment preventive maintenance plan. Twenty-six providers require a pre-trip vehicle inspection whereas only 17 require a post-trip vehicle inspection. Twenty-one providers require a pre-trip ADA accessibility equipment test. Only 24 have an on-board communications equipment and 26 providers have on-board safety equipment such as a fire extinguisher, biohazard kit, or first aid kit. Regarding a 4-Point Restraint System for 3- and 4-Wheeled Mobility Devices there is a total of 21 providers that have this system for their transportation service.

According to Table 11, regarding drug and alcohol testing, 26 providers require a pre-employment drug test and 20 providers perform random drug tests. Twenty-three providers perform post-accident testing of drivers and 25 providers perform testing if they have any reasonable suspicion.

According to Table 12, regarding criminal background and motor vehicle record checks, for new employee criminal history checks, 24 transportation providers check, whereas only 20 have current periodic criminal history checks and only one checks every five years. Twenty-two providers perform a new employee driver's license record check and 22 providers periodically check their employee's driver's license record. Twenty-three providers perform a new employee sex offender database check; whereas only 19 providers do this periodically and only one provider checks every five years. Twenty-three transportation service providers have a new employee abuse registry check; whereas 19 providers check periodically and only one every five years. Regarding a New Employee System of Award Management (SAM) Registry Check, 14 transportation service providers perform this; whereas, only 13 providers perform this periodically and only one agency does every five years.

On the regional scale, of the 30 providers that completed their tables, adequate safety protocols and training appear to be in place. The only areas that appear to be lacking are drug and alcohol awareness training as well as refresher courses. Additional effort in post-trip vehicle inspections, as well as random drug tests, periodic database checks for sex offenders, new employee abuse registries, and system of award management can also improve across all providers. Data requested in these tables is not

applicable for the human service agencies that contract with transportation providers and do not provide direct transportation services.

Vehicles

The 59 transportation service providers for which data is available list a combined total of **504** vehicles. Approximately 60% of the vehicles are wheelchair accessible, which is a total of 303 vehicles. A vehicle utilization table (Table 13) is provided in **Appendix E**.

Some transportation service organizations have an entire fleet of wheelchair accessible vehicles. To determine the overall wheelchair capacity in the region, most providers reported how many wheelchairs fit per vehicle. Others listed the overall vehicle capacity and responded 'yes' if they did have wheelchair access. For these vehicles, there was an assumption of one wheelchair per five available seats based on the comparisons of other transportation service provider wheelchair capacities. Based on this information, 569 spaces are available for wheelchairs on the vehicles in the region. According to the data in the demographic section, 15% of the population in the region are people with disabilities, which is more than 80,000 people. What is unknown is the number of people with a disability who have a need for a wheelchair as well as how many of them need transportation services. What is known is that the population is aging and the demand for services to assist with people of disabilities is growing. Therefore, the demand for wheelchair access is expected to increase.

County	Transportation Service Providers	Total Vehicles (Reported)	Wheelchair Access Vehicles	Number of Wheelchair Seats
Belmont	5	51	24	43
Carroll	5	21	16	34
Columbiana	18	140	90	170
Coshocton	6	41	16	34
Guernsey	1	10	6	9
Harrison	4	12	10	13
Holmes	5	31	24	70
Jefferson	5	77	31	51
Muskingum	5	40	28	49
Tuscarawas	5	81	58	96
TOTAL	59	504	303	569

EXHIBIT 3-2: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS WITH WHEELCHAIR ACCESS

As vehicles age, additional maintenance is required; vehicles may break down more often and become costlier to operate. Vehicle replacement, based on age and condition, is vital to the overall cost effectiveness of the transportation services provided. The average age of the vehicles recorded and reported in the inventory is 6.36 years. Eleven vehicles are considered brand new, 2019 model. Six vehicles in the region are older than 20 years and the oldest vehicle is 25 years old. Eighty vehicles (16%) in the region are older than 10 years and 165 vehicles (33%) in the region are older than the average of the 6.36 years for the vehicle age. The next exhibit, **Exhibit 3-3**, lists the average age of the vehicles for the fleets in each county.

County	Transportation Service Providers	Total Vehicles (Reported)	Average Age of Vehicles (Years)
Belmont	5	51	5.96
Carroll	5	21	5.09
Columbiana	18	35	4.03
Coshocton	6	41	6.73
Guernsey	1	10	11
Harrison	4	12	3.42
Holmes	5	31	10.39
Jefferson	5	77	5.55
Muskingum	5	40	7.58
Tuscarawas	5	81	6.27
TOTAL	59	399	6.36 (avg)

EXHIBIT 3-3: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS VEHICLE'S AVERAGE AGE

The other indicator for vehicle maintenance is mileage. However, odometer readings have only been reported for 312 vehicles, which is 61.9% of all reported or recorded vehicles in the region. As shown in **Exhibit 3-4**, the total mileage of these 312 vehicles in the region is 38,328,443 miles with an average of 122,848 miles per vehicle. The greatest number of miles for any vehicle reported in the region is 446,643 miles. Six vehicles in the region have more than 300,000 miles, 51 vehicles have over 200,000 miles, and 180 vehicles have well over 100,000 miles which equals 57.7% of the vehicles reported. Only 42.3% of the vehicles have less than 100,000 miles, 60 vehicles (19.2%) with less than 50,000 miles and only 14 vehicles (4.5%) with less than 10,000 miles. The majority of the vehicles that have been reported and are in use in the region have over 100,000 miles with an average age of 6.36 years. Each vehicle has a demand of nearly 20,000 miles a year which requires good and regular maintenance and stable funding just to keep a well-maintained fleet in service for the public.

County	Transportation Service Providers	Total Vehicles (Reported)	Total Vehicle Miles	Avg Miles Per Vehicle w/ Odometer Readings
Belmont	5	51	6,629,345	129,987
Carroll	5	21	1,882,088	89,623
Columbiana	18	35	4,385,793	125,308
Coshocton	6	32	3,367,688	105,240
Guernsey	1	10	1,291,290	129,129
Harrison	4	12	1,210,351	100,863
Holmes	5	16	2,207,201	137,950
Jefferson	5	27	2,753,822	101,993
Muskingum	5	27	3,386,397	125,422
Tuscarawas	5	81	11,214,468	138,450
TOTAL	59	312	38,328,443	122,848 (avg)

EXHIBIT 3-4: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS VEHICLE ODOMETER TOTALS BY COUNTY

As shown in **Exhibit 3-5**, the following rankings were used by each transportation service provider to indicate vehicle conditions:

- 5: Excellent – brand new; no major problems exist, only routine maintenance
- 4: Good – elements are in good working order; requiring only nominal or infrequent minor repairs (greater than six months between repairs)
- 3: Fair – requires frequent minor repairs (less than six months between repairs) or frequent major repairs (more than six months between major repairs)
- 2: Bad – requires frequent major repairs (less than 6 months between major repairs)
- 1: Poor – in poor condition that continued use presents potential problems

The average ranking for vehicles in the region was 3.86, which is narrowly below good meaning most of the fleets in our region require frequent major and minor repairs. This can become a strain on the funds for transportation service providers which may benefit from any grant funding that can help with vehicle maintenance. The average service days for the vehicles reported is 5.73 days in a week, with little weekend service but still slightly more than a regular work week. Regular maintenance and a sustainable funding mechanism are an on-going challenge for many transportation service providers.

County	Transportation Service Providers	Total Vehicles (Reported)	Avg Vehicle Condition	Avg Vehicle Days of Service/Week
Belmont	5	51	**4.08**	**6.09**
Carroll	5	21	**4.29**	5
Columbiana	18	140	**4**	5.88
Coshocton	6	32	**3.19**	5.88
Guernsey	1	10	**3.9**	5
Harrison	4	12	**4**	5
Holmes	5	31	**3.68**	5
Jefferson	5	77	**3.91**	6.25
Muskingum	5	40	**4.1**	5.03
Tuscarawas	5	81	**3.75**	5.88
TOTAL	59	495	**3.86**	5.73

EXHIBIT 3-5: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS VEHICLE CONDITIONS AND SERVICE DAYS

It is an important indicator to look at the various transportation conditions as it relates to the vehicle fleets in the region. If the public is being served and transported by the coordinating service agencies, then the conditions of the vehicles need to be good for passengers to ride with space for handicap access and wheelchair capacity. The longer the vehicles are in service the mileage increases, and increased maintenance is required to keep the vehicles in service.

Origin-Destination Study, Methodology & Analysis

Another good analysis to include is to view where the transportation service providers are going. During the initial phase of the Regional Coordinated Plan, OMEGA organized a Regional Coordinated Council of participating transportation service providers, human service agencies, and any other stakeholders that are impacted by regional transportation. To begin to analyze the need for coordination between the stakeholders, OMEGA requested annual trip data from the transportation service providers. Origin and Destination data for 2017 was requested from each provider. To protect privacy, all that was required from each provider was the Origin Zip Code to the Destination Zip Code. A template was provided to all participating stakeholders; no transportation provider was required to participate.
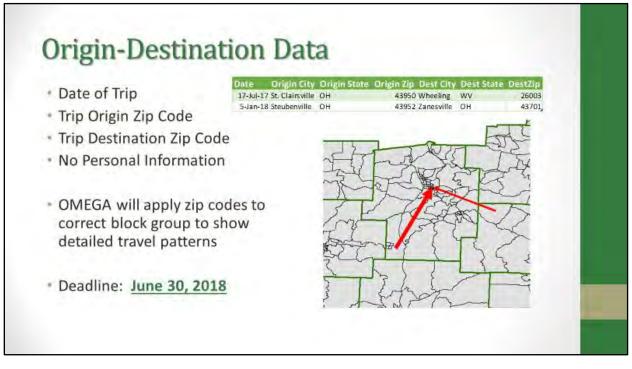

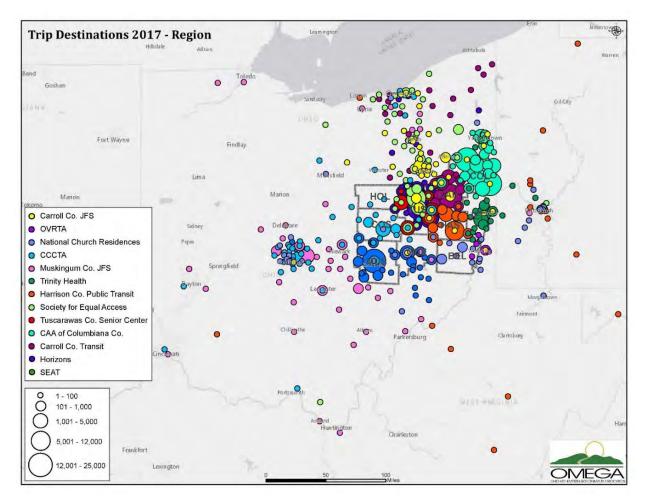

IMAGE 3-1: ORIGIN-DESTINATION DATA PRESENTATION AND REQUEST

Nineteen transportation service providers in the region submitted trip data for the calendar year 2017. Four providers had data that wasn't able to be mapped for reasons that they either couldn't electronically store the data, transfer it over to the template, or only operate in one zip code which would not be properly represented on the map. This study indicated that there may be a need for more technology to be available for the providers primarily when it comes to scheduling trips. Some transit agencies and human service agencies still schedule and log trips by hand which made it difficult to transfer and map data. This is a goal strategy that will be discussed in the Goals & Strategies section.

Of the 15 transportation service providers which provided data, 220,915 trips occurred in calendar year 2017. The agency that had the most trips was Community Action Agency of Columbiana County (CAAofCC) with 56,062 trips in total and the least number of trips submitted was from Quality Care

Partners with 10. Many agencies that run on a fixed route were not able to be mapped since most are within the same zip code. However, some of the agencies offer paratransit service as well as long distance medical trips such as South East Area Transit (SEAT) which made 23,110 trips. Across all 15 agencies that submitted trips, the average number of trips per agency is 14,728. Knowing that the average days of service in the region is 5.73 days, this equates to 50 average trips per service day for just the transportation agencies in the region that participated in this study. **Map 3-1** illustrates the origin – destination data for 2017. For an interactive map, see: https://arcg.is/1y8GS5.

MAP 3-1: OMEGA REGIONAL TRANSPORTATION SERVICE PROVIDERS ORIGIN-DESTINATION DATA POINTS MAP
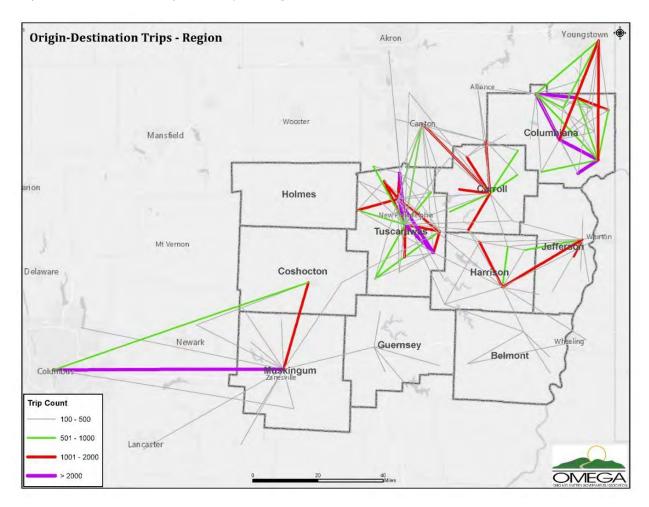

The majority of the total trips stay in the region, but many providers cross county lines and jurisdictional boundaries based on the needs of the public whether it's for a medical appointment, employment, or commercial purposes. Many trips leave the region daily and many span the state of Ohio and cross into the neighboring states of West Virginia and Pennsylvania. This can be a challenge for providers because of how they are funded or the public because of eligibility requirements. **Exhibit 3-6** shows the top destinations for Out-of-Region Trips.

Top Out-of-Region Destinations, 2017	
City, State	Number of Trips
Akron, OH	535
Canton, OH	4,205
Cleveland, OH	385
Columbus, OH	5,625
Pittsburgh, PA	95
Youngstown, OH	1,730

EXHIBIT 3-6: TOTAL OUT-OF-REGION TRIPS BY TOP DESTINATIONS

From **Exhibit 3-6**, most trips are going to Columbus, OH followed by Canton, OH the least number of Out-of-Region trips leave the state and go into Pittsburgh, PA. There may be reasons for all these trips such as primary care medical trips; however, that was not disclosed. There are also regular trips by providers to Wheeling, WV and Weirton, WV, but no significant mappable data was submitted.
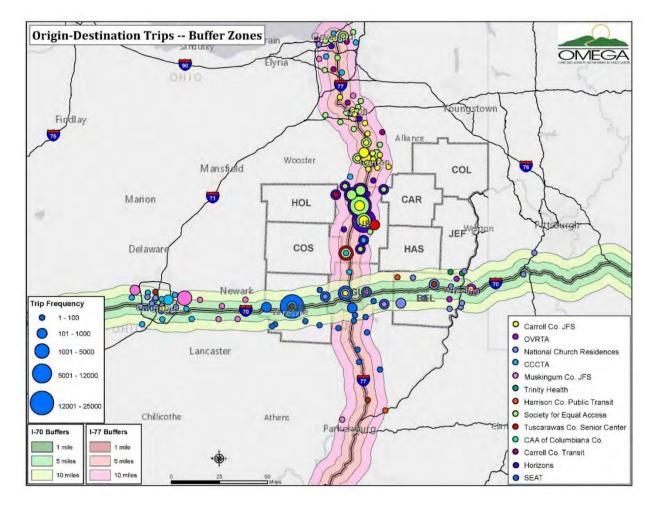

Another good map to view, **Map 3-2**, to capture the trip flow is the following Origin-Destination Lines map. For an interactive map, see*: https://arcg.is/1KXe5i.*

MAP 3-2: ORIGIN-DESTINATION DATA LINES MAP

As shown in **Map 3-2**, more than half of the trips that go to the top destination, Columbus, OH, originate from Coshocton and Muskingum Counties indicating a potential for cost-effective coordination among the transportation service providers in these two counties. More than half the trips to Canton, OH originated in Carroll and Tuscarawas Counties. The transportation providers that are based in these counties may want to consider coordinating their trips to reduce costs and improve efficiency. Reducing the number of trips to and from a common destination can begin to reduce the duplications of trips and save on vehicle maintenance.

 Another important data to analyze in relation to trip flow is what similar transportation infrastructure (highways, US routes, state routes) is used by the transportation providers. In the region, the common routes are I-70, I-77, US 22, SR 30, and SR 7. **Map 3-3** represents this data for the major Interstates I-77 and I-70 with 1 mile, 5 miles, and 10 miles buffers. For an interactive map, see: https://arcg.is/0jfrKS.

MAP 3-3: ORIGIN-DESTINATION MAJOR HIGHWAYS BUFFER MAP

The following exhibits, **Exhibit 3-7** and **Exhibit 3-8,** represent the majority of trips by agency that frequent I-70 and I-77 to travel to destinations that are within a few miles from the routes both in and out of the region. This may also be useful to promote coordination among agencies. For future planning purposes, the only piece of data that can help make analyzing these trips more efficiently is to know trip

types, why they are going where they go. Certain assumptions can be made about the providers alone based on the types of transportation service they offer since these maps can only show general destinations.

EXHIBIT 3-7: TOTAL IN AND OUT-OF-REGION TRIPS WITHIN 10 MILES OF I-70

Based on the I-70 In-Region and Out-of-Region Trips exhibits and from **Map 3-3**, most of SEAT's In-Region trips can be associated with their fixed route and in-county service in Muskingum County.

Second most trips come from National Church Residences (NCR) which perform trips across county lines, along with Coshocton County Coordinated Transportation Agency (CCCTA) and Muskingum County JFS. For Out-of-Region trips, the majority of these trips are going to Columbus and being led by Muskingum County JFS in contract with SEAT, followed by NCR and CCCTA. These are the transportation service providers that may be able to manage longer distance trips from I-70.

EXHIBIT 3-8: TOTAL IN AND OUT-OF-REGION TRIPS WITHIN 10 MILES OF I-77

The top transportation service providers for In-Region trips on I-77 are Horizons, Society for Equal Access (SEA Inc.), Tuscarawas County Senior Center, and SEAT. The rest of the providers, other than SEAT, are based in Tuscarawas County where I-77 runs through. Most Out-of-Region trips on I-77 are provided by SEA Inc., Carroll County Transit, and Horizons. Most of these trips are going north to Canton, where Carroll County Transit regularly frequents medical trips, Akron and Cleveland where SEA Inc. and Horizons travel to which may also be medical trips as well.

IV. Assessment of Transportation Needs and Gaps

In an effort to better understand the OMEGA Region transportation needs, OMEGA and the Regional Coordinated Council examined research and data, as well as solicited input from the community in an effort to gather information about needs and gaps in transportation services.

The demographic and socio-economic conditions of the study area are discussed in the Demographics Chapter of this plan. The following overview is an evaluation of the gaps in service based upon geographic data as well as from the perspective of the targeted populations, transportation providers, and the general public.

OMEGA and a variety of stakeholders in the region, to solicit input, requested participation from any organization that could potentially be impacted by the coordinated transportation planning process. More information on how the lead agency engaged stakeholder and the general public is available upon request.

The following methods were used to assess transportation needs and gaps:

- Assessment of data and demographics
- Regional Coordinated Council Planning Meetings & Conference Calls
- Regional Coordinated Planning Committee Conference Calls
- Regional Mobility Management Conference Calls
- Public Workshops
- Public Surveys

Regional Demographic and Socio-Economic Data

Data for each target population group were aggregated by Census Block Group for transportation analysis. The demographic and socio-economic data is valuable because the highest and lowest densities individuals who are most likely to need transportation live are identified. This information can then be compared to the locations of major trip generators and available transportation services.
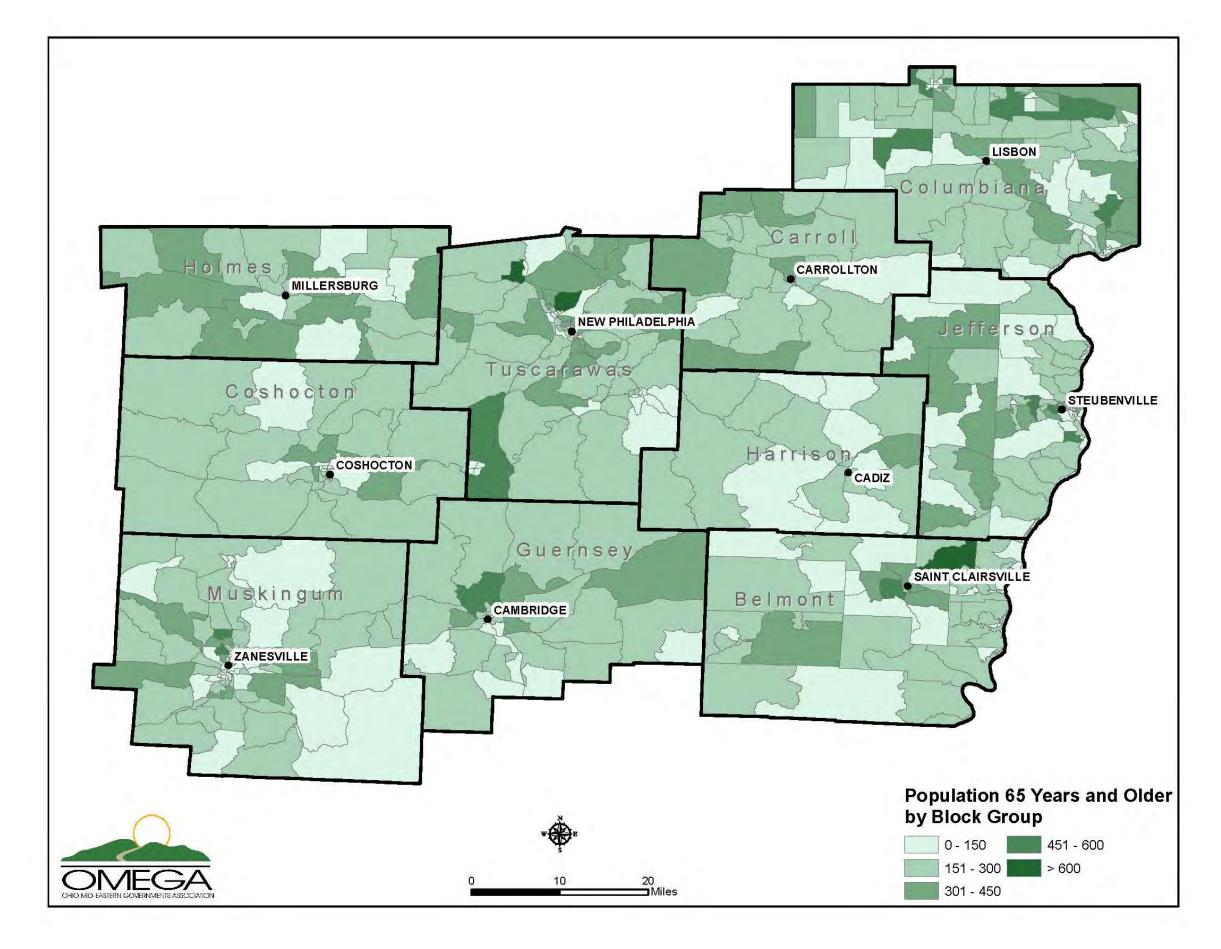

The following exhibit, **Map 4-1**, illustrates the areas where the number of older adults (age 65 and older) have more density per census block in the OMEGA Region. Currently, according to **Exhibit 2-2**, there are 103,768 individuals in the OMEGA Region who are age 65 or older. This represents 18% of the total population by age-group and is the second largest age-group population in the region.

As represented in **Map 4-1**, the region has a few block groups with a high concentration of senior populations, greater than 600 seniors per block group. These areas are primarily located northeast of St. Clairsville in Belmont County, west Steubenville, northeast Columbiana County and west of Lisbon, and north and northwest of New Philadelphia and Dover in Tuscarawas County. Block groups with 301-600 seniors surround most of the county seats but extend and spread out into the more rural county block groups. Lower concentration of seniors from 151-300 seniors per block group are generally spread out in the rural areas of the region outside the county seats. The least concentration, 0-150 seniors per block group, are mostly located in remote block groups of the region, however, transportation assistance to these more remote areas may still be needed.
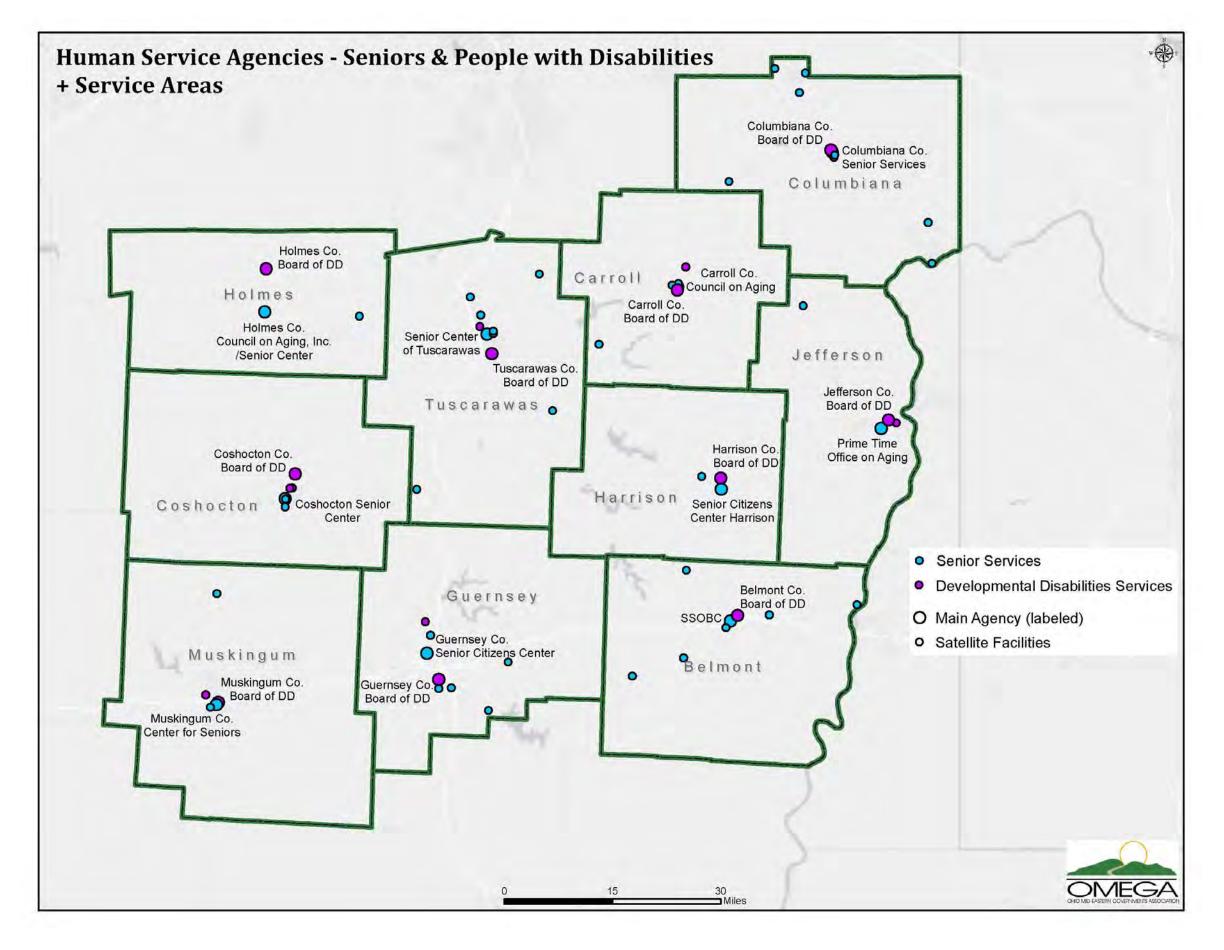

The areas that have a higher concentration of senior population, where the block group has 300 or more seniors, may be in most need of senior services. These areas are, by county:

- **Belmont County:** All around St. Clairsville primarily northeast and in western Belmont County bisected by SR 800.
- **Carroll County:** North of Carrollton and northwestern, west, and southwestern Carroll County.
- **Columbiana County:** Around Lisbon to the northeast and southeast, around Salem to the south, northeastern Columbiana County and in the southeast directly north of East Liverpool.
- **Coshocton County:** Northwest and to the east of Coshocton in Coshocton County.
- **Guernsey County:** North and east around Cambridge and northeast Guernsey County.
- **Harrison County:** Northeast of Cadiz and adjacent to western Jefferson County.
- **Holmes County:** Around the greater Millersburg area to the northeast and south as well as west and northwest Holmes County.
- **Jefferson County:** Western Jefferson County, around greater Steubenville to the west and south.
- **Muskingum County:** Around greater Zanesville to the north, northwest, west and east middle area of the county.
- **Tuscarawas County:** Southwest Tuscarawas County, north, northwest, and south of greater New Philadelphia.

These areas listed above have the highest concentration of seniors in the OMEGA Region and it may be advantageous to locate senior services within these areas. According to the Human Service Agencies Map (**Map 4-2**), most of these agencies are primarily located around the county seat and have satellite offices such as in Belmont, Columbiana, Guernsey, Holmes, and Tuscarawas Counties. It may be beneficial if agencies have satellite offices or another mechanism to connect many of the senior population that live in the more remote rural areas of their counties. This would benefit both the agency and the seniors to have satellite service facilities to decrease the transportation costs for both the agency and the seniors they serve.

MAP 4-2: MAP OF HUMAN SERVICE AGENCIES THAT SERVE POPULATIONS OF SENIORS AND PEOPLE WITH DISABILITIES

Map 4-3 indicates the areas where the number of zero vehicle households are the highest in the OMEGA Region by block group. The absence of a vehicle in the household is often an indication of the need for transportation services. According to **Exhibit 2-9**, there are 18,642 renter and owner households in the entire region that do not own a personal vehicle. There can be many reasons why a household does not own a vehicle but one of the reasons may be due to financial constraints. This is a major problem as related to employment transportation since many aspiring job applicants are required to have reliable transportation in order to be hired and keep their job. This creates a complex problem where a person who does not own a vehicle may not get an opportunity to work because of a lack of reliable transportation. In this case, more availability of affordable transportation options may be key to help them keep a job to earn an income to pay for expenses such as a personal vehicle. Relying on family and friends may not be the best option because they may not always be available.

According to **Map 4-3**, the areas in the region that have a high concentration of households with zero-vehicles are eastern Holmes County, north and south of Millersburg, north and northeast Coshocton County, and western Tuscarawas County. These areas have a high Amish population which may be an indicator as to why this area is one of the highest zero-vehicle households' group in the region. Other areas that have a high concentration of zero-vehicle households are in north Carroll County, several block groups in Columbiana County, south and east Jefferson County along the river, south and east Belmont County along the river, central and north Harrison County, north central and east Guernsey County, and in Muskingum County surrounding the county seat of Zanesville. These areas of the region may benefit from more available services from human service transportation and public transit. Reliable transportation is vital for a person to obtain employment and to stay employed.

It is also important to relate this data to the poverty statistics as mentioned in **Exhibit 2-5 and Exhibit 2-6**. There are 13.7%, or 58,874, of the households in the region that are considered to be below the federal poverty level. For individuals, there are 87,800 people that have incomes below the federal poverty level, equating to 15.5% of the total population in the region. For people that live in poverty, they may have difficult decisions on how to manage their income when it comes to transportation choice. The zero-vehicle households and the individuals with incomes below the federal poverty line are populations that may be most improved with affordable transportation options available to them on a regular basis.

MAP 4-3: MAP OF DENSITY OF ZERO VEHICLE HOUSEHOLDS

Map 4-4A and **Map 4-4B** illustrate the location of the top destinations for the existing transportation providers as well as major trip generators for the region. There is a diverse mix of trip generators (medical, commercial, recreation, education, human services, and industrial) all throughout the region and most are based geographically and demographically.
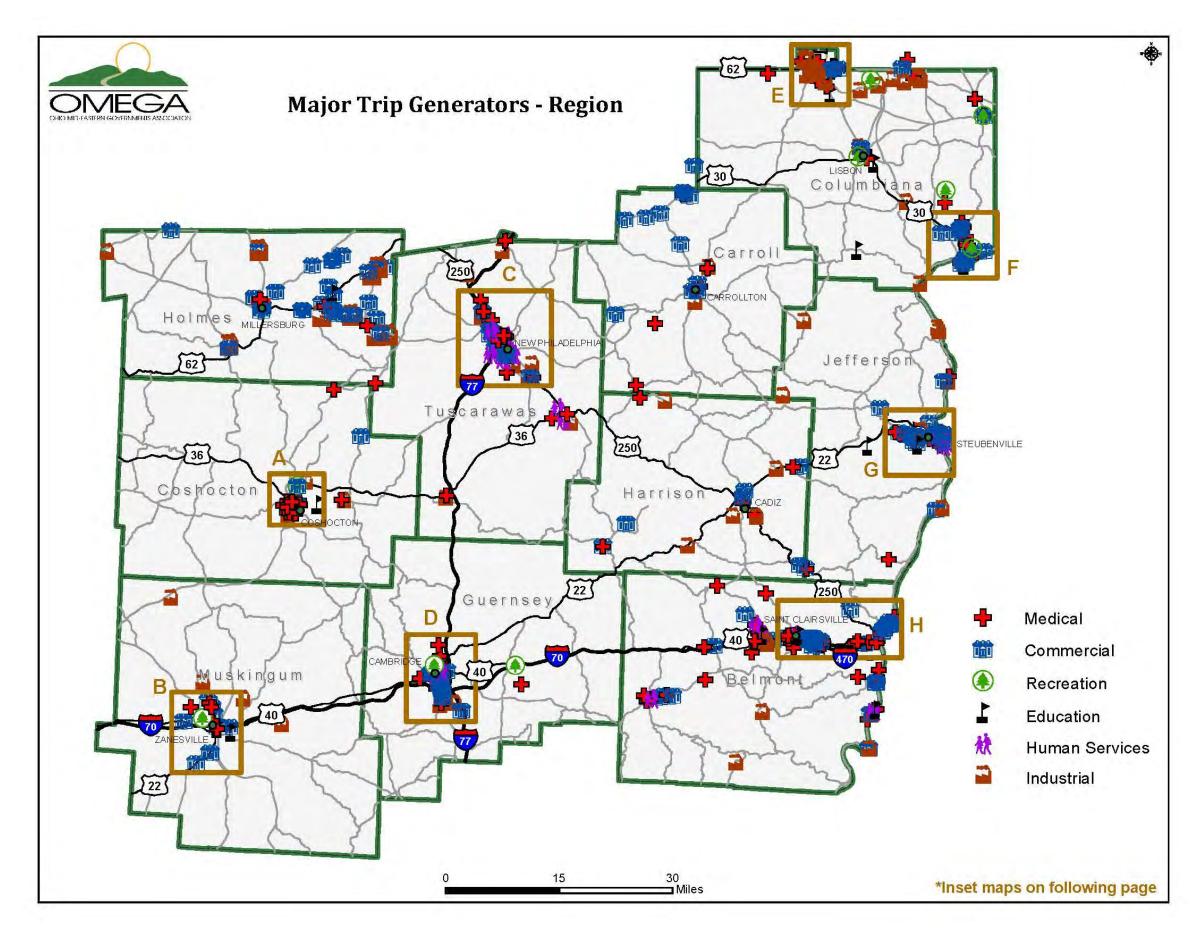

Most counties in the region have several national, regional, and local types of commercial businesses for restaurants, groceries, hardware, auto-repair, and other commercial centers. Most counties in the region also have at least one mall or shopping center located within their county which helps centrally locate a mix of these business offerings. Most counties also have several medical service options, since there are hospitals, medical facilities, or doctor offices. Most counties have a healthy collection of recreational facilities either in parks, gyms, golf courses, country clubs, hiking trails, and wildlife areas. Most counties have plenty of educational options from elementary, middle, high school, technical schools, small colleges, state university satellite campuses, such as Ohio University and Kent State, as well as local career centers. Human services are also available to the residents of the respective counties as each has a council on aging, developmental disability board, job and family service, service for veterans, and other services tailored to the specific area. Most of the counties also have plenty of industrial services that provide employment opportunities. In Belmont, Carroll, Columbiana, Guernsey, Harrison, and Jefferson counties, the oil and gas industry is growing. It is also growing in Tuscarawas, with the presence of Schlumberger Technologies and US Well Service Group, as well as the chemical industry. Also, in Columbiana County, there are more metal and material manufacturing, auto and machine industries, and other industries throughout.

Some local and regional chains and services are naturally located in counties close to their headquarters or where they primarily serve. For instance, Tuscarawas and Columbiana counties in the north have plenty of companies that are based in Northeast Ohio, such as Cleveland Clinic, Giant Eagle, Buehlers, Sherwin Williams, and Goodwill Industries of Greater Cleveland. Belmont, Guernsey, and Jefferson counties have companies from southwest Pennsylvania or southeast Ohio such as Reisbeck's, United Dairy Inc., and Fraley and Schilling Inc. There are a few hospitals that serve the region trips such as Genesis Hospital, Trinity Medical Center, Cleveland Clinic Union Hospital, and Southeastern Ohio Regional Medical Center, but there are very limited primary care facilities. For these trips, many regional residents make the trip to either Cleveland, Canton, Columbus, Wheeling, or Pittsburgh.
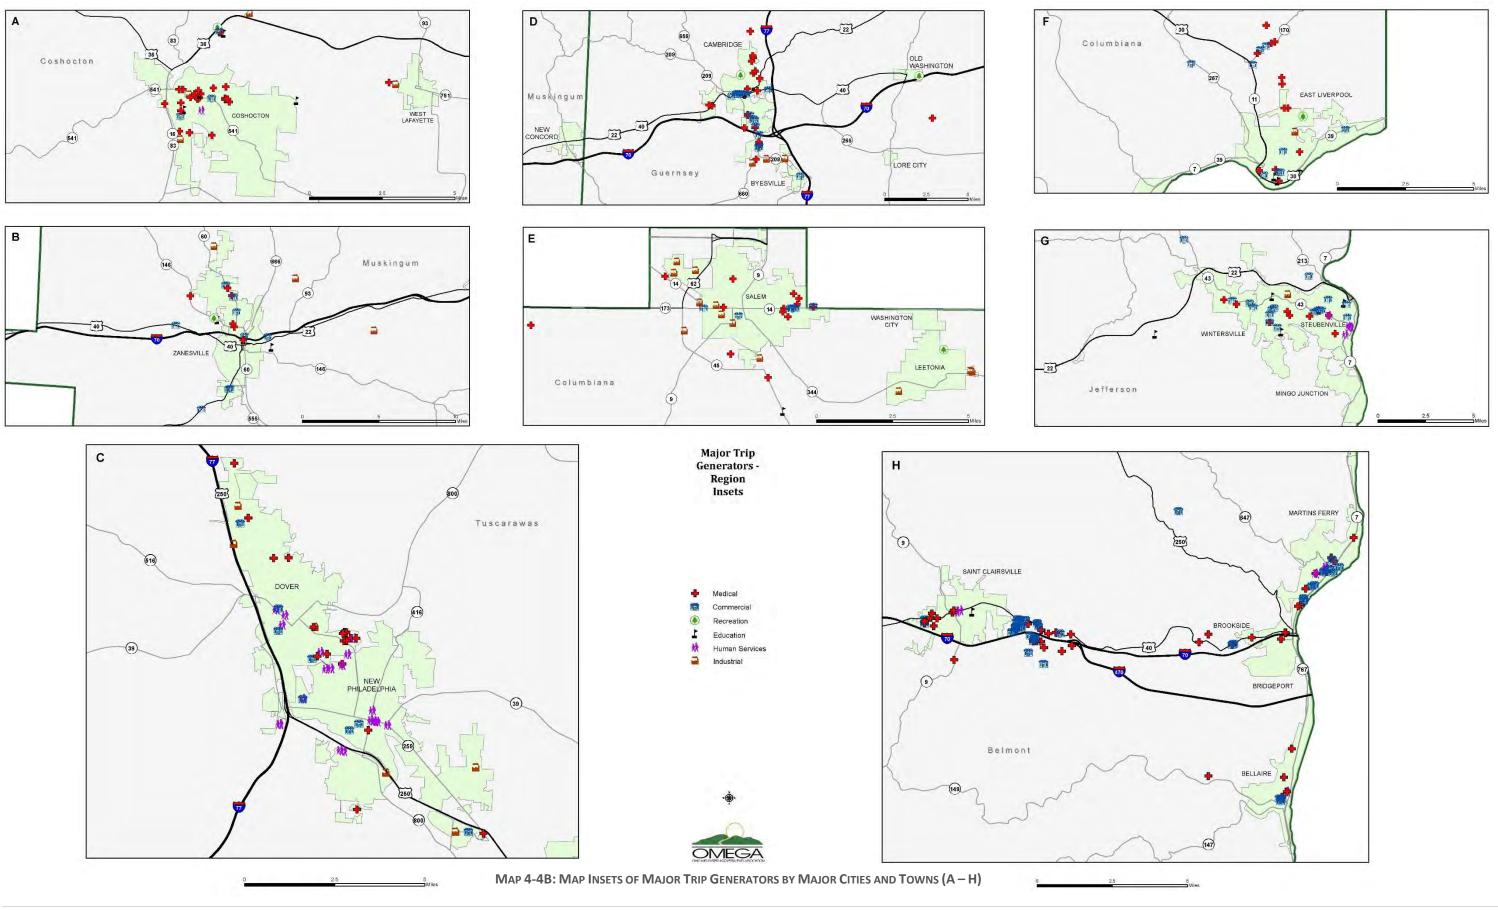

The least populous counties such as Harrison, Carroll, Coshocton and Guernsey have greater challenges in providing services. The human services are less comparatively since there is a lower population in these counties, however, the need is just as great. Each county has schools up through High School with a few options for higher education. Carroll and Harrison counties do not have any post-secondary education options other than the Belmont-Harrison Career Center in Cadiz. Coshocton and Guernsey counties have career centers as well as small colleges, Central Ohio Technical College and Zane State College – Willet Pratt Training Center, respectively. There are a good number of chain businesses and industries, but it is challenging to hire candidates if youth leave for school out of the region. There may be a need to encourage the youth to attend vocational schools, colleges, and universities in the region.

Holmes County has a strong mix of schools available as well as many private businesses which offer job opportunities to its residents. It is deficient on medical facilities since Pomerene Hospital in Millersburg is the largest hospital in the county but may have difficulty serving the county's medical needs. Many residents go north to Wooster or Canton for specialized medical care. There are many industrial

businesses which continues to strengthen their local economy. According to the 2017 US Census American Community Survey, Holmes County leads the region for the lowest unemployment rate (3.5%), lowest poverty rate for individuals (12.9%), poverty rate for households (9.1%), and the lowest disability rate (8.3%). Holmes County does have the highest Limited English Proficiency (20.2%) in the region primarily because they have one of the largest Amish populations.

Analysis of Demographic Data

When analyzing transportation needs from the public it is vital to know the demographics in the region. In relation to the ODOT 5310/5311 funding, the primary funding is to help transportation service providers that transport elderly and people with disabilities. This is the reason why knowing what the age demographics are in the region is important. Demographics are summarized by county and by the region in **Exhibit 4-1A** through **Exhibit 4-1K**. In the OMEGA Region, 18% of the population (103,768) people are considered to be seniors, age 65 and over. This percentage can vary as you travel throughout the region as the counties may differ. The disability rate in the region is 15% or 88,860 people with any kind of disability. These are the most vulnerable populations in our region in that they may not have reliable transportation and may benefit from having services available to their demographic. Most of the county seats are located in the middle of the county and may be center of the services which may be far from the vulnerable populations. Other demographics that relate are poverty because people who live in poverty may not be able to afford a personal vehicle or even be able to pay for transportation service. The poverty rate by population, 15.5% or 87,800 individuals, is very close to the disability rate for the region. The household poverty rate in the region is currently 13.7% or 58,874 households in region. It can be very challenging for people in poverty to have their mobility needs met for employment, medical, or commercial reasons.

Employment is a great challenge because having reliable transportation may be a requirement to be gainfully employed. If a person doesn't own a car or relies on family or friends and then may be unable to make it to work regularly, they will be at risk to lose their job. Staying employed can help an individual get out of poverty and work towards saving money to either purchase a vehicle or pay for transportation service. The region unemployment rate is currently 5.5% which equates to 3.1% of the working age population and accounts for 14,100 individuals. Of the total households, there are 8% or 18,842 households that have zero-vehicles. With the growth of specific industries in the region, especially the energy and the petrochemical industries, this may impact the region for new employees. However many new employees this industry hires, reliable transportation to get to work on a regular basis will be required because many of the jobs may be far away from where they currently live.

The OMEGA Region has a growing senior and youth population yielding a diverse mix of young and old populations in the region. The top two age groups by population are the seniors (65 years old and older) and the youth (0 – 14-year-old), both 18%, and are projected to remain as such as well as show some growth for the next 20 years. The projection over the next 20 years is that the age groups between 15 – 44 years old, will neither grow nor decline which proves stability in the age groups in the region. The only age groups projected to show some decline in the next couple decades are the age groups between 45 – 64 years old. The reason for this decline can be twofold in that the individuals in these groups now will become seniors after 20 years as well as the young adults who enter college may leave the region.

As the population continues to age in the region, the rate of people with disabilities may also increase. The current disability rate of 15% may be expected to rise with the population aging and may require more services for the elderly and people with disabilities. There are over 58,000 (13.7%) and 87,000 (15.5%) of households and individuals that are below the federal poverty level, respectively. This is important to know as it relates to the unemployment rate of 5.5% in the region. Connecting people who need jobs with reliable transportation is complex problem. There are currently over 18,000 zero-vehicle households which do not have access to their own personal vehicles. It is especially difficult for people in these households to acquire a stable job when they don't have their vehicle. It may benefit these

households to have more transportation options made available to them so they can earn a job and a stable income.

Based on the 2017 US Census American Community Survey, for the population that currently work (246,200 employees), 82.6% drive themselves and 9.1% carpool with other employees. The lowest group of commuters to work are those that use public transportation, which equates to only 0.3% or 739 employees of the region's workforce. They may use public transportation more if they are aware that it can connect them to their place of employment and that the trip is cheaper for them than driving or carpooling. An important caveat of people's commute to work is their location of employment. In the region, there are over 25,000 employees, or 10.3% of employees in the region that leave the state of Ohio for their regular employment. Approximately, 28.5% of employees in the region, or more than 63,000 employees, leave their county of residence daily to go to work. More than a quarter of the workforce in the region work in an adjacent county or further than that for their job. There are many people in the region that travel far for their work and it can be challenging for them to maintain reliable transportation for them to use in order to sustain their employment.

For specific analyses per county and region based on the demographics already discussed:

BELMONT COUNTY		
Demographic	**Population**	**Percentage**
Total Population	70,400	-
Senior Population	13,086	19%
People with Disabilities	10,984	15.6%
Individual Poverty	9,553	15%
Household Poverty	9,528	34%
Unemployed	1,548	4.8%
Zero-Vehicle Households	2,263	8.2%

(Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates)

General Public and Stakeholder Meetings/Focus Groups

OMEGA and other stakeholders hosted and facilitated five local meetings and focus groups to discuss the unmet transportation needs and gaps in mobility and transportation. Over 200 people participated in the meetings. Of those, **55.2%** self-identified as older adults and **29.8%** self-identified as being a person with a disability. More information about what meetings were held and attendance at those meetings is available upon request.

During the Regional Coordinated Council meeting, OMEGA provided an overview of the activities conducted to date associated with the development of the Regional Coordinated Public Transit/Human Services Transportation Plan.

Following the formal presentation, the stakeholders were asked to discuss the gaps in transportation services and needs. The focus of the discussion was transportation services for older adults, individuals with disabilities, and people with low incomes. However, several topics also discussed were the impact of mobility options for the general public.

Each participant was asked to rank the needs/gaps using colored dots representing a high, medium, or low priority and whether or not to delete any of the needs or gaps in transportation services.

Participants discussed more than 49 mobility issues to achieve, preserve, avoid, or eliminate through coordination during the meetings. A major focus of this regional plan is to make certain that these unmet needs are considered and addressed by the goals and strategies identified in this plan. The exhibit at the end of this section provides a summary of the unmet mobility needs discussed during the meetings as well as the needs identified by the survey results.

Surveys

The following survey summary includes the information gained from the surveys that were completed. OMEGA received 1,209 surveys from the general public. Of those responding to the survey, 29.8 % of individuals with disabilities completed the survey and 55.2% of older adults completed the survey. This was a non-scientific survey and may not be representative of the public in the entire region. It only represents the public that answered the surveys.

A thorough graphical representation of the survey results can be found in **Appendix M.**

The percentage of responses by age are:

- Age 65 and older - 55.2%.
- Age 55 to 64 - 15.5%.
- Age 45 to 54 - 9.8%,
- Age 35 to 44 – 7.1%
- Age 25 to 34 – 6.4%
- Age 15 to 24 - 5.5%
- Age 0 to 14 - 0.5%.

This age spread of survey responses may be due for two reasons. One, referring back to **Chart 2**, the senior population for the age group of 65 and older is second largest age cohort for the entire region at 18% and continuously growing. Referring back to **Chart 1B**, this age cohort is growing quickly and by 2020 is expected to be the largest age cohort. The second reason is that a majority of the public workshops were organized in conjunction with a county senior event or hosted at a senior center.

The percentage of response by county are:

- Guernsey County – 19.4%
- Jefferson County – 19.1%
- Belmont County – 18.4%
- Tuscarawas County – 10.3%
- Carroll County – 9.6%
- Columbiana County – 9.2%
- Coshocton County – 8.4%
- Muskingum County – 4.5%
- Harrison – 0.7%
- Holmes – 0.4%

The survey results are not correlated with population and are merely reflections of those who participated and responded to the survey.

Responses to the transportation options that have been used in the last year by the survey respondent or anyone in their family:

- Personal Vehicle – 73.4%
- Public Transit – 22.8%
- Senior Service Agencies – 22.1%
- Taxi Service – 9.4%

- Carpool/Vanpool – 9.1%
- Uber/Lyft – 4.1%
- Faith Based Organizations – 2.6%
- No Answer – 1.6%
- Family/Friends – 0.9%
- N/A – 0.3%
- Bike/Walk – 0.3%

The main reasons that would make using transportation service/public transit more appealing:

- Low Cost/Save Money – 63%
- Flexibility – 41.2%
- Personal Access – 37.0%
- Handicap Assistance – 31.4%
- Saves Time Per Trip – 16.0%
- Not Applicable – 2.7%
- Other – 1.3%

Some of the Other responses consisted of "another option when family can't drive", or "available to individuals who live in rural areas", and "maybe when I can't drive anymore" are just a few examples. Many of the respondents may seek out public transportation more if the cost per trip was less than them or their family members driving them.

The top overall responses for the types of trips taken regularly throughout the week were:

- Commercial (Shopping) – 57.3%
- Medical – 56.4%
- Recreational/Social/Church/Family – 52.7%
- Work – 32.4%
- Education – 9.8%

Since respondents could answer as many choices as they preferred, the total percentage exceeds 100%.

Outside of their local area, the destinations travelled more frequently were:

- An Adjacent County – 54.9%
- West Virginia – 25.6%
- Columbus, Central Ohio Region – 20.1%
- Pittsburgh, Southwest Pennsylvania Region – 17.7%
- Cleveland, Northeast Ohio Region – 9.2%
- Youngstown, OH – 5.6%
- Not Applicable – 3.4%
- Other Regional Counties/Towns – 1.9%
- Akron/Canton – 1.1%
- Don't or Can't Leave – 0.9%
- South Ohio – 0.5%
- Northwest Ohio – 0.5%

From the public perspective, the survey respondents tend to make frequent local trips but second to that are trips to West Virginia. This can be assumed from the 47.5% of the respondents from Belmont, Columbiana, and Jefferson Counties that many trips come from these three counties in the region since they all border West Virginia. The other trips to Columbus, Pittsburgh, and Cleveland may be related to the number of Medical trips that are taken out of the region for specialty care.

Since respondents could answer as many choices as they preferred, the total percentage exceeds 100%. The changes that the public suggests for improving transportation services in the region were:

- More Availability – 64.7%
- Reduce Wait Time – 31.9%
- Payment Options – 24.9%
- Advertising Services – 20%
- Shorter Trips – 13.0%
- Improve Vehicles – 12.6%
- N/A – 0.7%

Of the few short answer responses that were left for this question, some want to improve "the frequency of trips", offer a "wider range of area of service", as well as "expand service hours and vehicle size". Something also to take into consideration especially for medical trips is that it may be "difficult to wait for others if they are worn out or in pain from an appointment and the trip". Based upon these responses, expanding service hours and adding vehicles and drivers to increase the transportation service in the region appears to be a priority.

The top responses on what prevents the respondents from using transportation services on a regular basis are:

- Still Drive Yourself – 51.1%
- Family Provides Trips – 16%
- Transportation Options Unclear – 11.1%
- Schedule Conflicts – 9.7%
- Cost – 5.5%
- Driver's License – 3.9%
- Safety – 2.3%
- Other – 0.4%

It is interesting that cost was not selected more as a reason to prevent someone from using transportation services regularly when Low Cost was the top response in the fourth question for someone to have transportation more appealing to them. A total of 67.1% of the respondents answered that either they or a family member drives them on a regular basis. Increased awareness of the transportation options available or eligibility may increase use of public transit or human service transportation. At a couple of the public workshops, many seniors that took the survey reported they still drive themselves and mentioned they would use transportation services during the evening and night if available. Many seniors may be unaware that they are eligible for transportation from Senior Services. An extension of evening and night service hours may be beneficial.

The respondent's knowledge on the conditions of transportation service and/or public transit in the region are:

- Stayed the Same – 57.5%
- Improved – 29.2%
- Declined – 12.8%
- N/A – 0.5%

The next two questions were relevant to people with disabilities and populations that may be in need to use specific human services for their demographic. Regarding whether or not the respondent had a disability that requires them to use a cane, walker, wheelchair, or any other device or equipment to help them be mobile:

- Yes – 29.8%
- No – 70.2%

Whether or not the respondent or their family member currently use any transportation services available to them through Human Services benefits:

- Yes – 27.2%
- No – 72.8%

This may be because there is a lack of awareness of the services available to them on a regular basis and what they may be eligible to use.

A more specific analysis of this data, of those who responded as being a person with a disability:

- 27% responded "Personal Access" as more appealing to use public transit/human service transportation
- 53% responded "Handicap Assistance" as more appealing to use public transit/human service transportation

Of those who responded that they or a family member use transportation service available through human service benefits:

- 37% responded "Personal Access" as more appealing to use public transit/human service transportation
- 42.1% responded "Handicap Assistance" as more appealing to use public transit/human service transportation

The last two questions dealt with the times of the day and days of the week that the respondents prefer to use human service transportation/public transit if it were available to them. Based on the responses, the day of the week does not appear to matter since the responses only varied by a small percentage.

Challenges to Coordinated Transportation – Stakeholders

In addition to identifying needs, the Regional Coordinated Council gathered information from stakeholders and used their own professional experience to identify challenges to providing coordinated transportation services. These challenges include the following:

- Limited Funding
- Local Match
- Limited Resources/Technology
- Limited Broadband Service
- Insufficient Marketing
- Outreach to Public
- Incompatible Technology among Agencies
- Trip Duplications
- Transportation Service Provider Barriers/Limitations to Serve Public
- Trip Denials
- Eligibility Requirements
- Maintaining Qualified Drivers
- Sustainable Staff Size
    - Drivers
    - Schedulers
    - Dispatchers
- Trip Billing Across the Region
- No Set Fees for Out-of-Region Trips
- Transportation Across County Borders
- Each County Department of Jobs & Family Services Operate Independently
- Local Hospitals Closing
- Lack of consistent policies across all agencies, such as for no-shows or denials

Summary of Unmet Mobility Needs in Region – Stakeholders

The following exhibit describes the unmet transportation needs identified by the regional stakeholders and the method used to prioritize each need. Needs are listed in order of their rank in highest to lowest priority.

EXHIBIT 4-2: PRIORITIZED UNMET MOBILITY NEEDS – STAKEHOLDERS

Rank	Unmet Need Description	Method Used to Identify and Rank Need
1	**Employment transportation** • **Weekend service for DD Employment** • **Service for third shift**	*Regional Coordinated Council Meeting; Council Rank*
2	**Transportation for medical outside county**	*Regional Coordinated Council Meeting; Council Rank*
3	**Transportation for medical outside state**	*Regional Coordinated Council Meeting; Council Rank*
4	**Funding source for scheduling software and cost**	*Regional Coordinated Council Meeting; Council Rank*
5	**Expanded service hours if not Medicaid**	*Regional Coordinated Council Meeting; Council Rank*
6	**Able to go outside county because of high demand within county**	*Regional Coordinated Council Meeting; Council Rank*
7	**Local area hospitals closing causing longer trips for providers and patients**	*Regional Coordinated Council Meeting; Council added at August 2019 Meeting*

On the following page is a graphic of the SWOT Analysis (Strengths, Weaknesses, Opportunities, and Threats) that was complete during the Inaugural Regional Coordinated Council meeting. It also includes the Unmet Needs that the council revealed and how they relate to both the weaknesses and the threats that pertain to the region. The Goals and Strategies relate to the points that were developed in the strengths and opportunities within the analysis.

EXHIBIT 4-3: OMEGA REGIONAL SWOT ANALYSIS ASSOCIATED WITH UNMET NEEDS

Summary of Unmet Mobility Needs in Region – Public

The following tables describe the unmet transportation needs identified by the public at various public meetings and the method used to prioritize each need. Needs are listed in order of their rank in highest to lowest priority.

May 8, 2019 – AAA9 Older Adult Extravaganza, Guernsey County

Rank	Unmet Need Description	Method Used to Identify and Rank Need
1	**More weekend service** • **Especially all-day Saturday**	*Senior Event/Public Workshop; Public Vote*
2	**Night Transportation** • **For the visually impaired**	*Senior Event/Public Workshop; Public Vote*
3	**Morning service and on Sundays for church services**	*Senior Event/Public Workshop; Public Vote*
4	**Coordinate Trip scheduling with Doctor Appointments** **Ex. Prescription/Shopping with Appointments**	*Senior Event/Public Workshop; Public Vote*
5	**More efficient Employment Transportation for Job Security**	*Senior Event/Public Workshop; Public Vote*
6	**Supplemental bariatric services**	*Senior Event/Public Workshop; Public Vote*
7	**More Cab service**	*Senior Event/Public Workshop; Public Vote*
8	**Autonomous cars for seniors**	*Senior Event/Public Workshop; Public Vote*
9	**Expanded Fixed Route Service**	*Senior Event/Public Workshop; Public Vote*
10	**Free service for seniors**	*Senior Event/Public Workshop; Public Vote*
11	**Easy load ramps and lifts for vehicles**	*Senior Event/Public Workshop; Public Vote*
12	**Simplify Public Information (i.e. brochures)**	*Senior Event/Public Workshop; Public Vote*

Public Survey – Questions 4, 7, 8 & 9: Short Answer Comment Summary

Unmet Need Description
Question 4: What would make using transportation service/public transit appealing to you?
Able to complete work/reading/other activities
Limited Personal Mobility Options
Services for handicapped and seniors
Can be regional instead of just per municipality
I would rather be able to walk. Suburban development is hurting the communities

Cleanliness
Cheap fare
No car
Safe
Direct access
More service than a taxi to have access in Coshocton
Better use of resources
A well-known and reputable program in the community
Cannot drive myself anymore
That they show up on their scheduled time
Available to individuals who live in rural areas
Better for the environment
Bike rack
Car seat ability
Don't like to drive where I don't know where I am going
Courtesy of Drivers
Do not have to do the driving
Carroll County needs more options for public transportation other than just 8a to 4p
Can't drive to Cleveland Clinic
If own car is not working or unavailable, and can't drive myself
Need more transit to and from jobs
Having the availability
Question 7: What changes do you suggest to improve transportation services?
Frequency of trips
Wider Range of Area
Longer hours for transportation till 7, bigger buses and transportation on weekends
Sometimes it's difficult for people to wait for others when they are in pain or worn out from services and trip
Expanded Hours
Question 8: What prevents you from using transportation services on a regular basis?
Not enough seats
Have not needed services at this time
Time
Can drive myself right now but parents are 85
Question 9: To your knowledge, have conditions regarding transportation service and/or public transit:
Not native to this area
More Services Available
Not enough seats
Difficulty for elderly to get to appointments and Medicaid services cost of providing services have increased
Expand hours and add more coverage

EXHIBIT 4-4F: PRIORITIZED UNMET MOBILITY NEEDS – PUBLIC SURVEY RESPONSES

EXHIBIT 4-5: SUMMARY OF PUBLIC UNMET MOBILITY NEEDS IN THE REGION

Rank	Unmet Need Description	*Method Used to Identify and Rank Need
1	**More Weekend Service**	*RCC, Public Workshop & Survey Comments*
2	**More Travel Service & Payment Options**	*RCC, Public Workshop & Survey Comments*
3	**More Efficient Employment Transportation**	*RCC, Public Workshop & Survey Comments*
4	**Expand Other Types of Transportation Service**	*RCC, Public Workshop & Survey Comments*
5	**Improve & Increase Bus Service**	*RCC, Public Workshop & Survey Comments*
6	**Expand Non-Medicaid Service Hours**	*RCC, Public Workshop & Survey Comments*
7	**Offer Transfers & Improve City Connections**	*RCC, Public Workshop & Survey Comments*
8	**Increase Medical Transportation Outside County & State**	*RCC, Public Workshop & Survey Comments*
9	**Easy Fare/Rate for Low Income Individuals for Regional Mobility**	*RCC, Public Workshop & Survey Comments*
10	**Simplify Public Information (i.e. brochures)**	*RCC, Public Workshop & Survey Comments*
11	**Local Area Hospitals Closing Causing Longer Trips for Providers and Patients**	*RCC, Council added August 2019 Meeting*
12	**More Frequent Trips**	*Top Public Workshop Comment*
12	**Evening Transportation Service**	*Top Public Workshop Comment*
12	**Transportation to and from the Akron/Canton Airport**	*Top Public Workshop Comment*
12	**Bus Stop Shelters**	*Top Public Workshop Comment*
12	**Day & Seasonal Passes**	*Top Public Workshop Comment*

*All unmet needs have been collected from stakeholder and public participation from the Regional Coordinated Council meetings, public workshops, and comments in the regional public surveys. Specific county unmet needs are referenced in **Appendix H** listed in each county's coordinated plan. The top needs of each county are related generally to the region's unmet needs in **Exhibit 4-5** and more specifically in all exhibits from **Exhibit 4-2** through **Exhibit 4-4F.**

V. Goals and Strategies

Developing Strategies to Address Gaps and Needs

Strategies for improving transportation for the ten-county OMEGA Region should address the service gaps and user needs identified in this plan, if they are to be effective. As described, the gaps and unmet needs were based on information obtained from geographic analysis, the attendees participating in the meetings, and responses to the public survey.

Based on information gathered throughout the planning process, OMEGA and the Regional Coordinated Council developed the following strategies to address the gaps and unmet transportation needs. Priority levels are assigned by considering the primary funding sources that could be available to support plan implementation compared to the importance of meeting this unmet need expressed by the public and stakeholders. Not all strategies are activities specifically eligible for funding under the existing programs, nor is it guaranteed that enough funding will be available to achieve every strategy identified. In addition, the local stakeholders will need to provide support and commit to pursuing the strategies if they are to be accomplished. Nonetheless, these strategies have been tailored to 12 of the identified primary gaps and needs. The last four are each ranked 12 since they were public survey comments.

Below is an outline describing the prioritized strategies, for the region and by county, to address each of the identified unmet transportation needs and gaps in service. This will be followed by ongoing collaboration efforts within the region, followed by a summary table of the projects submitted by transportation service providers. Lastly, this will conclude with a summary of success stories that have been shared since the regional planning efforts began by stakeholders coordinating regional transportation.

Regional Goal #1:

Increase Ridership for all Transportation Service Providers and Transit Agencies in the Region.

Need(s) Being Addressed:

1. More Weekend Service
2. More Travel Service & Payment Options
4. Expand Other Types of Transportation Service
5. Improve & Increase Bus Service
6. Expand Non-Medicaid Service Hours
7. Offer Transfers & Improve City Connections
8. Increase Medical Transportation Outside County & State
9. Easy Fare/Rate for Low Income Individuals for Regional Mobility
10. Simplify Public Information (i.e. brochures)
11. Local Area Hospitals Closing Causing Longer Trips for Providers and Patients
12. More Frequent Trips
12. Evening Transportation Service
12. Transportation To and From the Akron/Canton Airport
12. Bus Stop Shelters
12. Day & Seasonal Passes

Strategy 1.1:

Extend service hours of transportation service providers and human service agencies to supplement necessary trips, maybe more on-demand.

Strategy 1.2:

Increase marketing and advertising of transportation services especially in conjunction with the Mid-Ohio Mobility Solutions.

Strategy 1.3:

Coordinate affordable rates for the public that use transportation service in the region.

Strategy 1.4:

Continue regional and local coordination of transportation service providers, human service agencies, and other participating stakeholders.

Timeline for Implementation: Duration of the Plan Implementation

Action Steps:

1. Regional Coordinated Council Quarterly Meetings
2. Continue Monthly/Bi-monthly Mobility Manager Meetings
3. Standardize Fares across all counties
4. Outreach to Regional Stakeholders, Especially Medical Providers
5. Increase Marketing and Advertising of Transportation Services
6. Regional Mobility Manager Coverage – All Counties
7. Increase Wages and provide Better Conditions for Drivers
8. More fixed routes/shuttles for weekend and evening service
9. Issue regionwide transportation pass (Universal Traveler's Card)
10. Central Regional Training for Transportation Service Provider Certifications/Recertifications

Parties Responsible for Leading Implementation:

- SEAT
- CAAofCC
- Guernsey County Senior Center
- OMEGA

Parties Responsible for Supporting Implementation:

- ODOT Office of Transit
- Tuscarawas County JFS
- Tuscarwas County Senior Center, Mobility Manager
- National Church Residences

Resources Needed:

- Central Meeting Location
- Conference Call Software
- Cost-Allocation Model

- Marketing/Advertising Funds & Materials
- Statewide Mobility Managers Program Information
- Operating funds for driver's wages
- Annual/Quarterly Origin-Destination Data
- Fixed Route Maps
- Universal Scheduling Software
- Vehicle Replacement Plan
- Best Practices on Traveler Identification Cards

Potential Cost Range: *Total Projects Cost Estimate: $5.6 million*

Potential Funding Sources: ODOT 5310/5311, Local Match, Revenue Sources, Levy

Performance Measures/Targets:

1. Measure – Number of Regional Coordinated Meetings
   a. Target – Minimum of four meetings annually (one each quarter)
2. Measure – Number of Mobility Manager Meetings
   a. Target – Minimum of six meetings annually (bimonthly meetings)
3. Measure – Cost-Allocation Model Test
   a. Target – Minimum of three Transportation Service Providers Volunteer
4. Measure – Involve Medical Providers (Hospitals and Clinics) on the Regional Coordinated Council that Transportation Providers Frequent
   a. Target – All Medical Providers Located in the Region
   b. Target – At least one Major Medical Provider from each Out-of-Region City (Columbus, Akron, Cleveland, Canton, Youngstown, Pittsburgh, Wheeling)
5. Measure – Marketing and Advertising of Transportation Service Providers
   a. Target – 90% of Transportation Service Providers Advertised in Region
6. Measure – Fixed or Deviated-Fixed Route Services in All Counties in the Region
   a. Target – Develop Fixed or Deviated-Fixed Routes in counties that currently don't have any to assist with local trips
   b. Target – Carroll, Coshocton, Harrison, Holmes, and Tuscarawas Counties
7. Measure – Develop and distribute a region Universal Traveler's Card for the public
   a. Target – Research three Best Practices on how best to implement this resource
   b. Target – Pilot 100 people from the public, 10 from each county, on positives/negatives
   c. Target – Develop a Cost-Benefits Analysis for implementing this card
8. Measure – Annual Centralized Workshops Training Certifications for Regional Transportation Providers
   a. Target – Minimum of one Regional Safety Training Workshop
   b. Target – Minimum of one Regional Vehicle Maintenance, Inspection, ADA, Safety Equipment, and Communications Training Workshop
   c. Target – Minimum of one Regional Employment Screening and Testing (Random, Post-Accident, Suspicion) Training Workshop
   d. Target – Minimum of one Regional Employee Criminal History, Driver's License Record, and Abuse Registry Check Training Workshop

Regional Goal #2:
More Efficient Out-of-County and Out-of-Region Transportation Service.

Need(s) Being Addressed:

7. Offer Transfers & Improve City Connections
8. Increase Medical Transportation Outside County & State
9. Easy Fare/Rate for Low Income Individuals for Regional Mobility
10. Simplify Public Information (i.e. brochures)
11. Local Area Hospitals Closing Causing Longer Trips for Providers and Patients
12. Transportation to and from the Akron/Canton Airport
12. Day & Seasonal Passes

Strategy 2.1:
Cost-allocation, billing, and rates between transportation service providers and human service agencies.

Strategy 2.2:
Utilize and implement a common scheduling technology to be used throughout the region.

Strategy 2.3:
Coordinate and continue regular quarterly meetings and conference calls/webinars for the Regional Coordinated Council, Regional Coordinated Planning Committee, and Regional Mobility Managers.

Strategy 2.4:
Meet with each county Department of Jobs & Family Services individually and as a group.

Strategy 2.5:
Produce and provide a Hot-Spot Analysis of major trips and destinations in and out of the region on an annual basis.

Strategy 2.6:
Establish a committee to develop Best Practices & Memorandums of Understanding (MOUs) for the Region.

Timeline for Implementation: Duration of Plan Implementation

Action Steps:

1. Analyze Cost-Allocation Model Testing Results
2. Council Decision on Scheduling Software for the Region
3. Continue Regional Coordinated Planning Committee (RCPC) Meetings
4. Continue to Collaborate with Each County's Department of Jobs & Family Services
5. Create Map with Annual Origin-Destination Data from Transportation Service Providers
6. Steer the RCPC to draft Best Practices and MOU's for the Region
7. Continue to increase regional call center calls month to month

Parties Responsible for Leading Implementation:
- Tuscarawas County Senior Center, Mobility Manager
- CAAofCC

- SEAT
- OMEGA

Parties Responsible for Supporting Implementation:

- ODOT Office of Transit
- Guernsey County Senior Center
- The ABCD, Inc.
- Tuscarawas County JFS
- SEA Inc.
- National Church Residences
- PrimeTime Office on Aging

Resources Needed:

- Cost-Allocation Model Results
- Scheduling Software Quotes
- Conference Call Capability/Meeting location for RCPC
- JFS Meeting Locations
- JFS MOU for Plan Implementation
- GIS Maps for Annual Origin-Destination Data
- Transportation Service Provider Partnerships & Collaboration
- Medicaid Policy Change
- Medicaid Billing Change

Potential Cost Range: *Total Projects Cost Estimate Involving Goal 2: $3.1 million*

Potential Funding Sources: ODOT 5310/5311, Local Match, Revenue Sources, Levy

Performance Measures/Targets:

1. Measure – Number of Mid-Ohio Mobility Solutions Calls
   a. Target – Increase call volume between 5-10% every month
2. Measure – Cost-Allocation Model Test Results & Analysis
   a. Target – At least one Transportation Service Provider in each county applies results to their fares
3. Measure – Receive quotes on scheduling software for the region
   a. Target – Survey TSPs that participate in the CTS Pilot
   b. Target – Determine software that provides best quality and lowest costs for the region
4. Measure – Number of RCPC Meetings
   a. Target – Four meetings annually (quarterly)
5. Measure – Produce Origin-Destination Maps Annually
   a. Target – At least one Destination Points Map for Minimum 10 Transportation Service Providers
   b. Target – At least one Lines Map for Minimum 10 Transportation Service Providers
6. Measure – Number of meetings with JFS in the Region
   a. Target – Two meetings (bi-annual) with all 10 county JFS, at least one representative

Regional Goal #3:
Reduce Denials and No-Shows of the Riders that Use Transportation Service in the Region.

Need(s) Being Addressed:

- 2. More Travel Service & Payment Options
- 4. Expand Other Types of Transportation Service
- 6. Expand Non-Medicaid Service Hours
- 8. Increase Medical Transportation Outside County & State
- 9. Easy Fare/Rate for Low Income Individuals for Regional Mobility
- 10. Simplify Public Information (i.e. brochures)
- 11. Local Area Hospitals Closing Causing Longer Trips for Providers and Patients
- 12. More Frequent Trips
- 12. Evening Transportation Service

Strategy 3.1:
Utilize the Mid-Ohio Mobility Solutions as a tool for Transportation Service Providers and Human Service Agencies to coordinate regional trips.

Strategy 3.2:
Coordinate regional trips using scheduling technology/software between the transportation providers.

Strategy 3.3:
Communicate and coordinate with all Department of Jobs & Family Services in the region on local needs.

Strategy 3.4:
Reduce one-person vehicle trips for all transportation providers in the region by coordinating rides.

Strategy 3.5:
Share Transportation Service Provider Inventory or Scheduling Software with Medical Providers in order to schedule rides with medical appointments.

Strategy 3.6:
Establish a satellite mobility solutions center for the eastern part of the region.

Timeline for Implementation: Monthly Comparison of No-Show and Denial Statistics through Duration of Implementation

Action Steps:

1. Market to the Region and Invite All Transportation Service Providers to use Call Center
2. Establish Determined Scheduling Software for the Region
3. Gather Specific Transportation Unmet Needs & Gaps from JFS Clients
4. Encourage multiple ride trips for transportation providers
5. Share TSP Inventory with frequented Medical Providers both in and out of region
6. Research Best Practices of No-Show/Cancellation Policies
7. Develop a Region-wide No-Show/Cancellation Policy
8. Require Call-Backs from Transportation Service Providers to Riders with Scheduled Trips

9. Transportation Service Providers Host Workshops/Webinars on Strategies to Reduce Denials, No-Shows and Cancellations

Parties Responsible for Leading Implementation:

- CAAofCC
- SEAT
- OMEGA

Parties Responsible for Supporting Implementation:

- ODOT Office of Transit
- Horizons Rural Public Transportation
- Guernsey County Senior Center
- Tuscarawas County Senior Center, Mobility Manager
- The ABCD, Inc.
- National Church Residences

Resources Needed:

- Regional Coordinated Council MOU
- Simplified TSP Inventory Brochure, both paper and electronic
- Shared Rides Advertisements
- Unmet Needs & Gaps Report from 10 county DJFS
- Regional No-Show/Cancellation Policy
- Call-back policy for scheduled trips

Potential Cost Range: *Total Projects Cost Estimate Involving Goal 3: $3.1 million*

Potential Funding Sources: ODOT 5310/5311, Local Match, Revenue Sources, Levy

Performance Measures/Targets:

1. Measure – Create No-Show/Cancellation Policy for Transportation Service Providers to Adopt
    a. Target – At least one Transportation Service Provider from each County
2. Measure – Number of No-Shows/Cancellations by Transportation Service Providers
    a. Target – Reduce Monthly No-Shows/Cancellations in region between 5-10%
3. Measure – Number of Denials by Transportation Service Providers
    a. Target – Reduce Trip Denials 5% in region every month
4. Measure – Number of call-backs by all Transportation Service Providers
    a. Target – Increase scheduled trips' call-backs by 50% every month
5. Measure – Regional Workshops/Webinars on Strategies to Reduce Denials, No-Shows, and Cancellations
    a. Target – Minimum two Workshops/Webinars every year (bi-annual)

Regional Goal #4:

Cost-Effective Vehicle Replacement for all Regional Transportation Service Providers.

Need(s) Being Addressed:

1. More Weekend Service
2. More Travel Service & Payment Options
4. Expand Other Types of Transportation Service
5. Improve & Increase Bus Service
6. Expand Non-Medicaid Service Hours
8. Increase Medical Transportation Outside County & State
12. More Frequent Trips
12. Evening Transportation Service
12. Transportation To and From the Akron/Canton Airport

Strategy 4.1:

Document and log vehicle age, condition, mileage and any other important data relating to vehicle usage on an annual basis.

Strategy 4.2:

Explore and create innovative funding options for all stakeholders involved with the regional plan.

Strategy 4.3:

Develop a timeline for vehicle replacement in order for transportation providers to better serve the needs of their service area and the region.

Strategy 4.4:

Establish minimum regional requirements for vehicles and drivers that serve the senior population and people with disabilities.

Timeline for Implementation: Every year beginning in 2021

Action Steps:

1. Continue to log and document regional vehicle mileage, age, and condition
2. Research other funding sources for transportation service vehicles
3. Create a vehicle replacement schedule in line with ODOT 5310/5311 funding deadlines
4. Schedule 5310 Grant Application Workshop and Assistance
5. Schedule 5311 Grant Application Workshop and Assistance
6. RCPC and Mobility Managers to develop a vehicle donation and tax deduction program
7. Create specific vehicle replacement plan for regional transportation service providers
8. Document major repair costs not including routine maintenance

Parties Responsible for Leading Implementation:

- Guernsey County Senior Center
- Tuscarawas County Senior Center
- OMEGA

Parties Responsible for Supporting Implementation:

- ODOT Office of Transit
- Tuscarawas County JFS
- National Church Residences

Resources Needed:

- TSP Electronic Vehicle Document Log
- Regional vehicle replacement schedule
- Workshop location for 5310/5311 grant applications
- Webinar capabilities for 5310/5311 grant applications
- Meeting space
- Software for Rightsizing Fleet
- Transfer program for idle vehicles

Potential Cost Range: *Total Projects Cost Estimate Involving Goal 4: $2.9 million*

Potential Funding Sources: ODOT 5310/5311, Local Match, Revenue Sources, Levy

Performance Measures/Targets:

1. Measure – Regional vehicle of documenting age, condition, and mileage
   a. Target – All Regional 5310/5311 Transportation Service Providers report their fleet data annually
2. Measure – Number of workshops/webinars hosted to train Transportation Service Providers on grant applications
   a. Target – Minimum of two workshops annually (one in person, one webinar)
3. Measure – Program for vehicle donation and/or tax deduction to save money
   a. Target – 5% of vehicle replacements come from donations
   b. Target – 5% of vehicle replacements have tax deductions
4. Measure – Reduce number of idle vehicles by transportation service providers in the region
   a. Target – 25% reduction of idle vehicles by providers or donors every year

Regional Goal #5:
Increase Employment Transportation Options for Jobseekers and Employees.

Need(s) Being Addressed:

3. More Efficient Employment Transportation
4. Expand other types of transportation service
7. Offer transfers & improve city connections
9. Easy fare/rate for low income individuals for regional mobility
10. Simplify Public Information (i.e. brochures)
12. More frequent trips
12. Evening transportation service
12. Day & seasonal passes

Strategy 5.1:
Increase public education and awareness on the transportation options available for employees and job candidates.

Strategy 5.2:
Partner with local and regional businesses to more efficiently track the need for employment transportation.

Strategy 5.3:
Coordinate with job & career training centers in the counties in our region to provide reliable transportation for jobseekers.

Strategy 5.4:
Establish car-share rides across age groups in the employment force.

Strategy 5.5:
Coordinate vanpools/carpools with local coordination planning teams in each county.

Strategy 5.6:
Allow sharing rides between counties.

Strategy 5.7:
Establish a Public Transit Coalition for the region.

Timeline for Implementation: Through Duration of the Plan Implementation

Action Steps:

1. Host public workshops and marketing events
2. Create regional TSP Inventory information brochures
3. Create sub-committee to track regional employee/job candidate transportation needs
4. Distribute scientific survey to partnered businesses, career training centers and university, colleges, and vocational schools
5. County coordinated planning teams coordinate carpools/vanpools with employers
6. Create a Regional Public Transit Coalition to increase reliable transportation to employers

Parties Responsible for Leading Implementation:

- SEAT
- OMEGA

Parties Responsible for Supporting Implementation:

- ODOT Office of Transit
- The ABCD, Inc.
- Guernsey County Senior Center
- Tuscarawas County Senior Center, Mobility Management
- Ohio Department of Developmental Disabilities: Employment First + Community Life Engagement
- SEA Inc.

Resources Needed:

- Regional Major Employer Inventory
- Marketing Materials
- Regional TSP Inventory Information Brochures – Online and Paper
- Survey Distribution Service – Online
- Public Workshop Locations
- Employer Information from Chambers of Commerce and DJFS

Potential Cost Range: *Total Projects Cost Estimate Involving Goal 5: $2.4 million*

Potential Funding Sources: ODOT 5310/5311, Local Match, Revenue Sources, Levy

Performance Measures/Targets:

1. Measure – Number of Public Workshops for Employment Transportation
   a. Target – Minimum of one annually
2. Measure – TSP Inventory Brochures
   a. Target – Minimum of 1,000 brochures for each county
3. Measure – Number of scientific surveys distributed
   a. Target – One Survey for every employee/job seeker
   b. Target – One Survey for every employer

Future Project Proposals & Implemented Strategies

Transportation Service Provider Regional Projects

To begin implementation of the goals and strategies, each member of the Regional Coordinated Council was asked if there were any projects that they propose to be eligible for future funding opportunities. The categories of projects were separated into three categories: capital (vehicle replacement, adjustment, new vehicles, etc.) operating (services, software, technology, applications, etc.), or Mobility Management (initializing or continuing application for mobility management program). Every project submittal required the agency name, county, service area, funding source, project name, summary, items required to implement, and a total cost estimate. Each project summary is located on the project summary's form listed in **Appendix L.** The 36 projects are listed in the following exhibit, **Exhibit 5-1**, in alphabetical order by county.

2019 REGION 9: TRANSPORTATION SERVICE PROVIDER PROJECT FORM SUBMITTALS

ODOT DISTRICT	AGENCY NAME	COUNTY	SERVICE AREA	GRANT FUND SOURCE	PROJECT NAME	TYPE	ITEMS REQUIRED	COST ESTIMATE	DATE SUBMITTED	GOAL #	FUNDING YEAR
11	National Church Residences Transportation Services, LLC	Belmont	OMEGA Region 9	5310	On-Demand Mobile App Technology	Operating	FTA Funding	$40,000 - $70,000	7/23/2019	Goal 1; Goal 2; Goal 3;	2021
11	National Church Residences Transportation Services, LLC	Belmont	Western Belmont/ Monroe County	5310	Regional Connectivity – Route 800 Belt Line Plan	Capital/ Mobility Management	MOU between Belmont and Monroe Counties Funding Source	$151,400	7/23/2019	Goal 1; Goal 2; Goal 5	2021
11	National Church Residences Transportation Services, LLC	Belmont	OMEGA Region 9	5310	5310 Vehicle Replacement Plan	Capital	FTA Funding	$195,000	7/23/2019	Goal 1; Goal 3; Goal 4	2020
11	National Church Residences Transportation Services, LLC	Belmont	OMEGA Region 9	5310	Technology - Regional Software	Operating	MOU between providers Funding Source	$153,000	8/7/2019	Goal 1; Goal 2; Goal 3; Goal 5	2021

PROJECT FORM CATEGORY DEFINITIONS:

ODOT DISTRICT: *Applicable ODOT District relating to Transit Service Provider.*

AGENCY NAME: *Name of the Agency that submitted the project.*

COUNTY: *County the Agency is located.*

SERVICE AREA: *This is the area that the Agency serves or where the project will have an impact.*

GRANT FUND SOURCE: *This is the grant that the Agency is seeking funding for their project.*

PROJECT NAME: *This is the name of the project the Agency has chosen.*

TYPE: *This is the project type that the funding will go towards.*

ITEMS REQUIRED: *These are any necessary items that the agency will need to accomplish the goal of the project.*

COST ESTIMATE: *This is a general total the Agency is estimating the project will cost.*

DATE SUBMITTED: *This is the date that the project summary form was submitted.*

GOAL #: *This is the goal number that the project is correlated to in the regional coordinated plan.*

FUNDING YEAR: *This is the funding year in which the project will be considered for.*

SEE APPENDIX L FOR ALL INDIVIDUAL PROJECT FORMS WITH COMPLETE PROJECT DESCRIPTIONS

† = *Columbiana County will have to refer to their county coordinated plan in order to apply for ODOT funding.*   122 | P a g e

Regional Coordination Success Stories

CTS Scheduling Software Collaboration

Over many months of meetings, collaborating, and sharing information and data, the Regional Coordinated Council determined that an important step to having a successful plan implementation would be to begin working towards having similar scheduling software to coordinate trips. Not all transportation service providers have the same scheduling software, and many don't use software at all to schedule their daily, weekly, and monthly trips. There are a few providers that schedule with pen and paper or use non-traditional software to use for scheduling, such as Microsoft Word or Excel.

Scheduling software can be very expensive, and the pricing can be very complicated depending on many factors such as the number of trips a provider makes, the maximum number of booked trips, trips per day, the size of the vehicle fleet and combination of the trips. The price range can be between $100,000 to $750,000 depending upon fleet size and numbers of trips plus an annual maintenance fee. The financial strain put on a transportation service provider may be cost-prohibitive for some providers and other agencies that contract transportation services. For small agencies, with fleets of 10 vehicles or less, scheduling software may not be an option and for the larger fleets, 30 or more vehicles, they can manage their service more efficiently as long as they are able to afford the software and licensing.

In order to navigate around the financial barriers, it may be beneficial for the transportation providers on the Regional Coordinated Council to work together to purchase a software that can work for everyone and minimize the financial hardship. While considering this option, several of the larger providers in the region use a scheduling software named TripMaster by CTS Software and had conversations to expand the service in the region. The account executive from CTS decided to provide a database for the coordination efforts for the regional coordinated plan as a pilot project at no charge. This is a temporary solution until a final plan can determine what will be best for the region and all the participating transportation providers. Funding will be needed to implement a more permanent solution.

Determining the shift of technology, funding, coordination and trip patterns will be a top priority to have this pilot be successful for the overall goal of the plan. The offer of any software for any period of time that is free of charge for the transportation providers is a very generous and vital resource to bring coordination efforts to fruition.
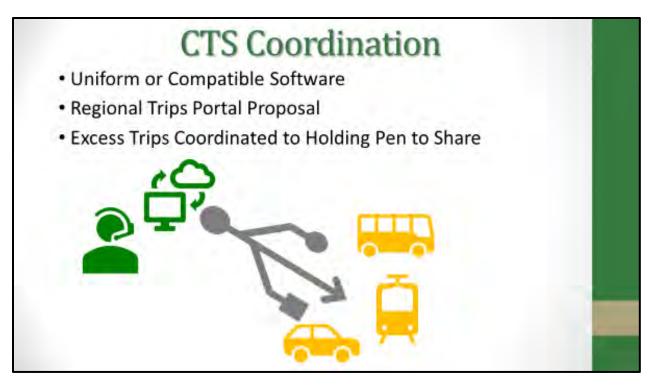

IMAGE 5-1: CTS COORDINATION PRESENTATION SUMMARY

How this will work for the region is that the TripMaster database software will be used as a portal for all regional transportation service providers in the 10-county region to use at their will. Support and training will be provided if needed. Each agency will have their own individual holding pen when they use the software for any trips that they are unable to schedule. There will be an overall region holding pen to move unscheduled trips into the portal to then be scheduled with any transportation service provider that is able to take the trip from origin to destination. The trip is then exported from the region holding pen and imported into the individual database. The program is completely voluntary, and any provider is able to withdraw at any time they find necessary. The overall goal for this pilot is to reduce trip denials.

The Business Associates Agreement (BAA) to participate and use the CTS software offer is included in the **Appendix N.** Each participating agency that signs it does so voluntary and abides by the terms and conditions included in the agreement.

Mid-Ohio Mobility Solutions Collaboration

Website: https://mobility-options.org/

IMAGE 5-2: REGIONAL CALL CENTER OPEN HOUSE FLYER

The CTS portal will work more efficiently and correlate with another pilot project offered to the region in the regional call center. The Mid-Ohio Mobility Solutions was formed as a partnership between the Mobility Manager Shannon Hursey and the Transit Agency SEAT to provide a call center for the 10-county region to do more than just schedule trips but to provide solutions for all mobility issues. This is more evidence of great coordination since it brings together transportation service providers from all areas of the region who before may have never crossed jurisdictional boundaries, yet they provide the same type of service.
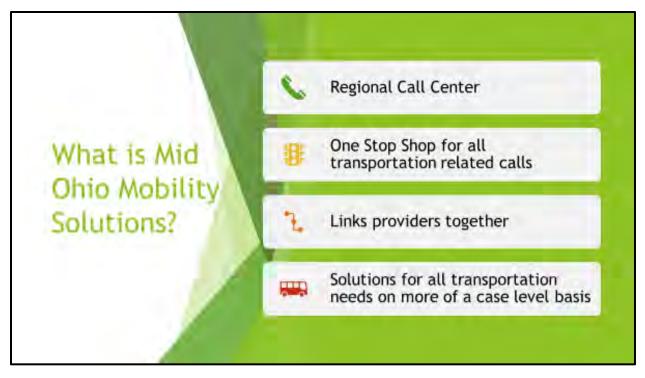

IMAGE 5-3: MID-OHIO MOBILITY SOLUTIONS PRESENTATION SUMMARY

The call center pilot will run until the end of 2019 and utilizes information on all the transportation service providers that this plan has produced and also grants free access to the CTS technology. It currently houses two part-time employees who take calls during regular business hours and who offer information on transportation providers to help people make trips in and out of the region while also solving mobility issues such as equipment for people with disabilities. More of the success stories from the Mid-Ohio Mobility Solutions will be in the next section and also its corresponding **Appendix K** section.

IMAGE 5-4: MID-OHIO MOBILITY SOLUTIONS PRESENTATION PILOT OPTIONS

The goal for Mid-Ohio Mobility Solutions correlates to the overall goal of the regional coordinated plan, that anyone who needs a ride from the region can get a ride, especially seniors and people with disabilities. It is vital to be able to operate as a region whether it helps keep costs lower for the public and the transportation providers and to allow sharing trips since it makes service more efficient.

IMAGE 5-5: MID-OHIO MOBILITY SOLUTIONS PRESENTATION PILOT GOALS
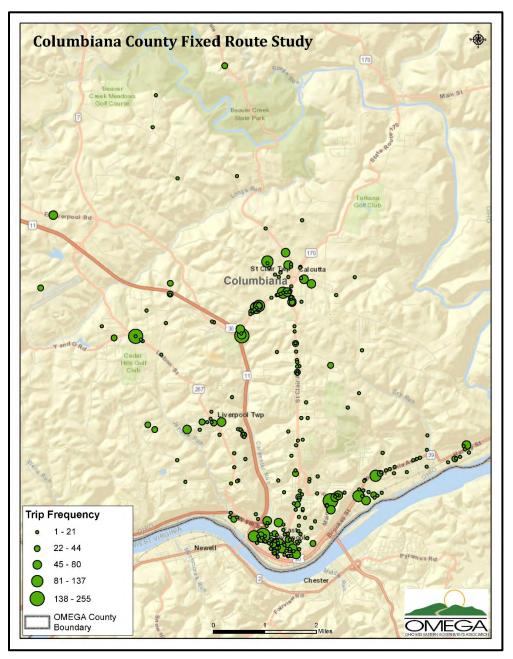

SEE APPENDIX K FOR ALL SUCCESS STORY NARRATIVES FROM COORDINATED TRANSPORTATION

Columbiana County Deviated Fixed Route Shuttle "Make the Connection"

IMAGE 5-6: COLUMBIANA COUNTY'S MAKE-THE-CONNECTION DEVIATED FIXED ROUTE PILOT PROJECT
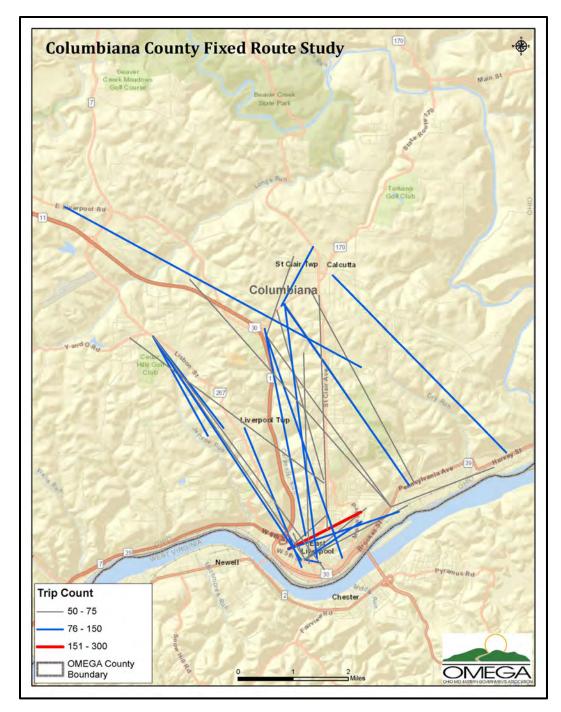

The Mobility Manager Deb Hill of the Community Action Agency and CARTS Director Shari Green were thinking about developing a deviated fixed route shuttle for the southeastern region of Columbiana County. Deb parsed the Origin – Destination data for CARTS from December 2018 until March 2019. In that three-month period, there were a total of 5,717 trips for the one zip code they were interested in developing a route. They figured they could use recent trip patterns and frequency to develop a fixed

route that loops through East Liverpool and Calcutta every hour. OMEGA received the trip data and mapped out destination points and line maps for the requested routes.
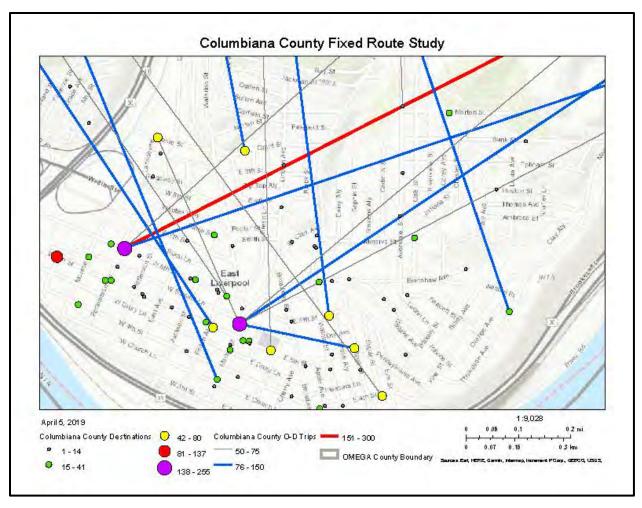

MAP 5-1: COLUMBIANA COUNTY'S DESTINATION POINTS ZIP CODE MAP

The destination points map helped to determine some of the most frequented stops to help lay a foundation for the route. Another important factor to determine was the trip pattern in which a lines map can help visualize a possible flow for the route.

MAP 5-2: COLUMBIANA COUNTY'S DESTINATION LINES ZIP CODE MAP
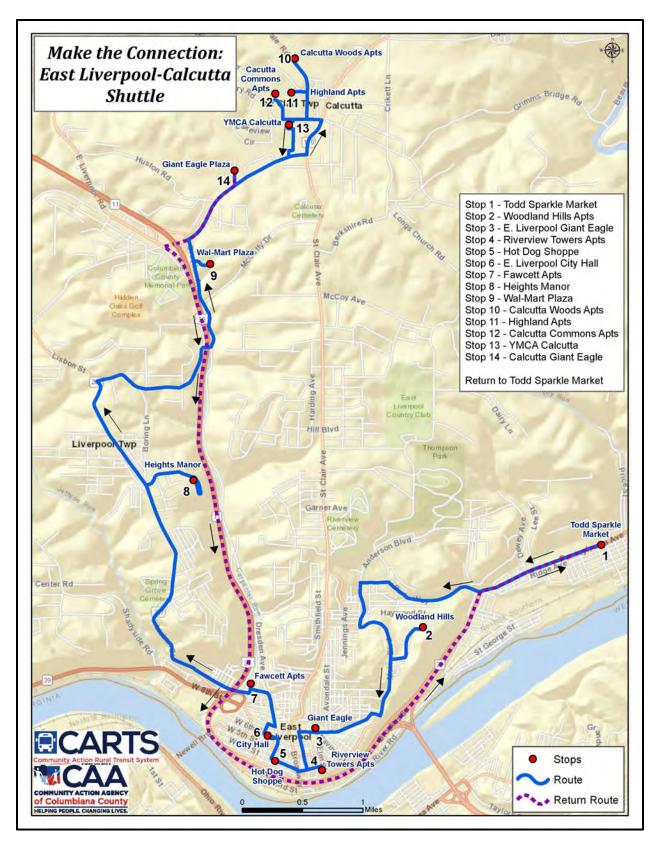

The lines map can quite literally help to connect the destination points and help lay a basic route map from which trial and error by driving the route can help narrow down the major stops to make a route. **Map 5-3** shows how the destination points were connected with the lines map.

MAP 5-3: COLUMBIANA COUNTY'S DESTINATION POINTS & LINES ZIP CODE MAP

CAAofCC and CARTS met with SEAT in order to get a best practice approach on the route and common traps to avoid. This is another piece of evidence that coordination helps a region grow and flourish by having an experienced transit agency help another one that is 100 miles away by helping to establish and grow its service within the region. This pilot can also help any other transit or transportation service provider apply the same mechanisms if they wish to begin and run a deviated fixed route in their service area.

From the beginning, there were 20 locations that drew interest to map for the route shuttle. After trial and error, the amount of stops for the route dropped to 13. Also, in order to be in compliance with ADA regulations, the entire route had to be kept no longer than 90 minutes in total, including any deviation. The deviated fixed route goes from Stop 1 through Stop 13 with a return route to begin at Stop 1. They planned to keep each stop between 4-5 minutes in case there are any deviations and in order to meet ADA compliance.

Map 5-4: Columbiana County's Make-the-Connection Fixed Route Map

Success Stories Narratives from Regional Coordination Efforts

More evidence that proves how beneficial coordination of transportation throughout the region has been recorded in anecdotal success stories from all parts of the region. These success stories narratives are located in **Appendix K.** Here is just a summary from each of those success stories from when this pilot program started.

COMMISSIONERS PROMOTE PUBLIC TRANSPORTATION IN TUSCARAWAS COUNTY

The goal was to increase public awareness by transporting the commissioners from the County Courthouse to the Tuscarawas County Senior Center for a lunch with public transportation officials. This was a good example that public transportation is available to anyone in the public regardless of demographics, age, or income. Public transportation has the ability to help anyone in need of transportation to and from work, for medical appointments, and any other conditions even if an individual is unable to afford trips. The effort between the transportation providers of Horizons, SEA Inc., and the Senior Center to coordinate together to help those in need of transportation is a strong example of successful coordination.

PUBLIC TRANSIT AND COMMUNITY HEALTH – MUSKINGUM COUNTY

A Lean Six Sigma project that includes data to demonstrate the increase in rides and mobility as well as effectiveness of improving transportation to health appointments by coordination was coordinated by the Muskingum Valley Educational Service Center. There had been an ongoing problem that 16% of no-shows and same day cancellations were because of a lack of transportation to health appointments. The goal was to reduce no-shows and same day cancellations from the lack of transportation by 50% in six months. SEAT using CTS technology was able to contribute to schedule and coordinate same day trips utilizing fixed routes and demand response. Using data, technology, and collaboration, of the 90 patients that participated in the pilot, no-shows and cancellations were decreased by 71%. This is a good example that can be used throughout the region to help solve common issues.

CROSS COUNTY TRANSPORTATION SERVICE

On June 18, 2019, both Mobility Managers from Coshocton County and Tuscarawas county were able to help a man travel 34 miles across the Tuscarawas-Coshocton County border to pick up his car from a repair shop. Horizons picked up the man in Uhrichsville and dropped him off at a Park & Ride at the intersection of US-36 and SR 751. He was then picked up by Coshocton County Coordinated Transportation to finish the trip for him to get to his destination and pick up his car. His original quote from a different transportation service provider was $150, this coordinated trip cost him only $29.12 giving him a total savings of $120.88.

REGIONAL NETWORKING TO SCHEDULE AN OUT-OF-REGION TRIP

On May 16, 2019, a woman approached the OMEGA Transit Planner at the public workshop and senior wellness event at the Tuscarawas Senior Center. At the event, OMEGA was handing out public surveys and recording unmet needs and gaps from the public for transportation service. After completing a survey and recording a comment, the woman asked the Transit Planner if he knew of any transportation service to and from the Akron/Canton Airport for November 2019. The Transit Planner shared with her the contact information of the Mobility Manager for Tuscarawas County in order for her to schedule her

transportation for her trip. This is important since it is one leg of not only an out-of-region trip but since she is flying out it connects her to an out-of-state trip as well.

MULTI-MODAL TRANSPORTATION OUT-OF-REGION TRIP

In May 2019, a gentleman had a request for transportation service for June 20th. He was scheduled to fly his small airplane into Harrison County for painting repairs and needs to return home to Dayton afterwards. He originally was going to catch a Greyhound bus out of the Wheeling area. However, when he was put in contact with the Mobility Manager, he was rerouted to connect with the Greyhound bus out of Zanesville saving on the distance needed to return to Dayton. The total cost of the coordinated trip was $26 plus the cost of the Greyhound ticket. This is evidence of the flexibility of service for mobility options within the region as well as saving time and money on an overall out-of-region trip.

CROSS COUNTY MOBILITY SERVICE FOR LOW INCOME VICTIM OF DOMESTIC VIOLENCE

On July 27, 2019, a social worker from the Trinity Twin City Hospital in Dennison called about a young man in the ER due to domestic violence needed to go to a domestic shelter in Carrolton but had no money for transportation. The Mobility Manager called all providers in Tuscarawas County to see if there was any available transportation, but nothing was available. The Mobility Manager called Carroll County Transit and scheduled a pick-up in Uhrichsville for $8.50 to take him to the shelter. The Mobility Manager had funds in their Santa Fund and was able to provide a ride for him, another good example of agencies working together across county lines to provide transportation solutions.

TRANSIT REDESIGN JOB BUFFER

In June 2019, SEAT in Muskingum County went through a fixed route redesign for their service in Zanesville. They mapped out all the jobs available within a ½ mile from the fixed route line. This serves as a great resource, one that can be replicated throughout the region, as to show job availability and reliable transportation for employees to use to get to work. The ongoing issue of job applicants needing reliable transportation in order to be hired for a job can be helped by knowing information like this.

CROSS COUNTY PUBLIC TRANSIT AGENCY EMPLOYMENT TRANSPORTATION COORDINATION

On June 20, 2019, the Mobility Manager from Tuscarawas County scheduled a short-term trip between Horizons Rural Public Transportation and Harrison County Rural Transit for a 69-year-old woman for work at Harcatus. Her work transportation route is from Dennison to Cadiz 4 days a week. Until she can secure her own person vehicle, Horizons will pick her up in Dennison and transport her to a Park & Ride at US-250 and SR 151 while Harrison County will pick her up there and finish the ride by taking her to Cadiz. The same trip will work in reverse for her return trip home. Horizons and Harrison working together shows coordination can work across county lines.

OUT-OF-REGION & OUT-OF-STATE TRANSIT SERVICE

In December 2018, Steel Valley Regional Transit Authority (SVRTA) began a roundtrip service from Steubenville, OH to Robinson, PA that costs $5 each way. The route connects to stops from beginning at SVRTA, to Eastern Gateway Community College, Weirton Medical Center, Giant Eagle at Settler's Ridge, and the mall in Robinson. The expansion of service is a great accomplishment for the region because it can help support employment, medical, educational, commercial, and recreational trips all on one transit line that travels out-of-region and out-of-state. From December 2018 to April 2019 the line

*SEE **APPENDIX K** FOR ALL SUCCESS STORY NARRATIVES FROM COORDINATED TRANSPORTATION*

served 444 passengers with 54 of them on Saturdays. This is a good example of a transit service that helps support trips for the public that makes many out-of-region trips for the services they may seek.

MID-OHIO MOBILITY SOLUTIONS, REGIONAL CALL CENTER, SUCCESS STORIES

Since the inception of the regional call center in July 2019, there have been many anecdotes as to how the public has utilized this service in order to find solutions to their mobility issues. Here is just a handful of summaries of those stories.

1. A woman had been visiting her husband 3 times a week at a nursing home in Muskingum County for only $12 a week by SEAT. For an unknown reason, her husband had been transferred to a nursing home in Morgan County and she wanted to continue to visit him. SEAT and Morgan County Public Transit worked on a standing order together in order to provide her continual service by utilizing the call center. Morgan County worked out a reduced fare for her as well as SEAT, after waving some fees, gave her a reduced rate for her trips. The plan was for SEAT to pick her up at her residence and drop her off at the Morgan County line where Morgan County Public transit would pick her up and take her to the nursing home and in reverse for her return trips. Her cost is slightly more than her original trips but at a reasonable cost for using both services at $16 a week for 2 out-of-county round trips. She was very happy with the plan and that she can continue to visit her husband. This is a great example of two different transit agencies working together across county lines to better serve the public.
2. A man was released from prison and had a prepaid ticket for Greyhound and $50 credit for a cab. His trip was to take him from Portsmouth, OH to northern Kentucky and from there take a cab to a homeless shelter. The Greyhound bus didn't show up and he was at risk of losing his bed in the homeless shelter. The call center worked with SEAT and researched the events to discover that it was at no fault to the passenger. SEAT covered the cost of a new Greyhound ticket, wrote a letter defending the man and the call center contacted the correctional facility in Belmont County about the cab fare and he was able to make his destination and keep his bed.
3. A woman was sent to the call center from Genesis of Cambridge. She was going to be receiving treatment in Columbus at the cancer center and she was not eligible for Medicaid or public assistance. The Call Center found the cheapest option was SEAT with a round trip ticket that cost $190.00 for four appointments. The Call Center also communicated with the Cancer Coalition for funding options. The Call Center connected her with them, and they were able to fund all the transportation costs for every appointment. SEAT transported her to and from her appointments. This solution eased personal stress.
4. A SEAT passenger was brought to the call centers attention from People to People Counseling for an issue he has in a new apartment complex he resides that has no wheelchair access. Due to safety concerns for both the man and the SEAT driver moving him up and down the stairs, a better and safer solution was needed. The call center discovered that he had a portable wheelchair ramp at his previous residence but required a few people to transport it. The call center started contacted Zemba Brothers who were eager to help and jumped on the opportunity. All the necessary information was given, and they helped relocate the ramp to his new apartment helping make life much easier and give him the quality of life he deserves. A person with disabilities deserves solutions the call center can provide.

VI. Plan Adoption

The OMEGA Regional Coordinated Public Transit/Human Services Transportation Plan planning process:

- The Regional Coordinated Planning process began in January 2018.
- All 10 counties needed a local plan in order to develop the regional plan, only 5 had plans.
- A Regional Coordinated Council was developed and established in April 2018 which consisted of representatives from public transit, human services transportation providers, contracted human services agencies (Senior Services, Board of Developmental Disabilities, Jobs & Family Services).
- A SWOT (Strengths, Weaknesses, Opportunities, and Threats) Analysis was created in the very first meeting.

IMAGE 6-1: REGIONAL COORDINATED COUNCIL INAUGURAL MEETING, APRIL 2018
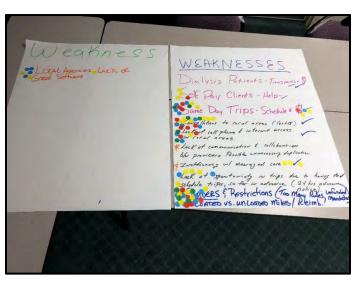

IMAGE 6-2: REGIONAL COORDINATED COUNCIL INAUGURAL MEETING – SWOT ANALYSIS DRAFTING

- The second Regional Coordinated Council meeting was in September 2018 and Origin – Destination Data that was mapped was shared with the stakeholders who participated.
- The Regional Public Survey was edited and drafted by the council after comments and discussion.
- The Regional Public Survey was finalized and distributed, both electronically and on paper, to the public and providers in January 2019 and remained open until the end of July 2019.
- The third Regional Coordinated Council meeting was in January 2019 and a determination was made on the final template for the Regional Coordinated Plan.

- The Transportation Service Provider Information Tables were distributed and shared on thumb drives, emails, and on paper copies to all participating Transportation Service Providers as well as each county's lead agency to distribute to non-participating providers and were given a deadline in August 2019.
- There were two Regional Coordinated Council conference calls, one in February and one in March, to update the Regional Coordinated Council on the updates to the plan, discuss planning issues and strategies, and to offer assistance with any information requested for submittal.
- During the Conference Call in March, the Public Survey Flyer with the online survey link was shared with the council to distribute at their will and a discussion regarding public workshop dates, times, and locations was held.
- The fourth Regional Coordinated Council meeting was in April 2019, sharing the confirmation of the Public Workshop locations and dates, the pilot projects for the regional call center (Mid-Ohio Mobility Solutions) was presented and scheduled to begin July 1, 2019, and the Regional Coordinated Council determined an initial draft to the Goals and Strategies for the plan, and a request for Success Stories in regional coordination was communicated to the council.
- Also, in this meeting, an Account Executive from CTS Software called in and offered the region a temporary access to the CTS Software by using it as a regional portal to schedule overbooked trips for free. The goal was to reduce overall trip denials, coincided with the call center, and will be available through the pilot plan.
- Discussions and drafts were made to a Memorandum of Understanding (MOU) for participation with the regional plan and a Business Associates Agreement (BAA) for TSPs to use the CTS Software Portal.
- There were three Regional Coordinated conference calls, May, June, and July 2019. During this time, Public Survey data was shared and analyzed as well as Public Unmet Needs and Gaps were shared, and a final determination was made for the regional coordinated plan Goals & Strategies section.
- During these conference calls, information was shared from the plan updates, MOU and BAA drafts were shared, maps were finalized and approved by the council, a Regional Coordinated Planning Committee was organized and shared information from the initial meeting such as the billing discussion, an idea for a universal traveler's card, and coordinating a JFS meeting by the end of May.
- In the June conference call, public survey data updates were shared, unmet needs and gaps from the public workshops were shared to the council, last call request for Transportation Service Provider Information tables was communicated and to be due no later than the end of August, and a call for project submittals for 5310/5311 in the region was communicated and a form was distributed to the council and due by the end of July.
- In July 2019, two pilots began for implementation of the plan, the regional call center (Mid-Ohio Mobility Solutions) and the Columbiana County Deviated Fixed Route (Make-the-Connection) both began July 1st.
- The July conference call was a recap of all previous information and requests made before, deadline reminders for TSP Information Tables, Project Form Submittals, and 2018 Origin-Destination Data to be submitted by the end of August, a more in depth analysis of 2017 Origin-Destination Data was shared with the council comparing trip counts by providers within buffers to the major highways.

- The fifth Regional Coordinated Council Meeting was in August 2019 and structured as an interactive workshop, confirmation on the MOU and the BAA was made after the comment period closed, the final public survey results were shared, a summary of the public unmet needs ranked was shared and approved by the council; the workshop exercise was to determine which Transportation Service Providers would lead or support goal implementations during the implementation phase and whether or not they had any more projects to submit, a flyer was shared for the Mid-Ohio Mobility Solutions Open House on September 9th.
- The Regional Coordinated Council conference call in September was to update on the plan schedule and to remind the Transportation Service Providers on the council if they wish they can sign the BAA for the CTS Software Portal to use voluntarily.
- By September 30, 2019, the draft plan was submitted to ODOT and to the Regional Coordinated Council.
- The Regional Coordinated Council conference call in October was to remind the council when comments were due by, October 31st. The implementation schedule draft began to address priority and lead and supporting agencies roles, Regional Coordinated Council review and comments through October. The Regional Coordinated Council comments were used to edit and update the draft plan.
- The draft plan was made available to the public on October 15th for a one month and a half review and comment period. It was made available to the public to access the plan online from the website shared by the entire council to the public they serve, by paper made available in the public libraries in each county seat, and by public notices in the media. The public could share comments online, by phone, or by mail or email.
- The Regional Coordinated Plan was developed with inclusion from older adults, individuals with a disability, members of the general public, and representatives from public and nonprofit transportation and human services providers.
- The Regional Coordinated Plan will be distributed to the Regional Coordinated Council at the last stakeholders meeting November 22, 2019 which was open to the public.
- Any minor detail changes will be discussed during the last stakeholder meeting.
- The plan, survey, and survey results were posted to OMEGA's website on the appropriate Regional Coordinated Plan page.
- There was an eight-day period from the last stakeholder meeting for the final comments to be submitted from the public, November 22nd – November 30th.
- All comments from public, stakeholder, and board members have been executed in the plan and recorded in **Appendix O.**
- After the last stakeholder meeting, the plan will be finalized and sent to the OMEGA Executive Board, representing all county commissioners, for their approval and adoption, scheduled for Tuesday, December 10, 2019.
- The Final Regional Coordinated Transportation Plan, signed and adopted by the OMEGA Executive Board and the Regional Coordinated Council, was sent to ODOT's Office of Transit by December 31, 2019.

Appendix A:

List of Regional Coordinated Council Participants

The Regional Coordinated Council consists of representation from local agencies as well as participation of individuals with disabilities, older adults, and members of the general public. More information about the Regional Coordinated Council is available upon request by contacting

Agency Representation

Name	Agency
Jeannette Wierzbicki	OMEGA
Kevin Buettner	OMEGA
Lisa Duvall	OMEGA

ssammon@omegadistrict.org

Annual Review – December 2020

This is the initial Regional Coordinated Plan for the OMEGA Region. No annual reviews have yet occurred. Following the plan approval, the process for reviewing the plan annually will occur as follows:

- Update all demographic data and maps to match the present demographic data
- Update all transportation service provider information
    - Regional Transportation Service Provider List
    - Existing Transportation Services
        - Mobility Managers
        - TSP Details
    - Inventory of Available Transportation Service Providers
    - Analysis of Regional Transportation Service Providers
        - Assessment of Community Support for Transit
        - Safety
        - Vehicles
            - Mileage
            - Age
            - Condition
        - Origin – Destination Annual Analysis
- Reassess All Transportation Unmet Needs & Gaps and Challenges
- Host at least four stakeholder meetings and one public meeting
- Survey the public on existing transportation services
- Determine any new unmet mobility needs
    - Also assess if any in the past have been met or the status
- Reevaluate the Goals and Strategies from the general public and the transportation service providers
    - Update the Success Stories of Regional Coordination from Transportation Service Providers

Amendment - *TBD*

This is the initial Regional Coordinated Plan for the OMEGA Region. If the plan is amended, the information on how it has been amended will be included here.

Appendix C:

Definitions

There are several terms used throughout the plan that may be unique to transportation providers or human service agencies. The terms are defined here for reference.

Coordination – Collaborative efforts toward understanding and meeting the mobility needs in the most appropriate, cost effective, and responsive manner.

FAST Act – Congress established the funding for Federal Transit Administration programs through authorizing legislation that amends Chapter 53 of Title 49 of the U.S. Code. On December 4, 2015, President Obama signed the Fixing America's Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020.

Gaps in Service – A break in the continuity of available transportation resources such as a break between hours of operation or a break between two or more geographic areas.

Lead Agency – The organization responsible for facilitating outreach; composing a plan that meets the requirements of current Federal and State legislation; maintaining documentation from the planning process and making it available upon request; and leading stakeholders through annual reviews, amendments, and updates of the plan. The Lead Agency also is responsible for submitting the adopted Coordinated Plan and all amendments or updates to participating stakeholders and ODOT.

Mobility Management – Defined under the Ohio Mobility Management Program. The Ohio Mobility Management Program increases access to mobility for Ohioans by increasing understanding and awareness of transportation needs, coordination of transportation options to meet needs, and building sustainable and healthy communities by integrating transportation into planning and programs.

NEMT – Non-Emergency Medical Transportation, any transportation service for medical reasons that do not include emergency medical purposes.

NMT – Non-Medical Transportation; Non-medical transportation is transportation that is used by waiver enrollees solely to access adult day support, vocational habilitation, supported employment enclave, and/or supported employment community services, as specified by their individual service plans (ISP). 5123:2-9-18 (B)(9)

Origin – Destination Data – This is trip data that Transportation Service Providers and Human Service Agencies provide for each one-way trip when a client from the public is picked-up at their origin and dropped off to their destination, this data is then mapped.

Planning Committee – (*Regional Coordination Council)* The Planning Committee is composed of key community stakeholders. The Planning Committee members agree to actively participate in the planning process and act as the plan advisory and adopting entity.

Ridership – The total number of passengers who boarded transportation vehicles are counted each time they board a vehicle.

Section 5310 Program – Enhanced Mobility of Seniors & Individuals with Disabilities (49 U.S.C. 5310) provides Federal formula funding for the purpose of assisting private nonprofit groups in meeting the transportation needs of older adults and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. The program aims to

improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options.

Section 5311 Program – The Formula Grants for Rural Areas program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000 where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Subrecipients may include state or local government authorities, nonprofit organizations, and operators of public transportation or intercity bus service.

Section 5307 Program – The Urbanized Area Formula Grants program (49 U.S.C. 5307) makes federal resources available to urbanized areas and to governors for transit capital and operating assistance in urbanized areas and for transportation-related planning. An urbanized area is an incorporated area with a population of 50,000 or more.

Transportation – Transportation is broadly defined to include traditional transit, human service agency services, on-demand (taxi-like) services, bicycle and pedestrian programs and amenities.

Transportation Service Provider – Any transportation agency or human service agency that directly provides transportation for any reason to a client, patient, or anyone from the public.

Unmet Transportation Needs – Transportation that is wanted or desired but is not currently available.

Appendix D:

Data Definitions for Assessment of Available Services Tables

This appendix contains instructions for providing data points in select tables in the Assessment of Available Services.

<u>Organizational Characteristics</u>

- Directly Operates Transportation
    - "Yes" if the agency owns vehicles and employs staff or uses volunteers who drive the vehicles. "No" if the agency contracts with an outside provider for transportation or provides funding for transportation in some other way.
- Purchases Transportation from Another Agency
    - "Yes" if the agency purchases transportation service from a third party. Some examples:
        - A transit authority contracts with a private company to run paratransit service
        - A sheltered workshop contracts with a rural transit agency to operate routes to bring clients from their homes to the workshop
- Legal Authority
- Are Vehicles Only Available for Human Service Agency Clients
    - "Yes" if transportation is provided only to clients participating in programs offered by the agency (for example, a sheltered workshop offers a bus service to take from their homes to the workshop)
    - "No" if transportation is provided to the general public in the area, or to a whole segment of the public (for example, any senior citizen aged 60 years or older)

<u>Transportation Service Characteristics</u>

- Program Name
    - This is for an agency has multiple transportation programs which have their own staff and expenses attributed to them. For small agencies, Program Name would be N/A.
    - If there <u>are</u> multiple programs, the agency should divide out the data in this table by program.
- Mode of Service
    - "Demand Response" if the transportation is origin to destination, meaning that the driver picks the rider up at their origin and takes them to their destination. For example, shared ride and taxi services are Demand Response.
    - "Fixed Route" if the transportation is on a fixed schedule and open to the public, such as a bus route with an advertised schedule.
    - "Flexible Route" or "Deviated Route" is the transportation is on a fixed schedule and open to the public, and also allows for riders to request a deviation from the route to be picked up or dropped off at an off-route location.
    - NOTE: A human service agency may order a group of routine client pick-ups into a "route", but this is not a Fixed Route or Flexible Route as the route is prescheduled for the clients.
- Days and Hours of Operation
    - The days and times that the transportation service is available to riders.
- Primary Funding Source
    - The major source of funding for the transportation program.
- Primary Funding Source of Match Funds (if applicable)

- o The source of match funds for the program's major source of funding, where applicable. For programs that are not funded by federal matching grants, enter N/A.
- Customer Eligibility Requirements
  - o Examples: general public, seniors aged 60 years and older, Medicaid beneficiaries, agency clients, etc.
- Service Area
  - o The geographic area where the program provides transportation.

Training Courses for Drivers

"Yes" if each training is offered by the agency for each program:

- Passenger Assistance
  - o Typically includes disability awareness, working with accessibility equipment such as wheelchairs, and passenger relations
- Defensive Driving
- Bloodborne Pathogens
- Drug and Alcohol Awareness
  - o 49 CFR Part 655 provides federal requirements for public transit operator training on drug use awareness and alcohol misuse. ODOT can provide training resources for agencies.
- Emergency Procedures/Evacuation
- Vehicle Pre-Trip/Post-Trip Inspection
- Consumer Rights/HIPAA
- First Aid and CPR

The next three items concern the agency's requirement for frequency of training.

- All Training Required for New Employees (Yes/No)
- Refresher Training Required for All Training (Yes/No)
- Refresher Training Required for Some Training (Yes/No) (List Required Refresher Training)

Transportation-Related Staff Positions

Provide the number of transportation staff – by program, if applicable. If a full-time staff member devotes part of their activities to a transportation program, count as a part-time position.

- Number of Full-time Administration Positions
- Number of Part-time Administration Positions
- Number of Full-time Drivers
- Number of Part-time Drivers
- Number of Full-time Schedulers/Dispatchers
- Number of Part-time Schedulers/Dispatchers
- Number of Full-time Maintenance Positions
- Number of Part-time Maintenance Positions

Transportation-Related Expenses and Revenues

All data should for the agency's most recent fiscal year.

- Program Name (may be N/A)

- o If there <u>are</u> multiple programs, agency should divide out the data in this table by program.
- Fare Structure
  - o Briefly list out the fares that passengers pay to use the service, if any.
- Donations Accepted (Yes/No)
  - o "Yes" if the program allows some (or all) passengers to give a donation rather than pay a fare.
- Transportation Operating Expenses (most recent fiscal year)
  - o The total funds expended to operate the program. For example, wages, fringe benefits, fuel, insurance, maintenance, etc.
- Transportation Operating Revenue (most recent fiscal year)
  - o The total amount of revenue received for operations.
- Transportation Operating Revenue Sources (most recent fiscal year)
  - o For example, federal grants, state transportation funds, county general fund, foundation grants, fundraisers, United Way funding, etc.
- Transportation Capital Expenses (most recent fiscal year)
  - o The total funds expended to acquire capital items for the program. For example, vehicles, computer equipment, scheduling software, etc.
- Transportation Capital Revenue (most recent fiscal year)
  - o The total funds received for the purpose of acquiring capital items for the program.
- Transportation Capital Revenue Sources (most recent fiscal year)
  - o For example, federal grants, state transportation funds, county general fund, foundation grants, fundraisers, United Way funding, etc.

Transportation Service Statistics

All data should be for the agency's most recent fiscal year.

- Revenue Hours of Service
  - o The time when a vehicle is in operation and there is an expectation of carrying passengers. A service that provides rides between 8:00 AM and 4:00 PM will typically provide up to eight hours of revenue service on each vehicle per day. Hours used for purposes other than carrying passengers – for example, a driver break or the time in transit from the vehicle's base to the first passenger pick-up – is not counted as revenue time.
- Total Hours of Service
  - o The total hours a vehicle is in operation, including "deadhead" hours, such as the hours a vehicle is traveling from the base of operations to the first passenger pick-up.
- Revenue Vehicle Miles
  - o The miles when a vehicle is in operation and there is an expectation of carrying passengers.
- Total Vehicle Miles
  - o All miles on the agency's fleet, including deadhead miles and other miles travelled for purposes other than carrying passenger.
- Number of Annual One-Way Passenger Trips

- o A "one-way passenger trip" = one passenger making a one-way trip from origin to destination. For example, taking one individual from their home to their destination. A typical round trip = two one-way passenger trips.
  - o On fixed route transit, one-way passenger trips are typically calculated by counting each time one person boards the vehicle.
- Denials of One-Way Passenger Trips
  - o A trip denial is a request for a demand-response trip that the agency turns down due to capacity constraints.
    - ▪ Turning down a request for a ride that would not have been provided is not a denial. For example, if the agency's hours of operation are 8:00 AM to 6:00 PM, a request for a 7:00 PM pick-up is not counted as a trip denial. The same reasoning applies when turning down a request for a ride to a destination outside of the agency's service area. If the agency doesn't provide out-of-county rides, turning down a request to take someone out-of-county is not a trip denial.
    - ▪ Typically, trip denials occur when the agency receives trip requests after the schedules are full.
  - o Public transit agencies typically track all trip denials for demand-response services. Human service transportation agencies who do not track denials in the same manner should provide a reasonable estimate of denials per the above definition.

Vehicle Maintenance and Safety

- Vehicle Preventive Maintenance Plan
  - o "Yes" if the agency has a written document that explains what preventive maintenance tasks are performed at specified intervals.
- Vehicle ADA Equipment Preventive Maintenance Plan
  - o "Yes" if the agency has a written document that explains what preventive maintenance tasks are performed on ADA equipment (wheelchair lifts and ramps) at specified intervals.
- Pre-trip Vehicle Inspection Required
  - o "Yes" if the agency requires a documented inspection of a vehicle directly before it is used to provide transportation.
- Post-trip Vehicle Inspection Required
  - o "Yes" if the agency requires a documented inspection of a vehicle immediately following its use to provide transportation.
- Pre-Trip ADA Accessibility Equipment Test Required
  - o "Yes" if the agency requires a documented testing of the ADA equipment (i.e. cycling the wheelchair lift or ramp) directly before it the vehicle is used to provide transportation.
- On-Board Communications Equipment
  - o "Yes" if the driver utilizes a radio or phone to communicate with dispatch.
- On-Board Safety Equipment
  - o "Yes" if the following equipment is required on the vehicle during revenue service:
    - ▪ Fire extinguisher
    - ▪ Accident triangles
    - ▪ Biohazard kit

- First aid kit
- Web cutter
- 4-Point Restraint System for 3- and 4-Wheeled Mobility Devices
  - "Yes" if the agency requires the use of a four-point restraint system to secure wheeled mobility devices within the vehicle.

Drug & Alcohol Testing

- Pre-Employment Testing
  - "Yes" if the agency requires new hires to submit to a drug test prior to employment
- Random Testing
  - "Yes" if the agency randomly tests drivers and other safety-sensitive employees to drug and alcohol tests
- Post-Accident Testing
  - "Yes" if the agency requires drivers and other safety-sensitive employees to submit to drug and alcohol tests after vehicle accidents that meet pre-determined criteria for severity
- Reasonable Suspicion Testing
  - "Yes" if the agency requires drivers and other safety-sensitive employees to submit to drug and alcohol testing if a supervisor suspects alcohol or drug misuse

Criminal Background and Motor Vehicle Records Checks

- New Employee Criminal History Check
  - "Yes" if the agency conducts criminal history checks of new hires prior to employment
- Periodic Current Employee Criminal History Check
  - "Yes" if the agency conducts periodic criminal history checks of employees
- New Employee Driver's License Record Check
  - "Yes" if the agency conducts driver's license record checks of new hires prior to employment
- Periodic Current Employee Driver's License Record Check
  - "Yes" if the agency conducts periodic driver's license record checks of employees
- New Employee Sex Offender Database Check
  - "Yes" if the agency conducts sex offender registry checks of new hires prior to employment
- Periodic Current Employee Sex Offender Database Check
  - "Yes" if the agency conducts periodic sex offender registry checks of employees
- New Employee Abuse Registry Check
  - "Yes" if the agency conducts abuse registry checks of new hires prior to employment
- Periodic Current Employee Abuse Registry Check
  - "Yes" if the agency conducts periodic abuse registry checks of employees
- New Employee System of Award Management (SAM) Registry Check (if applicable)
  - "Yes" if the agency conducts SAM registry checks of new hires prior to employment
- Periodic Current Employee System of Award Management (SAM) Registry Check (if applicable)
  - "Yes" if the agency conducts periodic SAM registry checks of employees

Appendix E:

Transportation Service Provider Information Tables 1 - 13

The table below provides a summary of the characteristics of the participating transportation providers and organizations that purchase transportation on behalf of consumers.

Table 1: Organizational Characteristics

Agency Name	Directly Operates Transportation (Yes/No)	Purchases Transportation from Another Agency (if Yes, Who?)	Legal Authority (Private Non-Profit, Private For-Profit, Public Non-Profit,)	Are Vehicles Only Available for Human Service Agency Clients (Y/N) *
BELMONT COUNTY				
National Church Residences	Yes	No	Public Not-for-profit	No
SSOBC	Yes	No	Public Nonprofit	No
Belmont County JFS	No	Yes	Government Entity Public Agency	Yes
EORTA/OVRTA	Yes	No	Public – RTA under the Ohio Revised Code	No
Neffs Fire Department	Yes	No	Private Nonprofit	No
Martins Ferry EMS	Yes	Yes, BCDJFS	Public Nonprofit	No
CARROLL COUNTY				
Carroll County Transit	Yes	No	Public – Local Government	No
CCBDD – Carroll Hills School	Yes	Yes, Carroll County Transit	Public non-profit	Yes
CCBDD – Community Employment	Yes	Yes, Carroll County Transit	Public non-profit	No
Carroll Co JFS	No	Yes, Carroll County Transit	Public non-profit	Yes
Carroll County Council on Aging, Inc.	No	Yes, Carroll County Transit	Non-Profit Senior Center	No
COLUMBIANA COUNTY				
For this information, please refer to Columbiana County's coordinated plan, you can access it here: https://omegadistrict.org/programs/transit/plans/columbiana/

SEA	Yes	No	Private Non-Profit	No
Horizons Rural Public Transit	Yes	No	Non-Profit	No
Tusc County JFS	Yes	Yes SEA/Horizon	County Agency	Yes
CMH	Yes	No	Non-Profit	Yes

* Answering "Yes" indicates that your agency is closed door. Your agency is considered closed door if you ONLY provide transportation to your facility as a courtesy or if you ONLY serve a particular clientele that are enrolled in your agency programs (i.e. members of a sheltered workshop, or residents in a nursing home). Answering "No" indicates that your agency is open door. This means the service is open to the public or a segment of the general public defined by age, disability, or low income. For example, if an agency provides general transportation for anyone in the community who is over the age of 60, they are considered "open door". For example, an individual who is 60 or over can request transportation to a doctor's appointment or the grocery store regardless of their affiliation with your agency.

The following table depicts the transportation service characteristics by agency.

Table 2: Transportation Service Characteristics

Agency Name	Program Name	Mode of Service	Days & Hours of Operation	Provides Medicaid-Eligible Trips (Y/N)	Primary Funding Source	Primary Source of Match Funds (if applicable)	Level of Passenger Assistance Provided	Customer Eligibility Requirements	Service Area
				BELMONT COUNTY					
National Church Residences	Transportation	On Demand	24/7	Y	Medicaid NET- via JFS	Donations	Door to door, Wheelchair accessible	NA/	Belmont Co. OH, Ohio, Marshall, Wetzel Co. WV
SSOBC	NEMT	On Demand	M thru F 7:30a – 4:00p Additional Hrs for Dialysis Clients	N	Property Tax Levy		Door to Door	60 yrs or older Resident of Belmont County	Belmont County
Belmont County JFS		Ambulette, Taxi, Car	8:30 a.m.-4:30 p.m.	Yes			Curb to Curb/Door to Door	Medicaid Eligible	Belmont County

Appendix G.

Origin-Destination Process

1. Save excel file as a csv in Transitplans>O_D> "File Folder"
2. Open up excel to table conversion tool
    a. Search>excel to table
3. For input excel file
    a. Add excel file from tansitplans>O_D> "file folder"
4. For output table
    a. Save in a designated folder or leave as is, it will automatically save in a default folder
5. Click ok
6. New table will be in the table of contents under source
7. Right click table and open to confirm that table is correct
8. Right click table in the TOC
    a. Scroll to Data>export
    b. Click export
9. In output table click the folder to the right to save database file to the correct folder in transit plans
    a. Save as type
    b. Needs to be changed to dBase table
    c. Also change that name to corrisponding transit name
10. Click save
11. Then ok

12. Click yes to add new table to current map
13. Add zipmasterfileD.dbf and ZipmasterfileO.dbf from transitplans>O_D>zip folder to the TOC
14. Join the Database file in TOC to ZIPmasterfileO and then ZIPmasterfileD based on the zipcode
    a. This will give you the lat and long of the origin and also destination
    b. Might be a good idea to export the joined table as a .dbf so it is saved in the file folder for future use.

c.

d.

15. Next open up the XY To Line (Data Management) tool
    a. TIP: use the seach bar.
16. Input the joined table
    a. Output feature class should be saved to destination folder. It will be a shapefile of all the trip lines.
    b. Start X Field
        i. O_LNG
    c. Start Y Field
        i. O_LAT
    d. END X FIELD
        i. D_LNG
    e. END Y Field
        i. D_LAT
    f. Line type can stay GEODESIC
    g. ID can stay blank (unless there is a TRIP_COUNT field, in which case, add that here)
    h.

    i.
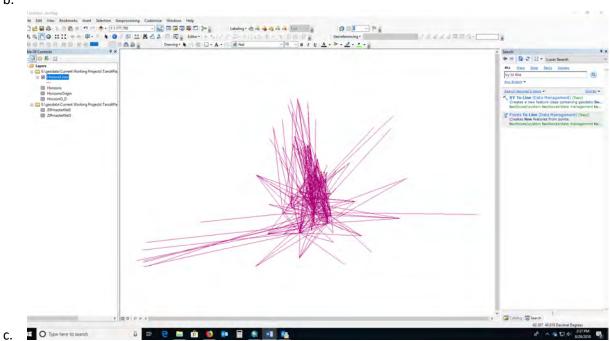

17. Click ok

18.

    a. You now have a line shape file

    b.

    c.

19. Open table for the new line shapefile from the TOC

    a. Add a field from the drop down menu in table options (skip this part if you have TRIP_COUNT field)

    b.

c.
d. Label this new field count (skip this part if you have TRIP_COUNT field)
e. With a long integer as TYPE (skip this part if you have TRIP_COUNT field)
f. Right click the heading of the new field called count (skip this part if you have TRIP_COUNT field)
g. Click the Field Calculator (skip this part if you have TRIP_COUNT field)
h. Type "1" in the field calculator box (skip this part if you have TRIP_COUNT field)
i.

j.
k. Click ok (skip this part if you have TRIP_COUNT field)
l. You now should have 1 for every row in the count field. (skip this part if you have TRIP_COUNT field)
20. Click to add another field and label is length

a. Use double integer
b. Right click flield heading and then calculate geometry
c. Calculate miles
d.

e.
f. Note: if you can't calculate, add in the OMEGA county shapefile so that arcgis has a coordinate system in the data frame to reference (and change coordinate system of data frame to WGS 1984 Web Mercator Auxiliary Sphere if you forget to add OMEGA county shapefile first).

21. Next open up the dissolve (Data Management) Tool
22.
23. Input features of the the line shapefile
    a. Output to destination folder
24. Dissolve field "length"
25. For statistics field add in count (or TRIP_COUNT field if you have it)
    a. Statistic type is "SUM"
26. Click ok
    a. It should dissolve and add a new shapefile to the TOC

    b. This creates a new attribute table that sums each unique trip and give it one line.

27. From this point you can symbols each line depending on how you want it to look.
28.

For graduated symbols destination points (UNLESS YOU HAVE TRIP_COUNT FIELD – SEE BELOW):

1. File → Add Data → Add XY Data → Use JOINed table (O_DColumbianaCountyJOIN)
    a. X Field: D_LNG
    b. Y Field: D_LAT
    c. Change coordinate system to GCS for them to show in correct place on map
2. Export data to destination folder and remove Events layer
3. Now we have destination points
4. Run Summary Statistics (Analysis) tool on Destination Pts feature class (save to new file geodatabase in Data folder)
    a. Input Table: Destination_Pts
    b. Output Table: DestinationPts_Stats in destination folder
    c. Statistics Field: D_ZIP
        i. Statistic Type: SUM (don't really need it but we want frequency, can delete SUM field after we run tool)
        ii. Case Field: D_ZIP

       d.   May have to create & save this to geodatabase
5. Join ZIPmasterfile D to DestinationPts_Stats table based on D_ZIP and ZIP
       a.   Export as dBASE table in destination folder for later use
6. Right click on DestinationPts_JOIN and Display XY Data (D_LNG, D_LAT), changing coordinate system to GCS
7. Export as shapefile to destination folder, delete Events layer
8. Play around with graduated symbols based on FREQUENCY

IF YOU HAVE TRIP_COUNT FIELD:

1. Right click on original Joined table (OVRTA2017_JOIN) → Display XY Data
       a.   X Field: D_LNG
       b.   Y Field: D_LAT
       c.   Change coordinate system to GCS to display correctly
2. Export as shapefile to destination folder, delete Events layer
3. May have to dissolve
       a.   Dissolve field: D_ZIP
       b.   Statistics field: TRIP_COUNT
             i.   Type: SUM
4. Play around with graduated symbols based on TRIP_COUNT

TO ADD CITY NAME:

1. Join original table by zip at end, then turn off any unnecessary fields
2. Export to destination folder in order to upload online with symbology

DISSOLVE BY CITY NAME:

CHANGE BREAKS

I found a way to merge all the zip codes into one for our major cities. You will have to nest a few "Ifs" in Excel before uploading it to ArcGIS. There are a few changes you will need to make when you add them in. I have highlighted them in red and will walk you through each step below. Be sure to copy only the highlighted section and make sure you capture ALL the ending parentheses or the formula won't work.

1. Open spreadsheet.
2. After O_Zip and D_Zip add in a column. Name that column "O_Merge" or "D_Merge" as appropriate.
3. Copy the formula below into the first line under the header and press Enter
       a.   If using the standard template, the formula will work without adjustment
       b.   If not using the standard template, the formula will need an adjustment.
             i.   B2 should refer to the Origin city

      ii.   G2 should refer to the Destination city

     iii.   D2 should refer to the Origin ZIP

     iv.   I2 should refer to the Destination ZIP

4. Once you have adjusted the formula (if needed), drag this formula down to the end of the data to make sure it applies to all rows.

Origin:

=IF(B2="columbus",43215,IF(B2="Cleveland",44101,IF(B2="Canton",44701,IF(B2="Youngstown", 44405,IF(B2="Akron",44301,IF(B2="Pittsburgh",15201,D2))))))

Destination:

=IF(G2="columbus",43215,IF(G2="Cleveland",44101,IF(G2="Canton",44701,IF(G2="Youngstown", 44405,IF(G2="Akron",44301,IF(G2="Pittsburgh",15201,I2))))))

Note to add to maps

*Note: Each line denotes origin/destination data based on center of zip code area; may not reflect exact origin/destination locations.

*Note: Each dot denotes destination data placed at center of zip code area; may not reflect exact destination location.

Publishing on ArcGIS Online:

Appendix I.

Memorandum of Understanding

Introduction

The Ohio Mid-Eastern Governments Association (OMEGA) and the mobility managers, transportation service providers, transit agencies, human service agencies, and stakeholders recognize the need to collaborate, communicate, and cooperate to improve transportation services in the ten-county region. The region includes Belmont, Carroll, Columbiana, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas Counties. An efficient transportation service network is needed in order to meet the growing demands for transportation services to serve the senior and disabled populations, to provide non-emergency medical transportation, and to provide transportation services for employment and other daily life activities. Based upon demand in the region, transportation providers need to be able to work efficiently across jurisdictional boundaries.

OMEGA and the regional transportation partners worked together to develop a Regional Coordinated Public Transit/Human Services Transportation Plan. This plan, when implemented, will help better connect the regional transportation providers to populations they serve. These populations utilize the services offered by the transportation providers to access employment opportunities, medical services, basic human services, and general commercial and recreational facilities both within the region and outside the region, including out of state trips. The coordinated plan establishes a regional public transit and human services transportation network that will be accessible to residents who use these services. This Memorandum of Understanding (MOU) establishes the protocols for coordinating transportation services.

Purpose

The purpose of this MOU is to provide transportation services to more people throughout the region, especially seniors and people with disabilities, with quality service in efficient time at the lowest costs to the public and the providers. The goal is to work across jurisdictional boundaries while maintaining local capacity and to increase ridership, decrease overtime, decrease cancellations, and offer more affordable transportation to the public.

Each participating agency will continue to operate independently and this MOU will not interfere or interrupt the agency's service. This MOU will allow the local agencies to work across jurisdictional borders to coordinate transportation services for public transit and human services transportation.

Definitions

Definitions are provided in Appendices C & D of the Regional Coordinated Public Transit/Human Services Transportation Plan. Appendix C covers definitions unique to transportation service providers or human service agencies. Appendix D includes definitions for instruction for data points in select tables in the Assessment of Available Services section of the coordinated plan.

Responsibilities

By signing this agreement, each transportation agency and stakeholder agrees to participate in coordinating transportation services throughout the region. Specific responsibilities include:

1. Participate in trip coordination to include interagency transfers and providing trips for other agencies when needed at a mutually agreed upon price.
2. Provide guaranteed return trip when providing transportation for other agencies.
3. Address client needs, especially senior citizens and disabled riders.
4. Designate at least one representative or designee to participate in Regional Coordinated Council meetings and conference calls.
5. Each agency will have one vote on the Regional Coordinated Council.
6. Participate in development of uniform cost allocation program for interagency trips.
7. Participate in the development, prioritization, and implementation of transportation projects for the region.
8. Provide origin and destination data to OMEGA by April 1 for the prior calendar year.
9. Provide annual updates to transportation service provider data.
10. Participate in annual reviews and updates to the Regional Coordinated Plan.
11. Agree not to pirate trips from other agencies.
12. Agree to participate in the development of bylaws to govern the Regional Coordinated Council which will become a designated subcommittee of OMEGA. The Regional Coordinated Council will provide recommendations to the OMEGA Executive Board for formal adoption and implementation.
13. Agencies who participate in the Mid-Ohio Mobility Solutions Call Center shall abide by the terms and conditions of the Business Associate Agreement in addition to the provisions provided in this MOU.
14. Comply with the provisions of the Health Insurance Portability and Accountability Act of 1996 or its relevant regulations and amendments (HIPAA).

Responsibility for Compliance

The directors of each participating agency will be responsible for ensuring that the MOU is followed and understood, and the implementation process of the Regional Coordinated Public Transit/Human Services Transportation Plan is enacted appropriately within their local jurisdiction.

Amendments to the MOU

The terms and conditions of this MOU will be reviewed annually during the annual review and update process to the Regional Coordinated Public Transit/Human Services Transportation Plan or as deemed necessary by the lead agency, OMEGA, and the Regional Coordinated Council. Any amendments to this MOU will require formal adoption by OMEGA's Executive Board and the Regional Coordinated Council and execution by all participating agencies.

Withdrawal

Any agency may withdraw from participation in this MOU and the Regional Coordinated Council by formal action of that agency and upon providing thirty (30) days written notice to OMEGA. Such notice shall be signed by the Chief Executive Officer of that Agency.

Severability
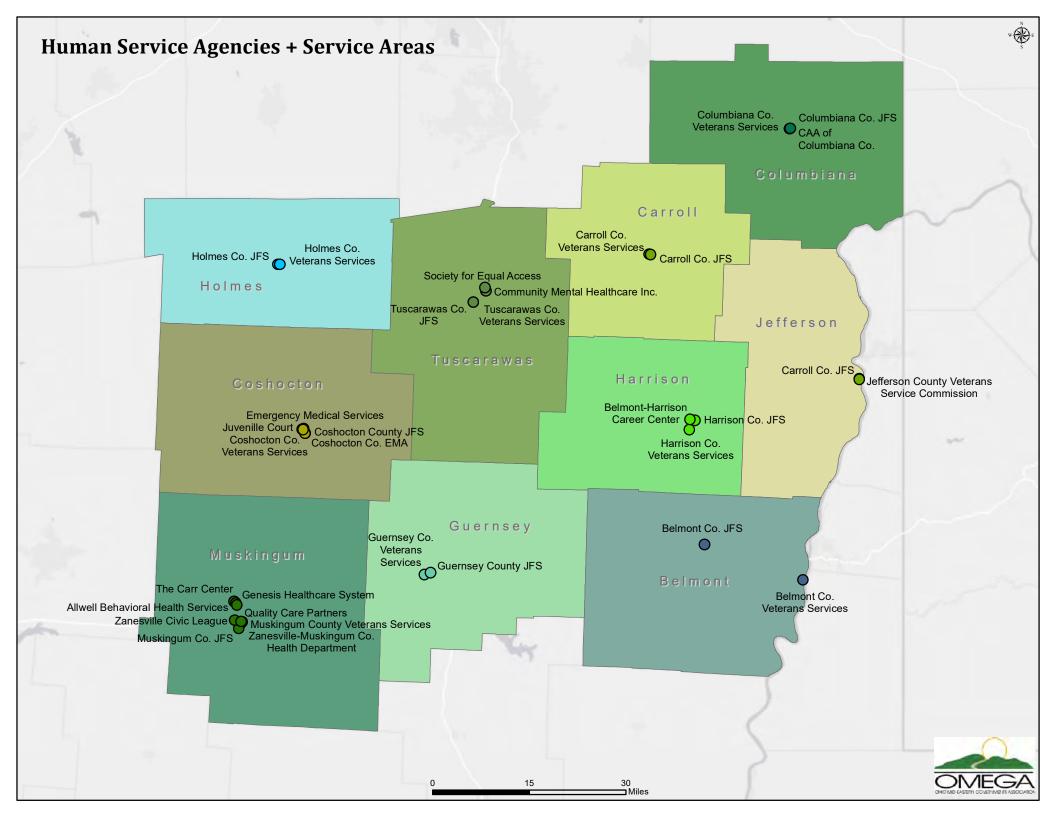

If any part or portion of this MOU is found to be contrary to law and thereby held to be null and void, all other provisions of the MOU shall remain in full force and effect and shall not be otherwise affected by any such ruling, finding or decision.

Success Stories from Coordinated Transportation

Commissioners promote public transportation in Tuscarawas County

NEW PHILADELPHIA On Wednesday morning, a white Horizons bus was waiting at the Tuscarawas County Courthouse Annex to take Commissioners Chris Abbuhl, Al Landis and Joe Sciarretti to the Tuscarawas County Senior Center in Dover.

The trip took about 10 minutes, and the three commissioners were dropped off at the door of the senior center, where they had lunch with officials who coordinate public transportation in the area.

The goal was to increase public awareness of transportation opportunities that are available to anyone living in Tuscarawas County through the Rid the Bus With Us program.

"In a nutshell, we had a fantastic visit from the courthouse to the senior citizens center where we spoke to the leadership team there," Sciarretti said.

Public transportation in Tuscarawas County is provided by the Society for Equal Access (SEA), Horizons of Tuscarawas & Carroll Counties Inc. and the Tuscarawas County Senior Center.

"It is available to anybody," said Shannon Hursey, mobility manager for Tusc Transit, which coordinates the program. "It has nothing to do with a demographic, age, income, anything like that. It was put in place because ODOT (Ohio Department of Transportation) was trying to serve the general public of our county."

Vans run from 6 a.m. to 11 p.m. Monday through Saturday and from 7 a.m. to 2 p.m. on Sundays to take residents anywhere in the county for work, doctors appointments or to church. Anyone 16 years of age or older can ride by themselves. Anyone younger than that needs an escort. The cost is $6 round trip or $4 one way. People can call 330-364-2159 to schedule a ride.

Outside Tuscarawas County, the cost is $1.70 per mile.

The program is funded by the ODOT Office of Transit.

Last year, Horizons performed 27,000 work trips and a total of 56,868 trips.

Hursey gave a couple of examples of transportation the service has provided to Tuscarawas County residents.

A 69-year-old woman who lives in Dennison and works for HARCATUS Tri-County C.A.O., Inc., is transported to Cadiz each day for her job because her car is unreliable. Horizons picks her up in Dennison and takes her to the intersection of state Route 151 and U.S. Route 250 at the park-and-ride there. Harrison County Transit picks her up there and takes her to Cadiz to work and then brings her back when she is going home.

Hursey said she pays between $7 and $10 round trip.

"If you would have said six months ago we would have had that option, probably not," she said. "But because we're being very regionally coordinated and really looking at crossing those county lines, I have more options than I had last week."

In another instance, a man had been hit by a vehicle in the county and needed a ride to a medical appointment. He didn't have the money to pay for a ride, so Hursey paid his fare out of her office's Santa Fund.

"Our Santa Fund is a fund that my co-workers or anybody when they have an extra dollar or two drop it off in my mailbox, and we just keep it for people who don't really have any other options," Hursey said. "We try to help anybody we can with transportation."

She said that Horizons, SEA and the senior center work very hard to coordinate with each other to help anyone in need of transportation.

"We work with anybody," she said. "It doesn't matter what age."

Sean,

Thank you for the compliments on our presentation last week and your interest in this project. Attached is the slideshow from the presentation. It includes data to demonstrate the increase in rides and mobility as well as the effectiveness of improving transportation to health appointments through coordination.

Feel free to contact me with any questions about the information in this presentation.

STOP TWO

Lean Six Sigma Project

The Problem and the Goal

"Reverse Pareto": The need is both relevant and tangible
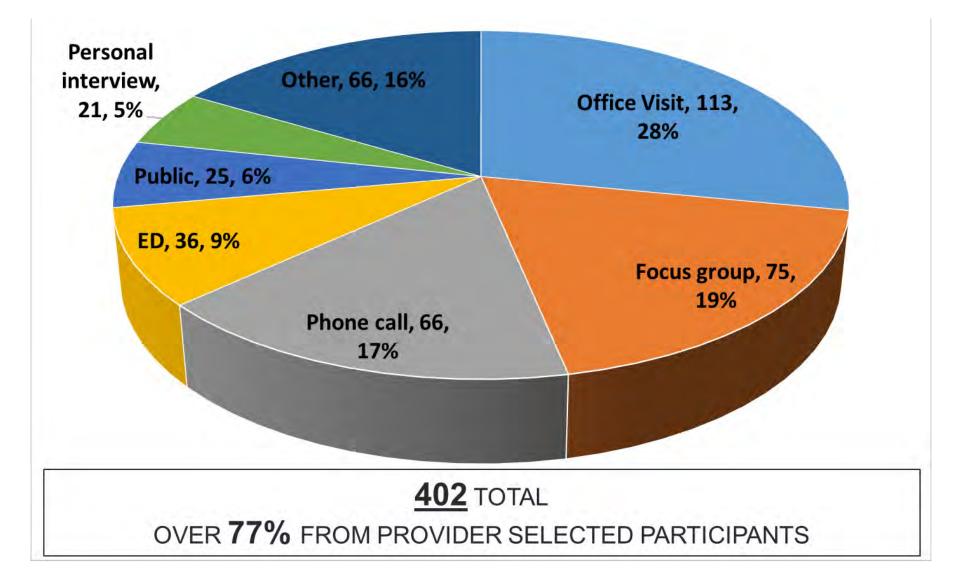

Problem Statement: 16% of "no shows" and same day cancellations are a result of lack of transportation to a health appointment. This is approximately **598** patients per month, **30** patients per day. This contributes to staffing and productivity inefficiency and waste. "No shows" cost organizations $196 per occurrence, $1.4M annually[1].

Goal: Reduce no shows & same day cancellations due to lack of transportation by 50%

Questions and Comments

Hi Shannon,

I just wanted to let you know Mr. Wesley Jones just stopped in to thank everyone involved in getting him to his vehicle. He was very pleased with all aspects of his ride today and appreciated the reasonable charges ($29.12). Mr. Jones was quoted $150 from another provider so we provided him with a much more affordable option. I gave him your information so he may reach out to you to express his gratitude as well.

Have a GREAT weekend!!!

Tracy

Subject: Success Story for Regional Transportation

Good Morning All,
Tracy Haines, Coshocton County Mobility Manager emailed me yesterday concerning options for a gentleman to get from Uhrichsville to Coshocton to pick up his automobile from a repair shop. Tracy and I emailed back and forth several times and worked out a coordinated trip. Tracy spoke with client this morning and he booked the trip. This trip is scheduled for Friday, June 21st and Horizons Rural Public Transportation will pick client up at his home in Uhrichsville and meeting Coshocton County Coordinated Transportation at the Park & Ride @ intersection of 36 & 751. Coshocton County Coordinated Transportation will then deliver him to his destination in Coshocton to pick up is car.

All,

I just received a phone call from a gentleman with the following situation. Matt with Go Bus told him to call me for help

Mr. Johnson is flying his small airplane into Harrison County for some painting repairs and is needing to go back home to Dayton area

June 20 or 21 is the date and he needs to be in Wheeling at the greyhound station @2:30 pm. I took Mr. Johnson phone number and told him I would call him back.

After thinking this through, I started making phone calls with a plan. We can route him out of Zanesville, working with Harrison County and Tuscarawas County meeting and then handing off to Muskingum County. Just got off the phone with Mr. Johnson to explain that we can make this happen if he is willing to catch the Greyhound in Zanesville and do it on the 20th. He was very pleased that we had a plan and could get him home. Cost of coordinated trip approximately $26 plus the greyhound ticket. Mr. Johnson will call me back after he has finalized his plans. I told him to give me a couple of weeks to get everything set.

Sean,

I just had this happen and wanted to share my excitement. Social worker at Trinity Twin City Hospital in Dennison called to say they had a young man (domestic violence) in the ER and he needed to go to the domestic shelter in Carrollton. I called around in Tuscarawas County to see if we had any available. We didn't so I called Carroll County Transit and talked to Trisha and she called me back and they had a pickup in Uhrichsville around 2 pm. They are going to pick him up for $8.50 and take him. The young man has no money so between the hospital and my small Santa fund we will coordinate funds and transportation to get him somewhere safe. It is a small win for regional coordination of transportation services.

Have a great weekend

Sean & Jeannette,

I just scheduled a short term coordination trip between Horizons Rural Public Transportation and Harrison County Rural Transit. We are transporting a 69-year-old women for work. She works for Harcatus and needs to go from Dennison to Cadiz 4 days a week. She is trying to secure reliable transportation but till she does Horizons will pick her up in Dennison and transport to park & ride at 250/151 and Harrison County will pick her up and take her to Cadiz and then reverse trip home.

Good Morning All,

Tracy Haines, Coshocton County Mobility Manager emailed me yesterday concerning options for a gentleman to get from Uhrichsville to Coshocton to pick up his automobile from a repair shop. Tracy and I emailed back and forth several times and worked out a coordinated trip. Tracy spoke with client this morning and he booked the trip. This trip is scheduled for Friday, June 21st and Horizons Rural Public Transportation will pick client up at his home in Uhrichsville and meeting Coshocton County Coordinated Transportation at the Park & Ride @ intersection of 36 & 751. Coshocton County Coordinated Transportation will then deliver him to his destination in Coshocton to pick up is car.

SVRTA to offer round-trip to Robinson Township

STEUBENVILLE — Beginning Monday, Steel Valley Regional Transit Authority will offer weekday round-trip service to Robinson Township.

"SVRTA has been working to make this happen for a long time and is proud to offer the residents of our community new opportunities in transportation," the authority said in a release issued Friday. *"(We're) excited to offer this (service) not only for the holiday season, but into 2019 as well so commuters have reliable transportation for work."*

The Robinson route will cost $5 each way, but those with a SVRTA yearly pass can ride free.

SVRTA's Saturday route will operate as usual.

For information, contact Frank Bovina at (740) 282-6145 or fbovina@svrta.com, or visit SVRTA.com.

Last December, SVRTA began offering Saturday service to Robinson Township, including Settler's Ridge and the Malle at Robinson.

According to Bovina, the expanded holiday service was in response to requests.

"This is an exciting expansion of service for us because it means so much to our riders and gives us the chance to reach riders who may get around fine locally, but don't have access to transportation into Pittsburgh," Bovina stated previously.

Weekday service to Robinson Township will begin from the SVRTA Transit Center at 7:30 a.m., and from Eastern Gatway Community College at 7:40 a.m. Stops include Weirton Medical Center, Giant Eagle at Settler's Ridge, the food court entrance to the Mall at Robinson, near Ikea and Ditka's.

Saturday service leaves from the transit center at 10 a.m. and from EGCC at 10:45 a.m. Stops include WMC, Giant Eagle, the Mall at Robinson and near IKEA.
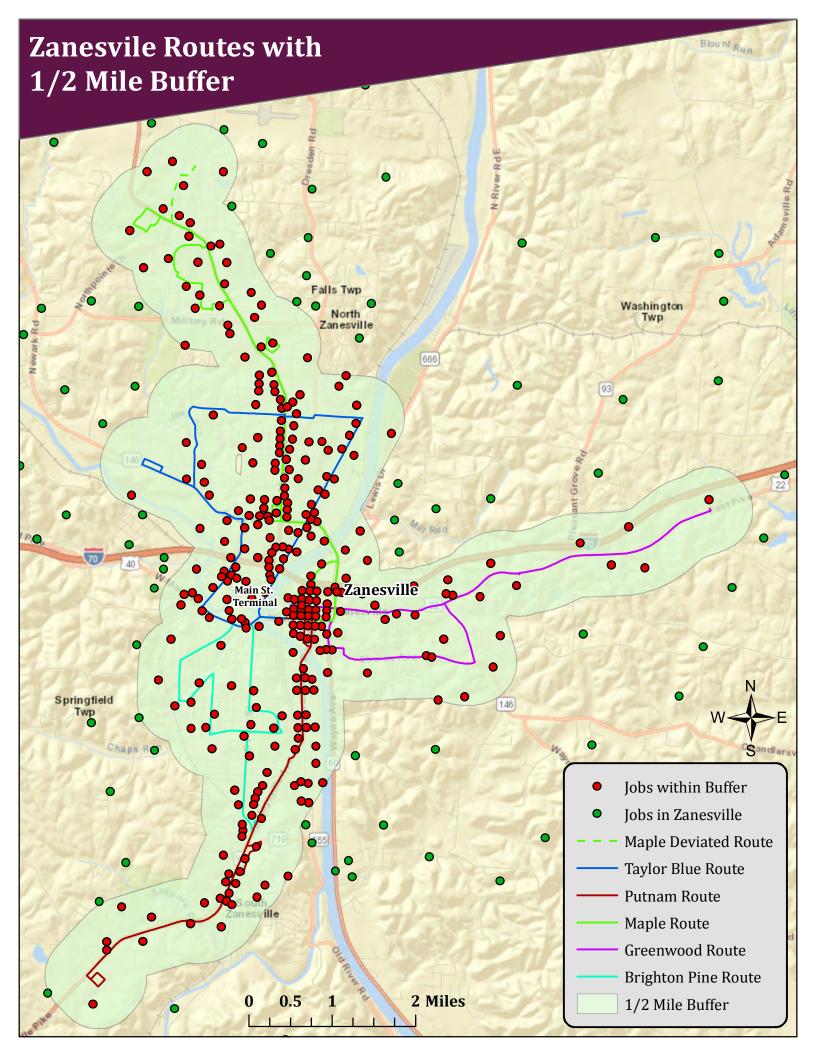

Hi Sean,

SVRTA started their Steubenville-Robinson township trips from December 2018. Until now, they carried total 444 passengers in total in this route. 54 of them in Saturday and rest of them in weekdays. If you need more information on that, please contact with Tim.

Mid-Ohio Mobility Solutions
Regional Call Center
Success Stories

1) Donna Bryan was previously visiting her husband 3 times a week at a nursing home in Muskingum county for $12 a week through SEAT. Her husband was moved to a Nursing home in Morgan County. Donna wanted to continue to visit her husband multiple times a week, but wasn't going to be able to afford a huge increase in pay. Since her husband was now out of Muskingum County, we would have to look into other transportation options due to SEAT not servicing Morgan County. The Call Center was able to get in touch with Morgan County Public Transit, explain the situation, and workout a fare. We also communicated with SEAT and did the same thing. SEAT was willing to wave some fees and reduce Donna's rate to keep her fare as low as possible. The plan- On Wednesdays, SEAT would pick Mrs. Bryan up from her residence in Muskingum County and transport her to the Morgan county line where, Morgan County Public Transit would pick her up and take her to the nursing home, pick her up from the nursing home and bring her back to the county line where, SEAT would then pick her back up and take her home. On Fridays, SEAT would pick Mrs. Bryan up from her residence in Muskingum County, bring her to the SEAT bus station where, Morgan County Public Transit would pick her up and take her to the nursing home and then return her to the SEAT bus station, and then, SEAT would return her to her residence. This is a standing order with both counties. Her cost to see her husband for 2 out of county round trips is only $16.00 a week. Mrs. Bryan was extremely pleased with the outcome of the situation and is very happy that she gets to continue her visits with her husband.

2) Joey Hunt was released from prison with a prepaid ticket for Greyhound and $50 credit for a cab fare. The Greyhound ticket was to take Joey to Portsmouth Ohio and then he would get a cab to take him to the Kentucky state line where he would then be staying in a pre-established homeless shelter. The Greyhound bus did not show up to pick Joey up and therefore he missed very important appointments and was on the verge of losing his bed at the homeless shelter. He also had to spend the night in a town that he had never been to before and was unfamiliar with. The Call Center communicated with SEAT who did some research and found that the events that happened were in no fault to the passenger. SEAT covered the cost of a new Greyhound Bus ticket and wrote a letter on Joey's behalf stating that it was not his fault that he missed his appointments and was not at the homeless shelter at the designated time frame. The Call Center contacted the Belmont county correctional facility about the $50 cab fare and put them in contact with Joey. Joey was able to make it to his designation and was grateful for the help that he received from the Call Center and from SEAT.

3) Zona Gabbard was sent to us from Annette at Genesis of Cambridge. Zona was diagnosed with cancer and was going to be receiving treatment in Columbus at the cancer center. Zona is a private pay patient not eligible for Medicaid or public assistance. The Call Center looked into quite a few transportation options and was not having any luck coming up with anything that would not break the bank. The cheapest option we could find in her area was SEAT with a round trip ticket costing $190.00. Zona would need a total of 4 appointments that she was aware of for certain. The Call Center started looking into funding for the transportation and was able to communicate with the Cancer Coalition. The Call Center put Zona in contact

with them and they were able to fund all of the transportation costs for every appointment. SEAT will be transporting Zona to and from her appointments and the Cancer Coalition will be paying the fares. Now Zona can focus on what is important and put the stress of everything else behind her.

4) Bryan Gadd is a current SEAT passenger. He was brought to the Call Centers attention from People to People Counseling. Bryan lives in an apartment complex that is not wheelchair accessible. There is currently no wheelchair ramp installed outside of his apartment. Currently the SEAT bus driver has to carry Bryan's wheelchair to the bus while Bryan scoots down the stairs/walkway to the bus. It is the same when they return to drop Bryan back to his residence. This is unsafe for the SEAT driver and for Bryan. The Call Center was made aware that Bryan has a wheelchair ramp at his previous residence that is portable and easily transported. It would just require a large truck and a few volunteers. The Call Center started calling local Non-Profits immediately. A few dead ends were hit in the beginning, but phone call after phone call kept being made. The Call Center finally reached out to Zemba Brothers in a last attempt to get this Mr. Gadd his dignity and quality of life back. Zemba Brothers were eager to help and jumped on the opportunity. All the necessary information was given and they have been in contact with Mr. Gadd to set up arrangements for the transport and set up to take place. This will make life much easier for Bryan and give him the quality of life he deserves.

Service Area:	Jefferson, Brooke, Hancock	Grant Fund Source:	5310
Project Summary:			

DESCRIPTION OF PROJECT - OHIO MOBILITY MANAGEMENT PROGRAM

Project Summary/Outline

- Increase understanding and awareness of community transportation needs.
- Increase awareness of current community transportation options and programs.
- Ensure that transportation considerations are included in local and regional planning activities.
- Increase local capacity for transportation services.
- Assist individuals with accessing all community transportation options.
- Ensure effective coordination among different transit agencies and human transportation service providers beyond county and state line.

Items Required

- Funding through the Elderly Individuals with Individuals with Disabilities (Section 5310) Program.

TOTAL COST ESTIMATE: 80,000.

Project Summary:			

DESCRIPTION OF PROJECT

Project Summary/Outline: The regional call center (Mid-Ohio Mobility Solutions) that is grant-funded through the Ohio Department of Transportation (ODOT) Office of Transit. Our goal for the call center is to help break the transportation barrier by linking people in the community with transportation options. We currently serve 13 counties which include; Belmont, Carroll, Coshocton, Columbiana, Guernsey, Harrison, Holmes, Jefferson, Muskingum, Tuscarawas and Morgan, Noble, Perry to the volume of people requiring transportation services in the OMEGA region.   The call center provides callers with information on how to access transportation services, provides explanations of eligibility requirements for services and helps clients schedule appointments with transportation providers. The Mobility Manager for Muskingum County is the overseer of the Regional Call Center. The Regional Call Center would serve as the regional broker for region 9 (OMEGA Region) when/if The Ohio Department of Medicaid would change to a state wide brokerage system.

Items Required
- Staff
- Building & Utilities
- Mobility Manager

Service Area:	Western Belmont/Monroe County	Grant Fund Source:	FTA 5310

Project Summary:

Description of Project Regional Connectivity – Route 800 Belt Line Shuttle Pilot Project

Summary/Outline:

Route 800 Belt Line would provide access to and from the County seats of St Clairsville in Belmont and Woodsfield in Monroe County. Dropping county boundaries provides new options for the general public, also alleviate traffic and attract more tourists to both counties. State Route 800 is a north–south state highway in the eastern portion of Ohio. This plan will extend through Woodsfield, Malaga, Somerton, Barnesville, Bethesda, Morristown, East Richland, and St Clairsville. The residents who live along Route 800, almost all in rural areas would have the ability to access education, healthcare, employment, parks, cultural and civic activities. The ability to cut across boundaries would be transformational in the way we see transportation as transit agencies and private transportation providers link to this plan. Monroe County Public Transportation mission is to develop new alternatives in providing coordinated transportation, working close with ODOT and other agencies, both for profit and non-profit. Through a joint effort, designated bus stops could be established along 800 to support Belmont County individuals wanting to attend secondary learning facilities. Individuals could share a ride with Monroe County students already being transported through Monroe County Public Transportation.

Items Required
- MOU between County Commissioners
- Handicap Accessible Transit Van/Bus
- Qualified Drivers
-

Project Summary:

Description of Project   5310 Vehicle Replacement Plan

Project Summary/Outline:

To maintain and support the mobility of seniors and individuals with disabilities this plan with focus on the replacement of current handicap accessible vehicles throughout the region that are supported by ODOT 5310 Specialized Transportation Program.

As the need for transportation has increased so has the maintenance and costs to maintain aging vehicles. Replacing current transportation fleet vehicles as they reach their usefulness will help support a safe and dependable resource for the general public use.

Our fleet vehicles are averaging $160,000 mileage annually. Our goal would be to replace 5 vehicles over the next 2 years

Items Required
- 3 Modified Mini Vans Replacement over next year
- 2 Modified Mini Vans replaced over the next 1-3 years

Project Summary:			

Description of Project Technology - Regional Software

Project Summary/Outline:

Regional transits, paratransit, and NEMT providers within the region are facing a growing set of challenges. Antiquated dispatch and operational systems are putting organizations at a serious disadvantage.

Alongside greater demand for riders and increasing costs, NEMT and paratransit providers are also facing competition from private rideshare companies. As the need for more transportation increases, providers may find problems with their existing software growing too. A crucial part of solving the problem of increased demand along with rising costs is to streamline and modernize the ride dispatch system being used. A regional software system that can be integrated to work effective with all providers to support this increase is needed. Lead agency in each of the nine counties would provide software connection for all stakeholders within the region.

Items Required

- MOU between providers
- Compatible software i.e. CTS

Project Summary:

Description of Project St Clairsville Public Transit Loop Expansion Program

Project Summary/Outline:

Belmont County is in need of public transportation beyond the current fixed route provided by Eastern Ohio Valley Regional Transit Authority. Currently OVRTA operates fixed bus routes that primarily serve the Ohio communities of Belmont in Bellaire, Bridgeport, Brookside, Martins Ferry, Rayland, Shadyside, Tiltonsville, part of Yorkville and St Clairsville. A fixed route provides support as far west in Belmont County as Ohio Valley Mall leaving the communities of Bannock, Barnesville, Bethesda, Flushing, Morristown, Neffs, Powhaten Point, and west of the Mall in St Clairsville without public transit. Belmont County's population between 2016 and 2017 has declined by 0.49%. A fixed route expansion of a 16 mile loop would benefit individuals needing transportation to County/governments agencies, secondary educational facilities, senior services, healthcare facilities and employment opportunities. A loop that would expand services from Route 40 and Mall Road in St Clairsville; transit would travel west on Route 40 to Route 331 and loop around Hammond Road, returning to Route 331 then to Route 40 East returning to St Clairsville. A public transit loop would help to support a flexible route segment that operates as a deviated mode, one that could promise to be a long-term solution for the general public. Providing an expansion route would support the Belmont County Coordinated Human/Public Transportation Plan goal of increase transportation for employment and education as well as providing an avenue to maintain residency.

Project Summary:

Description of Project Sub-Regional Call Center Pilot Project – Southeast

Project Summary/Outline:

Sub-Regional Call Center is needed to support the eastern counties of Region 9. A Sub-Regional Call Center would enhance and promote the regional mobility coordination planning efforts. This would include identifying mobility managers as community liaisons throughout the region to provide a sense of allegiance with the Regional Call Center in Zanesville, Ohio. The need for a Sub-Regional Call Center has emerged through the recent planning for a Regional Call Center that simplifies access to transportation services for the community and maximizes utilization of resources. It is recognized that there is also a distinction between the rural areas and the urban areas and that this division crosses some boundaries. Some providers emphasize service quality differently than others; there is consensus that service efficiency needs to be improved so that limited resources can be stretched to the greatest extent possible. It is further recognized that the boundaries of providers located in the eastern section of the region do not have the same transportation requirements as those counties already supported by urban providers. A more localized radius for a Sub-Regional Call Center would articulated a vision in which rural community members are able to call and feel connected to local resources. A Sub-Regional Call Center could be coordinated under a lead agency model designated by Ohio Department of Transportation.

Project Summary:

DESCRIPTION OF PROJECT   CREATE COORDINATED MEDICAL ROUTE SYSTEM

Project Summary/Outline:

Create shared, coordinated trips to medical centers on a regular fixed schedule. This could encompass several counties coordinating to get persons to Cleveland Clinics/VA, Pittsburgh medical centers, Beaver hospital and medical services, and Weirton medical complexes on a consistent, reliable, fixed known schedule. It could also include creating transit coordination more locally from Columbiana, Jefferson and Trumbull counties to medical complexes in Mahoning (Boardman).

Items Required

- Gather and analyze O-D data
- Coordinate medical needs and gaps in service in multi-county regions
- Meet with medical centers and medical stakeholders to onboard the facilities with the program, especially as it relates to scheduling
- Continual outreach to medical stakeholders
- Develop medical routes and schedules
- Perform time and feasibility studies
- Create agreed upon fare structure
- Create marketing campaigns in conjunction with medical centers
- Push for all providers to use the same software for scheduling (these could be shared portals) and train medical center scheduling staff to use portals so that future transport is already arranged when patients leave medical facilities
- Find and assign vehicles from multiple fleets, as well as drivers and staff to coordinate who goes where and when
- Train drivers
- Do public outreach campaigns

TOTAL COST ESTIMATE:

$55,000 not including vehicles or vehicle drivers or operational costs

Agency Name:	CAA – M/M	County:	Columbiana
Service Area:	Columbiana	Grant Fund Source:	ODOT – M/M 5310

Project Summary:

DESCRIPTION OF PROJECT   MAKE THE CONNECTION SHUTTLE SYSTEM – PHASE 2 AND PHASE 3

Project Summary/Outline:

 Upon successful completion of the Phase 1 Make The Connection Shuttle System pilot program (12/31/2019), the Phase 1 East Liverpool/Calcutta Shuttle is expected to begin as a permanent service. The Phase 2 pilot would be created and begun, and would mimic the shuttle service developed in East Liverpool (southern region), but in the Salem/Columbiana area (northern region). Two shuttle routes may have to be developed and implemented because of the 90 minute ADA restrictions and the rural distances that need to be navigated between Salem and Columbiana. Phase 2 fares are expected to mimic the southern route fares at $1.00 each way and $.50 reduced fare for the elderly and disabled. This provides affordable access to work force transit in the northern areas of the county, and greatly enhances quality of life options for all other vulnerable populations. The Phase 3 pilot program would connect the northern and southern shuttle routes via Lisbon, which is the county seat and is located in the center of the county. Fares would be expected to be about double the single area routes meaning that transit from the north transfer location to the south transfer location (or vice versa) would be about $2.00 with reduced fares of $1.00 each way. Once Phase 3 is completed, there would be a county-wide, webbed ,connected system of deviated fixed routes with overlapping transfer points. This would allow for persons to go completely across the county for between $2.00 and $4.00 each way , depending on their specific situation. Currently the least expensive transit option is to try to schedule through CARTS at $4.30 each way.

The webbed system of MAKE THE CONNECTION SHUTTLE routes opens up the entire county as viable for the entire workforce , and indeed for every citizen of the county as all vehicles are wheel chair accessible, and the shuttle fare structure is both affordable and sustainable. It also opens up countless new quality of life options to the growing senior population, disabled persons, and those who struggle with lack of transit and life options because of low income. Persons needing, or required to have, social services, which are generally received in Lisbon, will directly benefit. This system of affordable transit also opens up treatment and recovery programs to persons who have been transit challenged to get from one end of the county to the other, or from either end of the county to Lisbon where many, often court- mandated, treatment/recovery programs are provided.

As the hours of operation are extended, and eventually include weekend transit, the whole world of services, shopping, treatment and recovery, work options, religious service participation, and social enhancements become affordable and truly available to ALL residents of the county.

Items Required
- Collect and analyze O-D data
- Develop test routes
- Do route time and location studies
- Choose route stops
- Develop time schedules
- Coordinate route times and schedules between the 3 or 4 routes to provide county wide transit schedules
- Purchase vehicles dedicated to Shuttle Services (Locate vehicles in current fleet that can be assigned before purchased vehicles are available)
- Train drivers

- Do public campaigns and follow up marketing
- Create flyers, pamphlets, Shuttle Books, posters , banners, and other printed materials to publicize new routes and how they integrate to form a system of transit in the county.
- Involve businesses and stakeholders in promoting the Shuttle system
- Analyze data from pilot periods and adjust route stops and route time schedules as needed
- Hold public forums for feedback as well as do survey feedback and direct feedback captured by the Mobility Manager

TOTAL COST ESTIMATE:

$65,000, not including vehicles or operating costs

Project Summary:

DESCRIPTION OF PROJECT   RENOVATE AND UPGRADE CURRENT CARTS OPERATIONS BUILDING WITH A SECOND STORY ADDITION AND COVERED PARKING LOT STRUCTURE

Project Summary/Outline:

The current CARTS building does not have adequate space to house the staff, and does not have a space to provide driver training. Additionally, all fleet vehicles are staged outdoors without any cover of any kind, exposing both fleet and employees to sustained inclement weather.

A second story addition to the building along with a renovation of the first floor for better use of space would provide adequate office space for the staff and expanding staff requirements, a training room for the drivers/meeting room for management staff meetings, and a lunch or break room for the drivers. Covering the parking lot with some sort of structure would put the fleet "under roof", as well as the vehicles of the drivers when they are on duty, which would reduce wear and tear on fleet vehicles and help prevent employee accidents in bad weather. It would also allow for an added measure of security.

Items Required

- Obtain plans and bids for expansion
- Seek board approval for selected plan
- Construction
- Purchase additional desks, tables , chairs, lockers, misc furniture
- Moving costs to separate and move currently overcrowded offices
- Additional heating/cooling and maintenance costs – yearly
- Potential to hire and train new staff
- Upgrade current equipment to more effectively and efficiently serve the riding public

TOTAL COST ESTIMATE:

$506,000   ($212K for parking lot structure, $275K for construction of second floor, $19K furniture and equipment)

Service Area:	Columbiana and 50 miles	Grant Fund Source:	ODOT 5311

Project Summary:

DESCRIPTION OF PROJECT   **PURCHASE UPGRADED COMPREHENSIVE PHONE SYSTEM**

Project Summary/Outline:
CARTS, because of the expansion of staff, fleet, and service times, requires the purchase of a new comprehensive phone system. This system would need to better handle scheduling, trip assignments, driver tablet interface and be CTS compatible as well as be able to handle high volume and multiple call traffic without dropping the calls or having the public experience an extended waiting time on hold. The new system would also allow for safeguards to be put in place to prevent service interruptions, dropping of calls, and rolling calls from phone to phone with no resolution for the caller.

Items Required
- Investigate potential phone systems
- Choose a preferred system
- Recommend purchase to the board for approval
- Purchase phones and all ancillary required equipment
- Train personnel on new system
- Coordinate with CTS software

TOTAL COST ESTIMATE:

$64,000 +/- $5000. In process of looking at systems and getting bids.

Project Summary:			

DESCRIPTION OF PROJECT PURCHASE LARGER BUSSES DEDICATED TO CURRENT AND ADDITIONAL DEVIATED FIXED ROUTE, COUNTY-WIDE, SHUTTLE SYSTEM

Project Summary/Outline:

Make The Connection Shuttle – Phase 1- pilot program is ending 12/31/2019. The deviated fixed route has been a success and will likely become a permanent service on 1/1/2020. Demand has already exceeded capacity several times, and as hours are extended, demand is expected to grow even higher. Larger capacity busses that can be specifically dedicated to the Shuttle service are needed. Phase 2 and Phase 3 of the Shuttle program should be launched in 2020/2021. A total of 3 and possibly 4 deviated fixed route shuttle routes will form a connected web of service across the county providing for affordable access to work across the entire county and opening up a greatly enhanced quality of life to elderly, disabled and low-income persons throughout the county. Fares will be $1.00 each way, with reduced fares of $0.50 for elderly or disabled persons, for Phase 2. Rates for Phase 3 which would be a cross county route rather than an in-city route will be determined but will be kept low to make transit affordable for the workforce and the fixed income and low income populations.

A fleet of 6 larger busses will be required. 4 will be required to provide every day route service, and 2 for fill in if there is downtime with one of the busses or if additional services are needed on any route.

Items Required
- Consider the required size of bus in accordance with the ridership data
- Acquire busses specifically for the Shuttle fleet
- Obtain ODOT registration numbers
- Shrink wrap at least 4 busses for dedicated Make The Connection Shuttle service.
- Ongoing expected maintenance

TOTAL COST ESTIMATE:

$555,000   (6 vehicles at $85K/vehicle and shrink wrap of 5 vehicles at $9K/vehicle)

Submitted by:	Shari Green, Transit Director	Date:	8/30/2019

Agency Name:	CAA - M/M	County:	Columbiana
Service Area:	Columbiana, Mahoning and Trumbull counties (possibly to include Ashtabula)	Grant Fund Source:	ODOT – M/M 5310

Project Summary:

DESCRIPTION OF PROJECT   SUB-REGIONAL CALL CENTER- EASTERN BORDER, NORTH

Project Summary/Outline:

Develop, coordinate and operate a sub-regional call center serving Columbiana, Mahoning and Trumbull Counties, possibly including Ashtabula County as well. Further to establish and lead an Eastern Ohio Alliance for Transportation (EOAT - North) to enrich these counties and to coordinate with Eastern Ohio Alliance for Transportation members in the counties south of Columbiana County, with Columbiana county serving as the fulcrum and lead/overlap between the border counties to the North and the border Counties to the South. Also to coordinate all functions with the sub regional call center serving Columbiana and the northern border counties, thus providing coordinated transit all along the eastern Ohio border and providing transit across state lines to West Virginia and Pennsylvania. One or two sub regional call centers are necessary because of the unique challenges and opportunities present in counties which border other states, as opposed to the counties that lie with their neighbor counties fully in Ohio.

Items Required

- Meet with stakeholders in all counties
- Solidify relationships with transit operators in each county
- Coordinate gaps in service that call center can help with (in addition to providing solid, accurate general information)
- Gather and analyze O-D data for all counties especially those with destinations in other border counties and those that go out of state
- Develop SOP for call center and procedures and guidelines
- Locate and coordinate office/call center space
- Obtain equipment for all center
- Hire, train and supervise call center employees
- Develop marketing campaign for Eastern Ohio Alliance for Transportation and for Call Center
- Hold monthly meetings with stakeholders
- Coordinate all aspects of call center with the Northern regional call center
- Develop transit relationships with providers across state borders
- Develop and coordinate a fare structure for trans county transit
- Develop and coordinate a fare structure for across state line transit
- Put in place MOU and/ or other procedural agreements to make transit move more smoothly and effectively along the Eastern Ohio border and with the neighboring states

TOTAL COST ESTIMATE:

Estimated at $150,000

Submitted by:	Deb Hill, Mobility Manager	Date:	8/30/2019

Agency Name:	CAA - M/M	County:	Columbiana

Project Summary:

DESCRIPTION OF PROJECT

Project Summary/Outline: The Coshocton County Coordinated Transportation Agency is the lead agency for the Mobility Management Program in Coshocton County. Mobility Management increases mobility options for the residents of Coshocton County and allows for safer travel. It provides a service with the consumer's needs as the focus, offering mobility rather than transport. Having an up-to-date list of mobility options allows for quick referrals and solutions to mobility needs. We believe mobility increases independence therefore, adding to the quality of life for our county's residents.

Agency Name:	Guernsey County Senior Citizens Center, Inc.	County:	Guernsey
Service Area:	Guernsey County (Future Out of County)	Grant Fund Source:	ODOT-5310 Specialized Transportation
Project Summary:	GUERNSEY COUNTY SENIOR CITIZENS CENTER, INC. COORDINATED TRANSPORTATION PROGRAM		

DESCRIPTION OF PROJECT

Project Summary/Outline:

Guernsey County Senior Citizens Center, Inc. is designated by resolution of the Guernsey County Commissioners as the lead agency in developing the local Guernsey County Coordinated Transportation Plan. As one of the key transportation providers serving Guernsey County and to maintain and support the mobility and transport of senior citizens and individuals with disabilities our local coordinated transportation plan has set very specific goals and objectives to address local transportation needs, which includes maintaining safe, modern, and efficient vehicle fleets as well as securing alternative and available funding to support transportation scope of services expansions and replacing, updating, and expanding available vehicle styles, models and types. The purpose of our projects is to maintain 100% handicapped accessible vehicles; add new vehicles to our fleet to provide more rides to more requested locations, during existing and expanded operating hours and days of the week. Through 5310-ODOT Specialized Transportation Grant Funding opportunities we've already anticipated and planned looking ahead for the next three (3) years for what our agency needs will be to fulfill the goals of Guernsey County's Coordinated Transportation Plan and meet the transportation needs of senior citizens and disabled individuals. This includes, but may not be limited to applying for 5310 Vehicles; Computer & Dispatch Equipment; Operating Assistance; & Capitalized Maintenance Assistance. As the need for transportation has increased so has the maintenance and costs associated with maintaining aging vehicles and expanding services not designated as "covered territory" traditionally covered by "local county tax dollars" without jeopardizing other equally critical senior based services, programs, and activities. Replacing current/existing transportation fleet vehicles as they reach their usefulness will help support and sustain safe, reliable, and dependable local transportation services that the vast majority of the general public trusts, knows, supoorts, and has relied upon.

Items Required

- Continued FTA/ODOT 5310 Specialized Transportation Grant Funding
- 2-4 New MMV &/or LTVN Vehicles (2021)
- 2-4 New MMV &/or LTVN Vehicles (2022)   Total Vehicle replacement/expansion estimated at $428,000 over three (3) seperate application years.
- 2-4 New MMV &/or LTVN Vehicles (2023)
- New Vehicle Tracking/Computer Equipment, Hardware, & Software (2021 & 2023)   Total Electronic Equipment estimated at $24,000 over two (2) seperate application years.
- Operating Assistance to Expand Weekend & Out of County Transport (2021, 2022, & 2023)   Total Operating Assistance to Expand Services estimated at $300,00 over three (3) application years
- Capitalized Maintenance Assistance to maintain aging fleet (2021 & 2023)   Total Capitalized Maintenance estimated at $40,000 over two (2) seperate application years.
- **Increased DRIVE & other driver training and certification courses offered (i.e. Wheelchair Securement; Hostile Client; Alzheimer/Dementia Transport; etc...)** General need, but not included budgetairly.
-

Service Area:	Holmes County – Millersburg	Grant Fund Source:	ODOT 5310

Project Summary:			

DESCRIPTION OF PROJECT – LOW INCOME HOUSING FIXED ROUTE - PILOT

Project Summary/Outline:

There are a few apartment complexes in the Village of Millersburg for low income people, many who do not have transportation.

The route can use Holmes Co BoDD bus and a bus driver to run a route that included stops at the low income housing, Walmart, Rodhe's, Holmes Family Physicians, JFS, County offices and Pomerene. The route/loop can run at 9:30 am and again at 1:00 pm, 2 days a week because they wouldn't interfere BoDD regular routes. It will start as a pilot for a couple of months to see if people used it.

BoDD would like to be reimbursed for their driver's time and some vehicle costs.

There are always people walking back and forth along Rt 39 in all types of weather, it is uncertain how people living in that low-income housing get to the grocery. It can't be only them without a ride.

Items Required
- Route Schedule/Map
- Public Meeting & Outreach
- Holmes Co BoDD Driver's Reimbursement

Project Summary:

DESCRIPTION OF PROJECT

Project Summary/Outline:

Replacement LTV Vehicle for 2020. This replacement vehicle would allow us to replace our #3 shuttle. It is a 2014 LTV with over 116,000 miles currently. By the end of this year, it is estimated to be over 130,000 miles. This shuttle travels the most rural country back roads in some of the county's toughest terrain. It takes the most wear and tear of all of our vehicles. Each year this shuttle costs us more money in repairs and maintenance costs. Through June 2019, CCCTA has expended over $3,200 on maintenance costs and repairs on this shuttle alone. The rest of our shuttle maintenance so far this year averages around $1,000 per vehicle. By replacing this vehicle we could move one of our older shuttles to #3's current route and put the new replacement on more highway transports and less rural country roads.

Items Required
- LTV Replacement Vehicle

Service Area:	Region 9	Grant Fund Source:	FTA 5310

Project Summary:

Description of Project Low-income Housing Shuttle Pilot Project

Project Summary/Outline:

A low-income housing shuttle pilot program would greatly enhance the transportation needs for the residents of Belmont County. Belmont County has 34 low income housing apartment communities offering 2,082 affordable apartments. 1,623 of those apartments offer rental assistance where households typically pay no more than 30% of their income towards rent. Nineteen of these communities are not on a public transit line. Our project would provide an avenue for medical, shopping and community events for independent seniors to age in place and avoidable premature nursing home placement. A handicap accessible transit vehicle (LTN) would run at three hour intervals twice a week for the underserved senior and individuals with disabilities population.

Items Required

- Handicap Accessible Van (LTN)
- Qualified Drivers
- Maintenance and Operating Cost
-

Agency Name:	Harrison County Public Transit	County:	Harrison
Service Area:	Harrison County	Grant Fund Source:	5311

Project Summary:			

DESCRIPTION OF PROJECT

Project Summary/Outline:

Due to the rural location, limited businesses, and small population of Harrison County, the possibilities of obtaining contracts with multiple companies are vastly limited. Many of the population consists of residence who depend on state assistance; majority of our business comes from these residents. Although raising the rates to accommodate insufficient revenue has been an idea, we feel that our goal of providing public transportation at an affordable cost would be jeopardized immensely, resulting in our residents unable to afford the transportation that they need.

We ask for additional funding to assist with our daily operations, as well as helping to keep our fleet of transit vehicles maintained in safe, operating conditions.

Items Required
- Funding to allow HCPT to continue to provide between 60 and 70 trips throughout the county and to surrounding counties
- Funding to maintain a fleet of 13 transportation vehicles

TOTAL COST ESTIMATE: $ 600,000

Appendix N.

Business Associates Agreement for CTS Software Portal

BUSINESS ASSOCIATE AGREEMENT

This Privacy Agreement ("Agreement"), is effective upon signing this Agreement and is entered into by and between ***Insert full transit agency name here.*** ("abbreviated transit agency name") and **Foxster Solutions, Inc.** (the "CTS Software").

1. **Term**. This Agreement shall remain in effect for the duration of this Agreement starting August 1, 2019 and shall apply to all of the Services and/or Supplies delivered by "**CTS Software"** pursuant to this Agreement.

2. **HIPAA Assurances**. In the event "**CTS Software**" creates, receives, maintains, or otherwise is exposed to personally identifiable or aggregate patient or other medical information defined as Protected Health Information ("PHI") in the Health Insurance Portability and Accountability Act of 1996 or its relevant regulations ("HIPAA") and otherwise meets the definition of by "**abbreviated transit agency name**" as defined in the HIPAA Privacy Standards (45 CFR Parts 160 and 164), "**CTS Software"** shall:

    (a) Recognize that HITECH (the Health Information Technology for Economic and Clinical Health Act of 2009) and the regulations thereunder (including 45 C.F.R. Sections 164.308, 164.310, 164.312, and 164.316), apply to a business associate of a covered entity in the same manner that such sections apply to the covered entity;

    (b) Not use or further disclose the PHI, except as permitted by law;

    (c) Not use or further disclose the PHI in a manner that had "**abbreviated transit agency name**" done so, would violate the requirements of HIPAA;

    (d) Use appropriate safeguards (including implementing administrative, physical, and technical safeguards for electronic PHI) to protect the confidentiality, integrity, and availability of and to prevent the use or disclosure of the PHI other than as provided for by this Agreement;

    (e) Comply with each applicable requirement of 45 C.F.R. Part 162 if the "***CTS Software"*** Conducts Standard Transactions for or on behalf of the "**abbreviated transit agency name**";

    (f) Report promptly to "**abbreviated transit agency name**" any security incident or other use or disclosure of PHI not provided for by this Agreement of which "***CTS Software***" becomes aware;

    (g) Ensure that any subcontractors or agents who receive or are exposed to PHI (whether in electronic or other format) are explained "***CTS Software***" obligations under this paragraph and agree to the same restrictions and conditions;

    (h) Make available PHI in accordance with the individual's rights as required under the HIPAA regulations;

(i) Make its internal practices, books, and records that relate to the use and disclosure of PHI available to the U.S. Secretary of Health and Human Services for purposes of determining Customer's compliance with HIPAA; and

(j) Incorporate any amendments or corrections to PHI when notified by Customer or enter into a Business Associate Agreement or other necessary Agreements to comply with HIPAA.

3. **Termination Upon Breach of Provisions**. Notwithstanding any other provision of this Agreement, **"abbreviated transit agency name"** may immediately terminate this Agreement if it determines that *"CTS Software"* has breached any term in this Agreement. Alternatively, **"abbreviated transit agency name"** may give written notice to *"CTS Software"* in the event of a breach and give *"CTS Software"* five (5) business days to cure such breach. **"abbreviated transit agency name"** shall also have the option to immediately stop all further disclosures of PHI to Business Associate if **"abbreviated transit agency name"** reasonably determines that *"CTS Software"* has breached its obligations under this Agreement. In the event that termination of this Agreement and the Agreement is not feasible, *"CTS Software"* hereby acknowledges that the **"abbreviated transit agency name"** shall be required to report the breach to the Secretary of the U.S. Department of Health and Human Services, notwithstanding any other provision of this Agreement or Agreement to the contrary.

4. **Return or Destruction of Protected Health Information upon Termination**. Upon the termination of this Agreement, unless otherwise directed by **"abbreviated transit agency name"**, *"CTS Software"* shall either return or destroy all PHI received from the **"abbreviated transit agency name"** or created or received *"CTS Software"* on behalf of the **"abbreviated transit agency name"** in which *"CTS Software"* maintains in any form. *"CTS Software"* shall not retain any copies of such PHI. Notwithstanding the foregoing, in the event that *"CTS Software"* determines that returning or destroying the Protected Health Information is infeasible upon termination of this Agreement, *"CTS Software"* shall provide **"abbreviated transit agency name"** notification of the condition that makes return or destruction infeasible. To the extent that it is not feasible for *"CTS Software"* to return or destroy such PHI, the terms and provisions of this Agreement shall survive such termination or expiration and such PHI shall be used or disclosed solely as permitted by law for so long as *"CTS Software"* maintains such Protected Health Information.

5. **No Third Party Beneficiaries**. The parties agree that the terms of this Agreement shall apply only to themselves and are not for the benefit of any third party beneficiaries.

6. **De-Identified Data**. Notwithstanding the provisions of this Agreement, *"CTS Software"* and its subcontractors may disclose non-personally identifiable information provided that the disclosed information does not include a key or other mechanism that would enable the information to be identified.

7. **Coordination.** Agencies participating in the call center (insert correct name) pilot program agree to coordinate trips through the CTS Software Portal as follows:

(a) Any agency unable to provide a requested trip shall post that trip to the CTS portal (re-phrase?) so that another agency may be able to fulfill the request.

(b)   Any agency that provides a trip for another agency shall agree to do so at the same contract price as the original agency or other mutually agreed to price between two or more agencies.

(c)   Agencies shall not pirate trips.

(d)   Agency agrees to coordinate with call center as needed, to routinely check the portal and amend agency schedules as needed, and to post trips that the Agency is unable to provide.

(e)   Agency(ies) agree to offer rider a guaranteed return trip (round trip guarantee)

(f)   Interagency Transfer Agreement – Agencies working to transfer riders on any legs of their trips agree to their part of the trip prior to pick-up

(g)   Only trips visible in portal are those entered by Agency(ies) using portal

8. **Amendment.** "*CTS Software"* and **"abbreviated transit agency name"** agree to amend this Agreement to the extent necessary to allow either party to comply with the Privacy Standards, the Standards for Electronic Transactions, the Security Standards, or other relevant state or federal laws or regulations created or amended to protect the privacy of patient information. All such amendments shall be made in a writing signed by both parties.

9. **Interpretation**. Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits **"abbreviated transit agency name"** to comply with the then most current version of HIPAA and the HIPAA privacy regulations.

10.   **Survival**. The obligations imposed by this Agreement shall survive any expiration or termination of this Agreement.

Regional Coordinated Plan – Public and Stakeholder Review
Comments

Region 9 Coordinated Plan - Comments

Date	Reviewed By	Section	Page #	Comments	OMEGA Response
10/1/2019	Public	**Overall**	--	Good morning Mr. Sammon I'm a resident of Cambridge, Ohio, I moved here recently, it's a beautiful place to live, but I have noticed that we don't have bus stops (covered ones), and I think it's a very important matter, considering that we have very low temperatures in winter, and thinking in all the people who use the public transportation all year round, I consider this an important matter. I lived in Spain for 3 years, and one of the things that really helped me and others with the public transportation is that they have an App that everyone can download to their phone, and this app will let you know how long it will take the bus to arrive at your bus stop, and this for winter was very useful. The only thing we had to do, was write the bus stop number and what bus we were waiting for and it will give you the arrival time. I think this is a great idea that we as community could use to improve our use of public transportation and to help all the users to improve their experience with transportation. Have a blessed day!	Affirmed and Acknowledged, best to explore during implementation
10/1/2019	Vince Gianangeli, Belmont JFS	**Assessment of Services**	Overall	Good afternoon! Barnesville Taxi needs to be added to the regional transportation provider list. Vince	Complete
10/2/2019	David Snyder, Martins Ferry EMS	**Appendix E: Provider Tables**	Overall	Sean, Please review these tables. I hope they have the info you need. I am unable to get you a budget currently because our transportation is tied in with our EMS as an all in one budget. Let me know what you think. Thanks. Dave Snyder	Complete and updated
10/3/2019	Carol Baker, AAA9	**Geographic Area**	Overall	Hi Sean, I just reviewed the plan and it is wonderful! Thank you for letting me be a part of all the planning meetings, calls, etc. The only comment I have is to remove both East Ohio Regional Hospital and East Ohio Medical Complex from the Belmont County lists. Both of those are closed. Trinity in Steubenville plans to open a medical complex in St. Clairsville on October 28, 2019. Carol	Complete
10/4/2019	Shannon Hursey, Mobility Manager	**Appendix L: Project Submittals**	Projects	Sean, Here is a project (**Community Health Worker**) that I realized I forgot to include in the Regional Plan. If we could include that would be great. You did a great job on the plan. Shannon	Complete
10/10/2019	Shon Gress, Guernsey County Senior Center	**Appendix E: Provider Tables**	TSP Info	Guernsey County Senior Center vehicle fleet mileage (odometer readings)	Updated and complete

Date	Reviewed By	Section	Page #	Comments	OMEGA Response
10/16/2019	Judy Owings, PrimeTime Office on Aging	**Geographic Area**	Page 16	Under Jefferson County Medical, Life Line shut down and Acuity Specialty Hospital is now in Weirton West Virginia.	Complete
10/28/2019	Tracy Haines, CCCTA	**Appendix E: Provider Tables**	TSP Info	Coshocton County Coordinated Transportation Agency vehicle fleet mileage (odometer readings) including RHDD, Cosh Veteran Services, and Cosh Co EMS	Complete
10/29/2019	Arnie Oliver, Holmes County Planning Commission	**Overall**	Overall	Hello Sean, I don't have any additional comments on the plan. Thank you. Arnie	Acknowledged
10/29/2019	Deb Hill, CAAofCC	**Geographic Area**	Page 15	For Columbiana County Add to education; OVCT (Ohio Valley College of Technology) Add to human Services: CCDJFS (instead of JFS) Mental Health and Recovery Salvation Army United Way Easter Seals Thanks, have a good week, Deb	Updated and complete
10/29/2019	MM, Shannon Hursey, Mobility Manager	**Geographic Area**	Page 17	Updated Tuscarawas County Major Trip Generators	Complete
10/30/2019	Marianne Mader, HCBDD	**Overall**	Overall	Hello Sean I reviewed the plan....all of the information regarding Holmes County looked up to date! Thanks	Acknowledged
10/30/2019	Chief Mike Knowlton, Neffs FD	**Appendix E: Provider Tables**	TSP Info	Neffs Fire Dept vehicle fleet mileage (odometer readings)	Updated and complete
10/30/2019	Karen Couch, HCPT	**Appendix E: Provider Tables**	TSP Info	Harrison County Public Transit vehicle fleet mileage (odometer readings)	Updated and complete
11/1/2019	Peggy Hickenbottom, NCR	**Geographic Area**	Page 14	Belmont County, Update completed. Took off the hospitals and clinic related to their closings as well.	Updated and complete
11/4/2019	Valerie Shaw, CCCTA	**Geographic Area**	Page 14	Coshocton County Coordinated Transportation Agency: Hey Sean, The only place on our list that isn't accurate is the "Family Care Behavioral Health" They are no longer open. Thanks!	Updated and complete
11/4/2019	Arnie Oliver, Holmes County Planning Commission	**Appendix L: Project Submittals**	Projects	On their local project proposal, Low-Income Housing Fixed Route Pilot - Hello Sean, I'm good with keeping it in. I would just be guessing at the costs, but I would think we would need to request funds over several years to ensure the project can sustain itself. Arnie	Acknowledged and Affirmed

Date	Reviewed By	Section	Page #	Comments	OMEGA Response
11/4/2019	Marianne Mader, HCBDD	**Appendix L: Project Submittals**	Projects	On their local project proposal, Low-Income Housing Fixed Route Pilot - Hi Sean and Arnie I think it makes sense to keep it in the plan in case we decide to do it in the future. If we were to fund the pilot that I proposed….2 trips per day, 2 days per week With our driver's cost, fuel, and advertising….I think $12,500 would be enough for one year.	Updated and complete
11/6/2019	ODOT	**Overall**	-	Columbiana County- we support the goals/strategies & travel pattern analysis that include coordination with Columbiana County. However, the tables, demographics, charts, etc. that duplicate the County Coordinated Plan should not be in this regional plan. Columbiana County will have to refer to their county plan to apply for ODOT funding.	Columbiana county is in our planning region and has been a major stakeholder from the very beginning, they have more synergy with Jefferson and Belmont county and has an opportunity to assist with trip patterns along the river counties. Removing them from the plan will be very deterimental to the plan and create a domino effect that may require a rewrite since a lot of our analysis and data is wrapped tightly with their inclusion. It may take a lot of unnecessary time to just remove them from the plan and can cause a rift in the established relationship. What may be beneficial to all parties involved may be to include a byline in the plan that says what you say: **ONLY Columbiana County will have to refer to their county plan in order to apply for ODOT funding.**
11/6/2019	ODOT	**Executive Summary**	v	The provider summary is good- but should also include the mobility manager summary that is on page 40	Complete
			vii	Are the strategies listed according to priority?	Complete
			vii	Strategies & Goals summary- it was confusing trying to tie the strategies with the appropriate goal. And some strategies seemed like a duplication, but we think it might resolve that confusion if you list the strategies under the goal that it is tied to. Recommend moving the strategies under the related goal in an outline format.	Complete
			vii	Strategy 16- Recommend changing "call center" to "mobility solutions center" because the concept goes further than just a traditional call center	Complete
11/6/2019	ODOT	**Geographic Area**	13-17	Recommendation - sort trip generators by a-z for each category	Complete
11/6/2019	ODOT	**Assessment of Available Services**	42	Switch order of Carroll County Council on Aging and Carroll County JFS - to match the order on the summary list (pg.38)	Complete
			52	Name is not the same as the summary (pg. 39) Harrison County Veteran Services Commission	Complete
			40-58	All of this data should be in the inventory of available services tables & some is already duplicated in these tables. These paragraphs can be eliminated by moving everything in the tables.	We wanted to make this table specifically as a summary table from the important information from the TSP information tables we deemed necessary that would work for both the stakeholders and primarily the public.
11/6/2019	ODOT	**Vehicles**	69	*Not for correction- just a thought about scoring 5310 projects on a regional level: Compare analysis of accessible vehicles vs. demographics from page 23 &24. Very high population of persons with disabilities in Belmont County, but they have less vehicles than Muskingum that has slightly less of a disabled population.*	Belmont has 10,984 people with disabilities and Musk has 13,967, so Musk has a slightly higher pop with disabilities so the portions are relatable. The census tracts on the map may make it look like Belmont has more but it doesn't take into account the density. With that being said, I think this is an excellent point to use to make comparisons for 5310 projects.
11/6/2019	ODOT	**Assessment of Transportation Needs and Gaps**	82	Human Services for specialized population- very good map addition	Complete
			overall	Could not find the unmet needs broken down per county. Just per meeting. What about the unmet needs in the individual CP's and how that relates to the regional unmet needs/goals.	This is the reason we have Appendix H, and the public surveys and short answers captured needs from all counties. However, I wrote this at the very end of Needs and Gaps section on page 107 as a note referring to this information.

Date	Reviewed By	Section	Page #	Comments	OMEGA Response
11/6/2019	ODOT	Goals & Strategies	100	Identify methods used to analyze and produce the unmet neets. Are the goals all based on the unmet needs of the resident surveys, stakeholders, or both?	This is the reason we have Appendix H, and the public surveys and short answers captured needs from all counties. However, I wrote this at the very end of Needs and Gaps section on page 107 as a note referring to this information.
			100	Re-word the summary of unmet mobility needs in region. The word identify is present three times in the first sentence.	Complete
			107 & 108	Goal #1- needs numbers stop at 12 and same thing with the table	I explained this in the second paragraph on page 108 of our update, these were taken from the comments on the surveys so it was in addendum to the ranked needs.
			120-123	Recommend sorting the table by funding year, amount, county, etc. for funding planning	Complete, I decided to order it by county alphabetically
			124-135	Success Stories: Good addition- but how will this information carry forward to future plans to mark the milestones?Mabye a timeline of successes?	Timeline is a good idea, maybe for an update
			overall	All goals- move ODOT from parties responsible for leading implementation to parties responsible for supporting.	Complete
11/6/2019	ODOT	Adoption	138	This is new- but just so you know and that it can be written into your plan. ODOT needs to receive the plan for approval PRIOR to adoption- thus update the date that was submitted to ODOT 9/30/19	Complete
			overall	Just a note to include all county commissioners in the adoption process	OMEGA Executive Board represents all county commissioners.
11/6/2019	ODOT	Appendix E: Provider Tables	overall	*Not for correction, but for regional project scoring purposes- the providers who do not submit all information for the regional plan will lose points in their transit applications. You can communicate that with the providers going forward that there will be points lost in their total score when they do not provide this data.*	Good idea we will communicate.
			Table 7	Tuscarawas County is formatted completetly different than the other counties	Complete
			-	Tuscarawas County JFS missing VIN#'s. Enter N/A for blank spaces	Complete
11/6/2019	ODOT	Appendix L: Transportation Service Provider Project Submittals	Brooke Hancock Jeffeson MPO	Missing date of submission.	Complete, 7/22/2019
			overall	All proposals are missing the date the project would be implemented. Is this project an intent for CY2020? Or CY2021, 2022, etc. All of this information is included in the tables on page 120-122 and these proposal submissions would help you in completing them.	I believe the intent was throughout the regional plan, I asked Olivia for help on this when I drafted the table since I was uncertain what CY they would qualify for, so I thought the table would be sufficient for this information otherwise the plan becomes very busy. I made this project form that way to make the table, but due to the uncertainty of the success of the plan at the time on the form I created, I didn't include the date to implement, just knowing that it will happen throughout the duration of the plan.
Review Completed 10/3/19- Olivia Hook					
Final approval with Macie Moore completed 11/5/19					

Appendix P.

Signed Regional Coordinated Plan Signature Pages &
Memorandum of Understanding

The Regional Coordinated Council and all stakeholders were given the opportunity to sign the OMEGA Regional Coordinated Council Signature Page. Their signatures represent their agency's support for the Regional Coordinated Plan as well as recommending the OMEGA Executive Board to adopt the plan. The plan adoption is not a financial commitment, but it does make public transit and human service transportation agencies eligible to receive Section 5310/5311 funding in conjunction with the Regional Coordinated Plan.

These are the signatures recorded supporting the adoption of the "OMEGA Regional Coordinated Public Transit/Human Services Transportation Plan, 2019-2022". These are the signature pages for each agency.

SENIOR CENTERS
Tuscarawas County

RESOLUTION NO. 1

A RESOLUTION ACCEPTING AND APPROVING THE REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN FOR BELMONT, CARROLL, COLUMBIANA, COSHOCTON, GUERNSEY, HARRISON, HOLMES, JEFFERSON, MUSKINGUM, AND TUSCARAWAS COUNTIES.

WHEREAS, the Tuscarawas County Committee on Aging, Inc., DBA the Tuscarawas County Senior Center in conjunction with the transportation service providers, mobility managers, human service agencies, seniors, individuals with disabilities, and members of the general public developed a regional coordinated plan, the implementation of which will increase ridership and provide for most cost effective transportation services throughout the region; and

WHEREAS, regional coordination of public and private transportation systems and human service agencies will promote Enhanced Mobility for Seniors and Individuals with Disabilities as well as others who are in need of transportation services; and

WHEREAS, the FTA Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program provides operating and capital assistance funding to provide transit and purchase of services to private nonprofit agencies, and to qualifying local public bodies that provide specialized transportation services to elderly persons and to people with disabilities; and

NOW, THEREFORE, BE IT RESOLVED THAT THE EXECUTIVE BOARD OF the Tuscarawas County Committee on Aging, Inc., DBA the Tuscarawas County Senior Center APPROVES THE REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN.

RESOLUTION #2019-37

A RESOLUTION ACCEPTING AND APPROVING THE REGIONAL COORDINATED PUBLIC TRANSIT/HUMAN SERVICES TRANSPORTATION PLAN FOR BELMONT, CARROLL, COLUMBIANA, COSHOCTON, GUERNSEY, HARRISON, HOLMES, JEFFERSON, MUSKINGUM, AND TUSCARAWAS COUNTIES.

The Carroll County Board of Commissioners met on the 26th day of December, 2019, in regular session at the office of the Board (119 S. Lisbon Street, Suite 201, Carrollton, Ohio), with the following members present: Robert E. Wirkner, Lewis A. Mickley and Jeffrey L. Ohler.

WHEREAS, the Carroll County Transit in conjunction with the transportation service providers, mobility managers, human service agencies, seniors, individuals with disabilities, and members of the general public developed a regional coordinated plan, the implementation of which will increase ridership and provide for most cost effective transportation services throughout the region; and

WHEREAS, regional coordination of public and private transportation systems and human service agencies will promote Enhanced Mobility for Seniors and Individuals with Disabilities as well as others who are in need of transportation services; and

WHEREAS, the FTA Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program provides operating and capital assistance funding to provide transit and purchase of services to private nonprofit agencies, and to qualifying local public bodies that provide specialized transportation services to elderly persons and to people with disabilities; and

NOW, THEREFORE, BE IT RESOLVED that the Board of Carroll County Commissioners of Carroll County Transit approves the Regional Coordinated Public Transit/Human Services Transportation Plan.

RESOLVED FURTHER that this Board of Commissioners hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board and that all deliberations of this Board which resulted in this formal action were taken in meetings open to the public in full compliance with applicable legal requirements, including ORC 121.22.

Mr. _Mickley_ moved for the adoption of the preceding Resolution;
Mr. _Ohler_ seconded the motion.

Upon call of the roll the vote was recorded as follows:
Mr. Ohler, _Yes_; Mr. Mickley, _Yes_; Mr. Wirkner, _Yes_.

Motion carried on unanimous vote. Resolution adopted this 26th day of December, 2019.

BOARD OF COMMISSIONERS
OF CARROLL COUNTY

ATTEST:

_____
Ronald M. Nuzzolillo, Jr., Assistant Clerk I

_____
Robert E. Wirkner, President

_____
Lewis A. Mickley, Vice President

_____
Jeffrey L. Ohler, Commissioner

The Memorandum of Understanding (MOU) is for any Transportation Service Provider in the region that will continue to operate as part of the regional coordination. This does not commit any transportation service provider financially. As stated in the MOU in **Appendix I, "***Each participating agency will continue to operate independently, and this MOU will not interfere or interrupt the agency's service. This MOU will allow the local agencies to work across jurisdictional borders to coordinate transportation services for public transit and human services transportation.***"**

These are the MOU signatures for each agency.

2021

Appendix Q: Regional Coordinated Public Transit / Human Services Transportation Plan Annual Update

OMEGA
OHIO MID-EASTERN GOVERNMENTS ASSOCIATION

326 Highland Avenue
Suite B
Cambridge, OH 43725
https://omegadistrict.org

APPENDIX Q

REGION 9 REGIONAL COORDINATED PUBLIC TRANSIT / HUMAN SERVICES TRANSPORTATION PLAN 2021 ANNUAL UPDATE

ODOT requires that this plan be reviewed annually by the local and regional planning committees. For more information regarding this process please contact: Deborah Hill, Regional Transit Planner, Ohio Mid-Eastern Governments Association (OMEGA), dhill@omegadistrict.org or phone 740-439-4471.

Beginning in 2021, ODOT will no longer require updates to the locally developed, county level, coordinated public transit-human services transportation plans for those counties included inside a region. However, the Regional Coordinated Public Transit / Human Services Transportation Plan will be updated yearly and include county level input. The Regional Coordinating Agency (RCA) will serve as the lead in this process to ensure each of the county coordinated planning committees participates in the regional coordinated planning process. The Region 9 Plan includes nine counties in Eastern Appalachian Ohio: Belmont, Carroll, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas. In Region 9, OMEGA is the Regional Coordinating Agency.

The Steering Committee and the Regional Coordinated Council developed updated SWOT Analysis, Unmet Needs, and Goals and Strategies for the region in CY 2021 for utilization in CY 2022.The CY 2022 Region 9 Updated SWOT Analysis, the CY 2022 Regional Goals and Strategies Revisions, and the CY 2022 Regional Unmet Needs Analysis were all accomplished through a series of review, discussion, comment, final revised presentation, and adoption by vote by both the Region 9 Steering Committee and the Region 9 Regional Coordinated Council (RCC). Survey results from the Regional Survey of Unmet Needs Assessment provided input from senior, low income, and disabled populations in the region. The Regional Survey of Unmet Needs Assessment yielded 1,800 responses: over 1,130 survey responses were from those over 60 years of age (63% of responses), and nearly 400 responses were from those using a mobility device (22% of responses). Survey results data is in Attachment A to this appendix.

Though it is acknowledged that the disabled population is much broader than just those using mobility devices, the restrictions imposed by COVID protocols limited in person meetings with these vulnerable groups and so survey responses were more heavily relied upon during this time. Mobility managers in each county also met with, and have on their respective transportation committees, members from the senior, low income, and disabled populations and they bring forward the needs and inputs from those populations.

The Region 9 Steering Committee is comprised of all the regional transit directors, all the regional mobility managers, and advocates for both the senior and disabled populations. Each county in the region has equal representation on the committee. The transit directors and mobility managers ensure that while the focus remains on the regional level issues, we do not fail to consider, or unintentionally omit, important issues occurring at the local (county) level throughout the region. The advocate members ensure that equity and inclusion are built into all steps of the decision-making processes and that the needs of the senior, disabled, and low-income populations are always held in the forefront of considerations at the regional level. The number of Steering Committee members from each individual county is equal within Steering Committee membership (two representatives per county) so that equal access and representation of all counties is established and maintained. The Steering Committee meets monthly to discuss, review, and address regional issues. This committee also provides recommendations for adoption to the general RCC membership.

The RCC meets quarterly, in combination with the Steering Committee, and is presented with items recommended for adoption by vote for the region. All items and documentation are presented to all members at least one week before the meeting for review and reflection. Discussion takes place during the RCC meetings with time for comment afterward. The final revised proposals are brought before the RCC, after all members have adequate time for comment. The RCC votes to adopt the regional motions. All issues brought to the RCC have been considered, discussed, and voted on by the Steering Committee.

Both groups have access to the Regional Coordinated Public Transit / Human Services Transportation Plan, all prior year(s) documentation, and all current documentation for consideration at least one week prior to the meeting allowing adequate time for review and contemplation before the discussions at the meetings. A comment period is also offered to take every opportunity for feedback from stakeholders, Steering Committee and RCC members, seniors, disabled persons, and low -income individuals.

Section One: The Regional SWOT Analysis

The CY 2022 Region 9 SWOT Analysis went through rigorous discussion at both the Steering Committee and RCC levels. The CY 2021 SWOT Analysis was presented for discussion and revision at the July 21, 2021, Steering Committee meeting. Following a detailed point by point discussion, the revised CY 2022 SWOT analysis was developed with a vote to adopt at the conclusion of the meeting. The proposed SWOT analysis was sent out to the RCC members for review and comment. At the August 18, 2021, RCC meeting, the revised SWOT analysis was adopted by vote. It is worth noting that several items that had previously been listed as threats were moved to opportunities, and several new strengths acknowledged which both serve to confirm the advancement and ongoing success of the regional pilot program. The results of the CY 2022 SWOT analysis are presented on the following page.

CY 2022 REGION 9 SWOT ANALYSIS

STRENGTHS

1. Commitment to provide excellent services
2. Strong and beneficial relationships with clients and stakeholders
3. Steering Committee and OMEGA support
4. History of reliable/dependable services
5. Region 9 Resource Guide

WEAKNESSES

1. Lack of vehicles to meet need
2. Lack of employees/CDL drivers
3. Lack of, or very limited, weekend services
4. Lack of extended service hours for employment transportation/lack of coordinated and local job transportation   efforts
5. Lack of broadband, and reliable cell phone service in rural areas
6. Lack of available/affordable Out of County (OOC)/Out of Region (OOR) transportation

OPPORTUNITIES

1. Enhance rider experience through improved customer service
2. Mobility Solutions Center
3. Increase/expand transportation providers in very rural areas
4. Educate and inform the region (public and providers) to produce a common regional knowledge of transportation options
5. Creation of regional standards/best practices/policies
6. Partner and coordinate with all available resources to improve collaboration and enhance mobility options
7. Enhanced initiatives utilizing ODOT support
8. Meet regional performance measures
9. Develop creative transportation funding strategies for those riders who fall outside other transportation program guidelines but still face financial hardship in securing transportation.
10. Overcome negative public perceptions and stereotypes of public transportation.

THREATS

1. Loss/lack of adequate funding and match
2. Loss of personal connection with customers
3. Loss of ridership and other sustained negative effects due to telehealth/COVID
4. "Turfism"
5. Federal, state, or local laws or regulations which threaten, or conflict with, multi-state transportation initiatives.
6. The inability to obtain new/additional vehicles sufficient to provide transportation services due to current ODOT regulations, and current vehicle production delays extending for an unknown/unforeseeable period into the future.

Section Two: The 2022 Regional Unmet Needs

The CY 2022 Region 9 Unmet Needs Assessment was completed considering several factors including the 2021 Regional Assessment of Unmet Needs Survey results. The survey was distributed throughout the region and produced over 1,800 responses. Results (see Attachment A) were tabulated for each individual county in the region as well as for the region as a whole. The region- inclusive results were presented to the Steering Committee at the October 20, 2021, meeting. Also considered were the unmet needs contained in the "current" Regional Coordinated Plan. The unmet needs in the current plan were developed during the planning phase of the pilot program (2018-2019) and were originally divided into unmet needs from the stakeholder perspective (gathered at the coordinated council meetings held during the planning phase) and unmet needs from the public perspective (gathered during initial public meetings in each county). In addition to these factors, consideration of current economic, social, health and safety, and regional climates was considered. There was robust discussion at the Steering Committee meeting and revised unmet needs were developed and adopted by vote. The revised CY 2022 Region 9 Unmet Needs list was sent to all RCC members for comment and review and then was formally presented to the RCC at their November 17, 2021, meeting. The revised unmet needs were adopted by vote at the meeting and are presented below:

REGION 9 UNMET NEEDS FOR CY 2022

1. Expansion of transportation services.
    Including, non- medical service hours
    Saturday and Sunday service
    Coverage in rural areas
    Service options after hours
    OOC / OOR transportation
2. Education of, advertising to, and increased awareness by the public of available transportation options, including understanding about funding sources.
3. Short-notice trip services, potentially considering Uber or micro mobility options.
4. Transfer points and development of coordinated routes especially for OOR trips.
5. Adequate funding sources including increased availability of coordinated funding sources.
6. Available and adequate number/sources of rider escorts/rider guardians.
7. Adequate sidewalks and pathways.

Section Three: The CY 2022 Regional Goals and Strategies

The revision of Regional Goals and Strategies began at the January 20, 2021, Steering Committee meeting. The CY 2021 Goals and Strategies were reviewed and a comprehensive discussion about how best to present the regional goals to ODOT was conducted. The considered change was a change in format/presentation only and not a change in basic content. Better defined, SMART goals with expanded strategies for achieving the goals, were ultimately developed by the committee. The decision was made to adopt an inverted funnel structure to best access federal and ODOT funding opportunities, thus best serving the providers and ultimately the citizens of the region. Care was taken not to exclude prior content but only to alter the format of presentation to ODOT of goals and strategies. At the July 21, 2021, Steering Committee meeting, the revised goals were presented, discussed, and adopted by vote. Once this was accomplished, revised strategies were developed, discussed, and reviewed by the Steering Committee. The strategies for the revised goals were presented in advance of the August 18, 2021, Steering Committee meeting where they were discussed and adopted by vote. At the September 24 ,2021 meeting of the Regional Coordinated Council, the newly revised goals and corresponding strategies were presented for comment and were adopted by vote at that time. The updated Goals and Strategies are as follows.

REGION 9 GOALS AND STRATEGIES FOR CY 2022

GOAL 1: To Maintain and Expand Transportation Services and Options.

Strategy 1.1 Support initiatives for cost effective vehicle replacement, fleet expansion, and needed safety adjustments

Strategy 1.2 Increase access to affordable and available employment transportation options

Strategy 1.3 Create more affordable, efficient, and available Out of County (OOC)/Out of Region (OOR) transportation

Strategy 1.4 Create or expand weekend services

Strategy 1.5 Enhance and support the creation and use of regionally beneficial technologies

GOAL 2: To Educate and Inform the Public, HHS Agencies and Organizations, and other Stakeholders as to the Transportation Services and Options Available.

Strategy 2.1 Support and utilize Mobility Management Program

Strategy 2.2 Continue quarterly RCC and monthly Steering Committee and Regional Council of Mobility Management meetings

Strategy 2.3 Increase marketing and advertising of transportation services and options

Strategy 2.4 Enhance and support the use of regionally beneficial technologies

Strategy 2.5 Continue annual Origin-Destination (O-D) mapping

GOAL 3: To Ensure and Increase Equity, Access, Inclusivity, and Safety in Transportation Services and Options.

Strategy 3.1 Build collaborative network of new and existing providers and other stakeholder agencies to promote affordable, available, collaborative regional transportation access for all

Strategy 3.2 Support initiatives that promote broadband, cell phone, and internet access, and connectivity, for the region

Strategy 3.3 Standardize regional forms, policies, and procedures

Strategy 3.4 Examine current and alternative fare structures

Strategy 3.5 Utilize and promote Mobility Solutions Center

Strategy 3.6 Create innovative pilot programs (OOC/OOR, volunteer companions, volunteer drivers, innovative fund braiding, media outreach, etc.)

Strategy 3.7 Establish and maintain infectious disease/Emergency specific responses (COVID, Natural Disasters, Etc.)

Section Four: 2021 County Updates

The Region 9 counties were each asked to provide updated information to be included in the Regional Coordinated Plan update. This information included updated county level unmet needs, and goals and strategies. Also requested were updates to the vehicle utilization tables. Jefferson County is served by the BHJ (Brooke-Hancock-Jefferson) Metropolitan Planning Commission and therefore did not submit vehicle utilization updates. Holmes County does not provide information though they are asked to participate in the regional plan, its ongoing design, and its implementation on a regular basis.

This update section will be presented in the following format: Unmet Needs, Goals and Strategies, and Vehicle Utilization. For each county, the mobility manager presented a brief overview of the methodology used to revise the unmet needs, and the goals and strategies as well as to include information on the ways and methods used to encourage participation in these processes by persons of advanced age, persons with disabilities, and persons of low-income. The vehicle utilization tables for all counties may be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

BELMONT COUNTY:

Unmet Needs were determined by TAC meetings and the results of the 2021 Regional Transportation Survey. The Regional Survey was distributed in various forms throughout the county. A strong majority of surveys returned were from age 60 plus individuals. The surveys were distributed by Senior Services of Belmont County (SSOBC) with home delivered meals. We were able to reach the senior, disabled and low-income population with this distribution. SSOBC serves many meals at the local low income/HUD housing apartment communities in the county. Many responses came from apartments specifically designed to house the low income/disabled populations. The 10 local senior centers also responded well. Some input was given by TAC members to identify the Unmet Needs, Goals and Strategies for the 2022 updates to the Coordinated Plan. The Updates have been sent to the TAC members for their approval/and or comments.

Unmet Needs, Goals, and Strategies

1. **Unmet Need: Travel Companions**
   - GOAL: To provide riders with a travel companion so they are able to have procedures they medically need. To accompany riders to and from medical appointments. Especially needed when sedation is being received during an outpatient procedure and the medical facility will not discharge unless being released to a responsible person. (This cannot be done by the transportation drivers)
   - STRATEGY: Locate agencies that will provide this service, locate/develop volunteer programs to this service, have discussions with local hospitals/medical providers, approach local home health agencies to negotiate a low rate for riders to pay for a home health aide to travel with them.

2. **Unmet Need: Underserved/Unserved Areas of the County**
   - GOAL: Expand service areas in the county. Have more transit options in western Belmont and southeast parts of the county not served by public transit. Especially the DD/MM, seniors and the work force and higher education population.
   - Strategy: Support 5311 service in the county, Secure 5311 Funding

3. **Unmet Need: Wheelchair Accessible Vehicles**
   - Goal: Attain additional wheelchair accessible vehicles/ additional vehicles with lifts to accommodate extra wide/bariatric wheelchairs for private providers.
   - Strategy: Private nonprofit providers secure 5310 funding from ODOT

Vehicle Utilization Data

In Belmont County, four transportation providers have provided vehicle data. These providers are Martin's Ferry, SEAT (South East Area Transit), SSOBC (Senior Services of Belmont County), and Neff's Fire Department. All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

CARROLL COUNTY:

Carroll County Unmet Needs

1. Create, sustainable solutions to current driver shortage
2. Create, sustainable solutions to current vehicle shortage
3. Expansion of affordable and cost-effective ways to have Extended Hours
4. Increase and expand the limited public knowledge of local transportation services
5. Create and support resources for residents unable to pay for transportation services and do not qualify for other available assistance

Goals and Strategies

Goal 1: Maintain and increase current transportation services and options
   a. Create, expand, or find funding for better incentives for new and current drivers
   b. Support inventive ways for cost effective vehicle replacement/maintenance plan
   c. Expand services hours

Goal 2: Increase public knowledge of local transportation service options
   a. Increase marketing and advertising of transportation services and options
   b. Maintain and expand community outreach through networking with local stakeholders, agencies, and organizations
   c. Maintain and collaborate with Mobility Management program

Goal 3: Increase access and inclusivity in transportation services and options
   a. Expand or created transportation options for low-income residents that do not qualify for other available services
   b. Maintain and expand involvement with Caring Hands

Vehicle Utilization Data

In Carroll County, four transportation providers have provided vehicle data. They include Carroll County Board of Developmental Disabilities, Carroll County Council on Aging, Carroll County JFS, and Carroll County Public Transit. All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

COSHOCTON COUNTY:

UNMET NEEDS, GOALS, AND STRATEGIES

The Coshocton County Mobility Manager (MM) conducted a countywide survey to assist in identifying the unmet needs mentioned above. OMEGA provided an online link and QR code to access the survey. The survey link and QR code were published in the Coshocton County Beacon. The ad was posted in all CCCTA vehicles, the office window and on the MM and CCCTA websites/Facebook pages. The survey was sent out to all county agencies through the countywide email and the agencies were asked to share with staff and individuals served by their agencies. Steve Oster, Superintendent of the Coshocton County Board of DD made the survey available through email to everyone served by their agency/school. Coshocton Senior Center delivered the survey to 500 seniors along with their home delivered meals. The MM also delivered surveys to senior and low-income housing complexes. The CCCTA Director and MM sponsored a stand at the Coshocton County fair and promoted the survey. Residents of neighboring counties completed several surveys. Those surveys were forwarded to the MM in the corresponding counties. CCCTA drivers distributed surveys to their passengers. The MM frequently receives calls from collaborating agencies, medical providers, CCCTA drivers and family members who report unmet needs for those in their care. The unmet needs were derived from the efforts describe above. Survey results showed the original unmet needs are continuing and two new unmet needs were realized.

The CCCTA/MM Advisory Board met on June 15th to review and discuss dissemination of the surveys. The Board met again on September 9th and discussed the preliminary results of the survey and reviewed the goals and strategies. The MM advised the board the survey would continue through October 7th so we could do surveys throughout the Coshocton County Fair. The MM emailed the proposed update to the Board on September 22nd and the Board met again on September 23rd for discussion. There were no additional changes or comments, so the update is approved unless the final survey results reveal additional unmet needs.

The following **unmet needs** have been identified in Coshocton County:

- Need for multi-use paths/repairs to existing sidewalks & paths
- Need for advertising/promotion of existing transportation services
- Expansion of transportation services in Coshocton County
- Need for a Personal Care Attendant Program
- Need for Mobility/Independence: Wheelchair ramps, Assistive equipment, Housing and Training

GOAL#1 (Continuing)

To secure funding for sidewalks/multi-use paths improvement and installation of new and to improve access by implementing curb cuts/ramps for mobility users.

NEED FOR MULT-USE PATHS/REPAIRS TO EXISTING SIDEWALKS & PATHS

Needs being addressed: Areas of high pedestrian travel where multi-use paths do not exist
- Browns Lane
- Roscoe Village
- Lake Park
- SR 621 (to Walmart)
- Otsego Avenue/Kids America
- Chestnut Crossing
- Rural Amish Areas
  - SR 643
  - SR 83
  - CR 12

STRATEGY 1.1:
Implement multi-use paths where they do not exist and repairs to existing multi-use paths/sidewalks where needed.

ACTION ITEMS:
- Transportation/Pedestrian Survey…OMEGA/ODOT
- Analyze safety data in target areas
- Photo documentation of pedestrian traffic in target areas
- Documentation of user's personal experiences
- Consider business impact along target areas
- Safe Routes to School
- Apply for funding. Possible funding sources include (but not limited to) CDBG, ODOT TAP, ODNR (Clean Ohio Trail Program), America In-Bloom, local businesses

Updates:
- South 6th Street
  - Multi-use path from Magnolia Street to Plum Street is complete
  - Tuscarawas Twp. Discussed Appling for CDBG funding to continue the multi-use path from Plum Street to Bank Street
- CR 12 – Coshocton County Engineer's Office successfully applied for Road Safety funding
- CR 621 – I proposed a 3-phase multi-use path project to the Coshocton County Engineer's Office & Coshocton County Commissioner Dane Shryock
  - Seeking letters of support from businesses and organizations in the targeted area
  - Collecting photos of pedestrians, bicyclists and individuals using mobility devices in the targeted area
  - Engineer's Office will do traffic counts in targeted area
  - LOI was submitted in October for TAP funding to complete phase one of the project
- Safe Routes to School – City of Coshocton
  - City is working with OMEGA on the safe route to school plan

- City is also initiating a multi-use path. Michelle Turner Gantz is the lead on this project. They are working on acquiring railroad property that will be used for the project.

GOAL #2 (Continuing)
NEED FOR ADVERTISING/PROMOTION OF EXISTING TRANSPORTATION SERVICES

Need being addressed: Marketing of providers and services available on a local and regional level.

STRATEGY 2.1: Build a marketing campaign to increase ridership and public knowledge

ACTION ITEMS:
- Mobility Manager build partnerships
  - Social Service Agencies, Government Officials, Local Businesses
- Understand audiences
  - Elderly, disabled, low-income, and general public
- Social Media
- Publications
  - The Beacon
  - The Coshocton Tribune
  - WTNS Radio
  - Coshocton Directory/Visitors Guide (CVB)
- Signage
  - Billboards
  - Chamber of Commerce
  - Rotary
- Presence at public functions
- Information/promotional giveaways
- Employers/Job Fairs
- COTC
- Faith Based Organizations/Ministerial Organizations
- Tag Chamber in social media posts/Newsletter
- WTNS talk show

Updates:
- In-person outreach is slowing returning
- Publications
  - CCCTA publishes weekly ads in the Coshocton Beacon
  - Billboards
  - Regional Resource Guide
  - Regional Public Service Announcements
  - Surveys
- Public Outreach
  - First Farm Fridays
  - Job Fair
  - Coshocton county Fair
  - Novelty Giveaways
  - Signage

GOAL #3 (Continuing)
EXPANSION OF TRANSPORTATION SERVICES IN COSHOCTON COUNTY

Needs being addressed: Coshocton County residents need transportation for non-medical purposes such as employment, special events and after school needs for school age children

STRATEGY 3.1: Develop affordable and dependable transportation programs for non-medical needs

ACTION ITEMS:
- Conduct a feasibility study
- Expand providers capacity
  - Service hours
  - Vehicles
  - Staff
  - Drivers
- Public routes in rural areas of county
- Create a ride share program
- Employment transportation both locally and regionally (out-of-county)
- Lower fares for back to work employees
- Seek Funding
  - ODOT 5311 Rural Public Transit
  - ODOT 5310 Specialized Transportation/Mobility Management
  - OMEGA
  - Local grants, foundations, and businesses

Update:
- Employment Transportation Study is underway
- Continued need for new vehicles to support public transportation

Proposed New Unmet Needs:
- Need for Personal Care Attendants
- Need for Mobility/Independence: Wheelchair ramps, Assistive equipment, Housing, Training

Proposed Projects:
- Personal Care Assistant Program (regional) BPW Women
  - Foster Parenting
  - Children visiting incarcerated parents
- Wheelchair Rental Program for public transportation
- Bicycle/Wheelchair Rental Program
- CCCTA partnering with local agencies to utilize their vehicles when down.
- Committee to develop resources to create pole of funding to support transportation services for those with no funding source.

GOAL #4 (NEW)
Our goal is to develop a volunteer based Personal Care Attendant Program to assist individuals who do not have anyone who is able to travel with or attend medical appointments and act on their behalf.

NEED FOR A PERSONAL CARE ATTENDANT PROGRAM

STRATEGY 4.1: To establish a volunteer-based program to provide personal care attendants to passengers who may be required to have someone attend their appointment to act on their behalf and or those who could benefit from the service.

ACTION ITEMS:
- **Seek Funding**
  - **Local Foundations**
  - **ODOT**
  - **COAD**
- **Establish Community Relationships**
  - **Churches**
  - **Senior Center**
  - **United Way**
- **Review Existing Models**
- **Recruitment**
- **Training**
- **Advertising**

GOAL #5 (NEW)

To create or collaborate with existing programs to build an inventory of assistive equipment and initiate programs to support housing and training needs.

NEED FOR MOBILITY/INDEPENDENCE: Wheelchair ramps, Assistive equipment, Housing and Training

STRATEGY 5.1: To develop a program that would provide assistive equipment/devices as well as mobility solutions for those in need.

ACTION ITEMS:
- **Create Focus Group**
- **Establish the Needs**
- **Funding**
- **Volunteers**
- **Collaborate with The Coshocton County Handicapped Society**
- **Donation Program for Equipment/Devices**

The goals, strategies and action steps were established and approved by the CCCTA/MM Advisory board during our quarterly meetings.

Vehicle Utilization Data

All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

GUERNSEY COUNTY:

In Guernsey County, at the Senior Center, we include seniors, disabled persons, and low-income individuals within our Senior Coordinated Transportation Advisory Committee to provide valuable input toward creating & updating our Coordinated Transportation Plan; identify needs and gaps; as well as our goals and strategies. The Committee meets at least two times per year and/or up to quarterly, especially if we are updating the entire county plan. In 2020 we had a meeting in February, but all other meetings were suspended due to Senior Center's being mandating by The Governor to be closed to the public due to COVID-19. Advisory meetings have not resumed due to no in-person meetings being preferred among advisory members; little or nothing new has changed/been identified; and limited computer access within the population we specifically work with, thus preventing Zoom meetings. In accordance with Title III regulations, we distribute customer surveys to our transportation clients on a quarterly basis. Surveys as well as all rider comments and rider suggestions are managed and reviewed on a constant on-going day-to-day basis. We take client feedback very seriously and we have very often modified our program based upon trending needs, local demands, as well as budgetary constraints within our funding & revenue sources.

Unmet Needs

Guernsey County Senior Transportation Survey & Coordination Member

Needs & Gaps Identified:

- Expanded Hours of transportation services (Evenings are needed) *Update: GCSCC expanded our M-F hours until 8:00 PM pre-COVID. During COVID we have had to cut back evening transport services to 5pm.*
    - SEAT is not preferred and does not work well for most senior citizens (i.e., curb to curb, lack of shelters, etc.)
    - More affordable & easily accessible transportation options for out of county transport. *Update: GCSCC is currently planning to launch out-of-county transport pilot program to include Muskingum County Nov/Dec 2021.*
    - No weekend services. Expanded days transportation is available should include Saturdays and Sundays (even if only limited*). Update: GCSCC began Saturday transportation services 8:00 am-1:00 pm in 2020.*
    - Lack of bus routes, Uber drivers, taxis, trains, subways available in rural Guernsey County, Ohio.
    - Shuttle services are needed to and from hospitals and medical offices located outside of the county*. Update: GCSCC has begun tracking our transport and referrals to and from SEORMC back in 2018 and we continue to share these reports with SEORMC.*
    - Need for shopping shuttles that go outside of the county.
    - Seniors like and prefer working with established local providers with locally known drivers (know & trust).
    - Need for additional new & available handicapped accessible vans, buses, and vehicles. *Update: GCSCC continues to apply for new vehicles funded via ODOT 5310 grant funding, however, new vehicle availability has been challenging due to the national vehicle and part shortages nationwide because of COVID.*

- Need for transportation shuttle to/from small rural churches so senior citizens can attend church services. *Update: GCSCC continues to explore expanding and partnering with churches to provide transport. Unfortunately, due to COVID many churches have seen decreased attendance, especially among the elderly.*
- Need for more afternoon & evening "social/non-medical transportation"—i.e., to/from restaurants, movies, events, theatre, plays, and community events. *Update: GCSCC continues to provide social, recreational, cultural enrichment, educational, and other non-medical transportation for older adults residing throughout Guernsey County.*

Vehicle Utilization Data

All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

HARRISON COUNTY:

Unmet Needs

- Create a sustainable solution to the current driver shortage
- Maintain and expand affordable and cost effective Out of County transportation options
- Create a sustainable cost-effective way to extended service hours
- Maintain and expand shopper shuttle options
- Increase or expand greater public knowledge of local transportation services

Goals and Strategies

Goal 1: Maintain and expand current transportation services and options

    a. Create and maintain incentives/benefit package for new and current drivers
    b. Maintain and expand affordable out of county transportation
    c. Visit or find additional funding to extend service hours
    d. Maintain and expand shopper shuttle program

Goal 2: Increase access and inclusivity in transportation services and options

    a. Increase marketing and advertising of transportation services and options
    b. Maintain and expand community outreach through networking with local stakeholders, agencies, and organizations
    c. Maintain and collaborate with Mobility Management program

Vehicle Utilization Data

Harrison County provided vehicle utilization data from five transportation providers. They include Harrison County JFS, Harrison County Senior Center, Harrison County Public Transit, Harrison County Veteran's Services, and the Harrison County Home. All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

Jefferson County:

The 2021 updated needs and goals statements were developed through BHJ staff discussions with two focus groups hosted in September 2021. Focus group attendees included representatives of 3 for-profit transit companies as well as non-profit leaders from: Urban Mission Ministries, the Community Action Council, the Board of Developmental Disabilities, Eastern Gateway Community College, and the County Joint Vocational School.

Unmet Needs, Goals and Strategies

Unmet Needs:
1. Expanded geographic coverage of transit options for rural residents to access employment, healthcare, and quality-of-life opportunities throughout the region.
2. Improved coordination among transit companies throughout the region to better serve Jefferson County residents, including jobseekers in rural areas.
3. Expansion of service hours to offer transit options for evening travel.

Goals:
1. Develop an actionable plan to expand transit options to the rural areas outside of Steel Valley Regional Transit Authority's (SVRTA) fixed routes in Steubenville-Wintersville-Mingo Junction.
   Strategies:
   a. Document the specific data of rural jobseekers, disabled, and medical patients who are struggling to find transit solutions for their respective travel needs. Data will be derived through follow-up discussions with the training providers and non-profit leaders who attended the September 2021 focus group discussion.
   b. Document the process of expanding publicly subsidized transit service to all areas of Jefferson County for review with Jefferson County leaders.
   c. Research nationwide best practice examples of non-profit and/or volunteer structures for rural transit service.

2. Improved regional coordination of all transit services, with a focus on minimizing travel time for jobseekers and patients requiring travel to Western PA and throughout Jefferson County.
   Strategies:
   a. Brooke-Hancock-Jefferson Metropolitan Planning Commission (BHJ) will focus on regional transit coordination efforts in 2022, as the Weirton Transit Corp. has hired a new Executive Director and SVRTA has implemented new and streamlined route systems in October 2021.

Vehicle Utilization Data

Jefferson County is served by the BHJ (Brooke-Hancock-Jefferson) Metropolitan Planning Commission and did not provide any transportation provider vehicle utilization data.

Muskingum County:

All goals and strategies along with unmet needs were gathered by Regional Surveys and holding quarterly TAC meetings with local Stakeholders.

Unmet needs were looked at and discussed during the TAC meeting using the data gathered by the Regional Surveys.

Goals and Strategies were also formed on the same platform and will continue to be looked at, measured, and voted on annually.

Unmet Needs, Goals, and Strategies

Muskingum County Unmet Needs

Rank	Unmet Need Description	Method Used to Identify and Rank Need
1	A Lack of Funding	Stakeholders determined that without proper funding, other unmet needs can't be addressed.
2	Weekend and Evening Services	Regional and County Surveys concluded that weekend and evening services were a huge unmet need.
3	Out-of-County trips including trips to Columbus and other Cities	Regional and County Surveys concluded that weekend and evening services were a huge unmet need.
4	Special Project Funding	Regional and County Surveys concluded that there is a huge need for but not limited to: wheelchair ramps/wheelchair ramp programs.
5	Complete Streets and Bike Trails	Mobility is not limited to transportation using vehicles. It's important to add sidewalks and other options for biking, walking, or running.

Goal #1: Increase funding and or funding opportunities for transit and coordinating transportation within the County(ies).	Completed	Not Completed	Ongoing	Comments
1.1 Transportation providers meet with respective local elected officials, businesses, economic development, and others to explain the benefits of local transportation program, increase buy-in, and seek more significant financial support.			X	SEAT on the Muskingum County Workforce Advisory board as of October. SEAT meets with COZ City Council, Muskingum County Commissioners, City of Cambridge Mayor, Guernsey County Commissioners and Noble County Commissioners Working with agencies on purchase of service for NEMT
1.2 Enter into MOU agreements for purchase of service agreements among agencies			X	
1.2.1 Transportation providers and agencies from Muskingum and neighboring counties working through a Transportation Advisory Committee (TAC) for shared service agreements.			X	The Mobility Manager created a TAC in 2020 and holds quarterly meetings.
1.2.2 Solicit funding from all levels of local government, local businesses, foundations, and community organizations.			X	

Goal #2: Establish Active Transportation Projects – Bike and Walking Routes, Safe Routes to Schools, Improvements to Roads and Sidewalks	Completed	Not Completed	Ongoing	Comments
2.1 Work with economic development and planning to draft plan and participate in Active Transportation Projects.			X	SEAT was part of the City of Zanesville Comprehensive Plan Transportation Element. The Mobility Manager also holds quarterly TAC meetings to support these meetings.
2.2 Support County funding applications and submit grant funding applications.			X	The Mobility Manager will help seek and support funding applications.
2.3 Develop community involvement process to support and educate the community on active transportation.			X	The Mobility Manager will collaborate with SEAT's travel trainer to provide passenger(s) with travel training.

Goal #3: Improve the level of service provided in the county, thereby increasing availability of services.	Completed	Not Completed	Ongoing	Comments
3.1 Expand Transit to provide, extended hours and days of operation.			X	Independent Contracted Vendors NEMT only 24-hour operating service
3.2 Hire regional mobility manager to serve Muskingum County. Establish MOUs and shared scheduling software capabilities. It is noted that this strategy is well underway as a mobility manager has been assigned and is making regular visits to Muskingum County and SEAT's scheduling software is being shared with five other provider and transit consumer institutions.	x			OMEGA pilot, MOMS Mobility Manager was hired March 16th, 2020 and will now measure and monitor the Goals and Strategies of the Coordinated Plan moving forward.
3.3 Expand same day service scheduling options. Use scheduling software to increase same day scheduling options.			X	SEAT's scheduling software has helped to increase same day service on average of 200 trips per month. It is noted that SEAT has increased the level of same day service drastically since implementation of the new scheduling and dispatch software. SEAT's service hours have expanded and will do so on an as need basis.

Goal #4: Obtain the necessary capital assistance, including vehicles and related equipment and new technology to improve mobility options.	Completed	Not Completed	Ongoing	Comments
4.1 Generate local funding support for new technology and new/replacement vehicles			X	
4.2 Coordinate purchase of capital equipment and secure ongoing funding for capital equipment maintenance. It is noted that SEAT has a maintenance facility and can provide maintenance for other organizations.			X	SEAT is servicing and providing preventive maintenance on Senior Centers vehicles, Public Transit vehicles, private and public Non-Profit vehicles, Church vehicles, Fire and EMS vehicles
4.3 Joint purchasing of services, drug testing, maintenance, and other services.			X	

Goals #5: Create a Transportation Structure that Promotes More Efficient Use of Resources	Completed	Not Completed	Ongoing	Comments
5.1 Develop Regional TAC and meet on a regular basis. Hold county TAC meetings on at least a quarterly basis.			X	The Mobility Manager created a TAC in 2020 and holds quarterly meetings.
5.2 Develop contracts and MOUs among partners. MOU will express commitment to work together and promote coordination of service.			X	
5.3 Coordination of service – shared ride and use of shared scheduling software.

It is noted that several Muskingum County providers are using shared scheduling software. | | | X | Several agencies are using the scheduling software to schedule transportation for client through the software portal |

Goals #6: Increase Awareness and Presence for social media and Web Pages	Completed	Not Completed	Ongoing	Comments
				The Mobility Manager will engage with the public via social media, web pages and community outreach beginning the first quarter in 2021.
6:1 Increase presence of social media- First quarter 2021			x	Provide the public and Human Service Agencies with Mobility Management and Transportation information. 2021- The Mobility Manager created a Regional Resource Guide for Region 9 that will continue to grow and be active to the general public and agencies.

Vehicle Utilization Data

All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

TUSCARAWAS COUNTY:

All Tuscarawas County's unmet needs, goals and strategies are a compilation of survey data that was distributed to health care providers, Senior Centers, Board of DD, residents of low-income housing, nursing homes residents, senior nutrition program and local residents both English and non-English speaking. Considerations for unmet needs were also derived from requests verbalized throughout the community and needs within stakeholder organizations. An open discussion and vote for all unmet needs; goals and strategies took place at our quarterly TuscoBus advisory board meeting on October 21, 2021.

TuscoBus Advisory Board Meetings:

March 11, 2021, via zoom
July 15, 2021, via zoom
October 21, 2021, in person

Local Organizations meet and greet:

Mineral City Senior Center- June 22, 2021
Cleveland Clinic Union Hospital Nurse Navigators-June 25, 2021
Sugarcreek Senior Center- June 29, 2021
Claymont Senior Center- July 26, 2021
West Chester Senior Center- August 13, 2021

Unmet Needs, Goals, and Strategies

Tuscarawas County Unmet Needs

1. Increase or expand greater public knowledge of local transportation services
2. Creative and sustainable solutions to the current driver shortage
3. Creative and sustainable solutions for the current vehicle shortage
4. Create and support resources for county residents unable to pay for transportation services and that do not qualify for other available assistance
5. Creative solutions to communication barriers (non-English speaking, hearing impaired, sight impaired)

Tuscarawas County Goals and Strategies

1. Increase public knowledge of local transportation service options
   a. Increase marketing and advertising of transportation services and options
   b. Maintain and expand community outreach through networking with local stakeholders, agencies, and organizations
   c. Maintain and collaborate with Mobility Management program

2. Maintain and increase current transportation services and options
   a. Create or find funding for better incentives for new and current drivers
   b. Support cost effective vehicle replacement/maintenance plan
   c. Create collaborative program to assist capacity with county's network of providers
   c. Formalize vehicle disposition program
   d. Create affordable funding for out of county transportation

3. Increase access and inclusivity in transportation services and options
   a. Expand knowledge and insight for providing non-English speaking, hearing impaired, sight impaired population with transportation options

Vehicle Utilization Data

In Tuscarawas County, six transportation providers provided vehicle utilization updates. They included Access Tusc (public transit), Community Mental Healthcare Inc. (CMH) now Springvale Health Centers, Inc., Horizons, Tuscarawas County JFS, Tuscarawas Senior Center (SC), and the Society for Equal Access (SEA). All vehicle utilization tables can be found by following the link below:

https://omegadistrict.org/2021ctpupdates/

Section Five: Changes to Regional Transportation Provider List

In CY 2021, one agency ended transportation service and four agencies were added to the regional provider list in the Coordinated Transportation Plan.

Ceased Transportation Services:
National Church Residences, Belmont County.

Transportation Services Added:

Community Action Commission of Belmont County (CAC)
152 1/2 W Main St
 St Clairsville Oh 43950
740- 695-0293

They currently have 1 van and 1 driver. They mainly provide transportation to and from the CAC office for heap and other social service application appointments. Any other transportation availability is very limited at this time. They serve Belmont County.

Harrison County Council on Aging
120 North Main Street
Cadiz, Ohio 43907
740-942-3238

They provide service Monday-Friday from 8-4. They serve seniors over 60 years old in Harrison County. It is door to door, demand response service. They do not provide Medicaid trips.

Starlight Enterprises, Inc.

Tuscarawas County Addresses:	Carroll County Addresses:
400 East High Ave. PO Box 1054	705A Canton Road NW
New Philadelphia, Ohio 44663	Carrollton, Ohio 44615
and	and
246 East High Ave.	713 Canton Road NW
New Philadelphia, Ohio 44663	Carrollton, Ohio 44615
330-339-2020	330-339-2020

They provide private transportation for persons with disabilities that are enrolled in their programs. It is demand response transportation to and from their programs. They serve both Tuscarawas and Carroll counties with several dozen vehicles in total.

Carroll Hills Industries
1182 Roswell Road NW
Carrollton, Ohio 44615
330-627-5524

They provide private, demand response trips for disabled persons to and from their workshops and for some personal, non-Medicaid, care appointments. They serve Carroll County.

Attachment A: REGIONAL SURVEY OF UNMET NEEDS ASSESSMENT

The survey was conducted region wide, with data assembled for both single county results and region-wide results. This data was used in conjunction with the development of regional CY 2022 Unmet Needs and CY 2022 Goals and Strategies. The survey results summary may be found by clicking on the link below:

https://omegadistrict.org/2021ctpupdates/
